Hi-Speed Supply

Estimated Quantities:

Gary Aguilar, Jul 21, 2020 5:43 PM CDT

I reviewed the estimated quantities section and I would like to seek additional information. My small business is in the Corpus Christi TX area. I am a wholesale supplier of sanitizers and disinfectants. I am able to drop ship large quantities of product in order to make a profit. I am able to ship directly from the manufacturer to the purchaser. Will large shipments go to one (1) location? Will I be obligated to sell small quantities or would another local approved supplier be able to assist? Thank you.

Clint Pechacek, Jul 29, 2020 8:31 AM CDT

Shipments will go directly to cooperative members across the nation, so they will not be shipped to a single location. As for quantities, vendors are allowed to take exceptions to the terms and conditions, however setting volume requirements for orders may effect a vendor's score in evaluation.

RFP Hand Sanitizer

Mike delafosse, Jul 25, 2020 7:22 PM CDT

I will be sending in a proposal per your request for hand sanitizer. Do you have an approximate quantity that will be needed. We have 2oz, 12oz and one gallon. Thank you Mike DeLafosse Oso Bright

Clint Pechacek, Jul 29, 2020 8:29 AM CDT

This RFP is for indefinite quantities and indefinite deliveries across the nation. We cannot

accurately predict what quantities cooperative members might need.

Product Listing

David McKenna, Jul 21, 2020 8:50 AM CDT

In the Excel document it mentions that there are three workbooks. There are only 2 and no where can I find the list of products that you want us to price out. Am I missing something?

Clint Pechacek, Jul 29, 2020 8:32 AM CDT

The list of products to price out is in the Scope section of the RFP. The reference to three workbooks is a clerical error, there should only be two.
