

HYPROTECTION ZONE ***EDUCATIONAL FACILITY SANITATION GUIDE***

Imperial Dade's HyProtection Zone Program is a straight-forward guide designed to assist educational facilities in improving their cleaning, disinfecting, and hand-hygiene protocols. The program includes best practices and product recommendations.

Classroom/Lab, Office/Conference Room, Gymnasium, and Common Area Best Practices:

- Clean surfaces, removing soil load, before disinfecting.
- Use a disinfectant cleaner on all high-touch surfaces. Follow the product label directions and ensure proper dwell time.
- Use color-coded microfiber cloths or disposable wipers to prevent cross-contamination.
- Keep shared supplies and tools to a minimum and disinfect between use.
- Place sanitizing wipe dispensers throughout facility for occupant use.

RESTROOMS / LOCKER ROOMS

Restroom/Locker Room Cleaning Best Practices:

- Use a disinfectant bowl cleaner in toilet bowls and urinals. Allow dwell time, per instructions, before swabbing, flushing, and rinsing.
- Use a disinfectant cleaner on all high-touch surfaces, sink basins, and showers. Follow the product label instructions and ensure proper dwell time.
- Use touchless dispensers, flushers, and faucets.

Cafeteria and Back-of-House Best Practices:

- Clean surfaces, removing soil load, before disinfecting.
- Use a disinfectant cleaner on all high-touch surfaces. Follow the product label directions and ensure proper dwell time.
- Use color-coded microfiber cloths or disposable wipers to prevent cross-contamination.
- Use a foodservice sanitizer on food contact surfaces.
- Verify warewashing machines are operating at the required wash and rinse temperatures and with appropriate detergents and sanitizers.

FLOOR CARE

Floor Care Best Practices:

- Floors require disinfecting.
- Use a color-coded microfiber mopping system to prevent cross-contamination.
- Use a neutral pH quat disinfectant on resilient tile flooring. Apply with a microfiber mopping system and allow proper dwell time. Mop again to pick up any excess solution.
- Post a wet-floor sign during cleaning.
- Mop from the far corner of the room towards the entrance.
- Pay attention to corners and baseboards and be sure to clean crevices where bacteria can collect.
- Use specialty floor cleaners for rubber and wood surfaces.
- Follow a detailed floor maintenance schedule for hard and soft surface flooring.
- Use entrance matting to reduce the soil coming into the facility.

HAND HYGIENE

Hand Hygiene Best Practices:

- Place hand sanitizing dispensers at entrances and high traffic areas with signage reminding people to use the product.
- Post hand-washing signage in all restrooms and in the kitchen reminding people that handwashing is required.
- Use touchless dispensers for soap, sanitizer, and paper towels.
