### **Executive Summary**

ESS is the largest dedicated provider of substitute and paraprofessional staffing to PreK-12 school districts. Our team is fully committed to delivering an education-focused management solution through exceptional recruiting and hiring outcomes, all while effectively leveraging education and community support. ESS' proven experience with school districts across the nation ensures Region 10 ESC/Equalis Group and its members can expect substitute and paraprofessional programs that eliminate the administrative burdens of identifying, recruiting, training, performance management, payroll processing, and managing a pool of employees while providing transparent and accurate reporting and measured results.

Our team is confident we understand the key factors that will drive success with your members' substitute staffing programs. We have outlined our plan that is customized to the needs of every partner for delivery of a best-in-class program. Please see the following items we would like to highlight:

#### **Experience Transitioning Substitute and Temporary Staffing Personnel Programs**

With over 20 years supporting over 750 school district partners, large to small, future education partners can be confident in a seamless transition through the implementation of our multi-point plan, local, dedicated management team, and systems customized to the needs of the schools. The ESS proposal provides a comprehensive overview of the steps and activities that will be undertaken to ensure a smooth, and effective transition from an award-winning company.

#### Impact on Education Partner's Operating Budget

Our goal in building a partnership is to provide the highest level of customer service while being as cost effective to our education partners as possible. Included in our program will be a state-of-the-art Education suite of systems and technology support (willsub+ and/or Frontline's Absence Management) along with experts to ensure the programs are fully utilized increasing efficiency, effectiveness and useful reporting. Additionally, ESS includes a regional management team, initial and ongoing training, and employee incentive/recognition programs. Our Applicant Tracking System, as well as other valuable ancillary services, are available at the request of the education partner. These efficiencies result in significant time and financial savings.

#### **Proven Hiring Practices**

It is our goal to contact, recruit, and hire every employee recommended by the education partner who passes background screening and wishes to continue working with the education partner. We will reach out to existing employees announcing our partnership via the education partner's website, our website, with flyers placed in schools, advertisements in local newspapers, and more. Substitutes and other temporary personnel will be employed, compensated, and provided benefits as welcome members of the ESS team. They will be an integral part of the education partner's community. This will maximize consistency and continuity for students and build upon the progress the education partner is experiencing today. The regional management team will provide support to employees ensuring they're provided the necessary tools to do their job well.

### **Executive Summary**

#### **Technical Knowledge**

ESS has a dedicated relationship with Frontline Education. Not only are we able to leverage Frontline's training programs and systems, we also have an in-house team that specializes in Frontline Education's systems. We also have our own proprietary absence management system, "willsub+." Our in-house willsub+ and Frontline Education experts will set up and maintain your education partners' absence management systems to provide administrators a user-friendly platform that offers real-time reporting, tracking and billing. Principals, as well as district staff, will be able to establish preferred employee lists that allow them initial feedback for the employees entering their classrooms. Our ability to customize our technology or Frontline's to best fit the needs of the education partner sets us apart from competitors. The absence management system will eliminate any unnecessary front-office paperwork, ensure accuracy, and streamline reporting. If a district does not have Frontline Technologies or want to use our willsub+ system, ESS can interface and integrate with other absence management systems. ESS has ample experience with all absence management systems, so any member district can to keep its current technology in place.

#### Ability to Schedule and Manage Staff

We have a dedicated management team consisting of local and regional support, all backed up by a corporate support team. This multifaceted approach allows our local leadership to be an extension of the education partner's administrative team. Our dedicated team will be responsible for recruiting, hiring, and training of the employee pool, as well as communicating with principals and all day-to-day employee placements. Using our technology platforms, the education partner's administration, along with our regional management team, will have the ability to track employee placements in real time, daily.

#### Conclusion

ESS delivers the management expertise and depth of experience; the vital, unique, and proprietary operating and software systems; the knowledgeable regional and national support personnel; and the financial strength necessary to continue to invest in infrastructure, operations, technology and key personnel.

Our focus is creating a personalized program for our partners so educators and administrators can use their time, resources, and skills to continue providing a great education experience to every one of their students, every day. This is an important and significant investment. We realize there are other companies that promise to deliver similar services, but they do not. Speak to our references who've had a competitor, then ESS, and hear the ESS difference firsthand. We invest in people locally, regionally, and nationally, as well as systems and services because we fully understand that delivering on the promise of an enhanced classroom experience for students, teachers, and staff should not be treated like a commodity. These are not contracted, outsourced services; it's a partnership and we are fervently committed to treating our employees and clients like partners.

ESS takes great pride in delivering a quality service program, providing its people with opportunities for personal and professional growth, being a genuine partner to its clients, and actively engaging in the communities we serve. Our education partners across the country can depend on ESS to provide unmatched customer service, significant resources, and a team that cares about schools, students, and community. We look forward to earning an opportunity to partner. We hope that together we can make Every Day Count!

#### 4. Please provide a brief history of your company, including the year it was established.

ESS was founded 20 years ago with the vision of providing administrative relief to school districts and professional working opportunities to qualified educators. Beginning in 2000 with just 17 partner districts and 150 employees, ESS quickly became the premier solution for school districts nationwide. In 2017, ESS merged five regional companies, each of which were market leaders in their areas, to become the nation's largest education-exclusive staffing and management company.

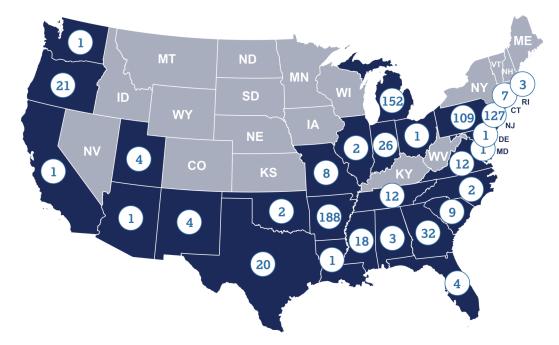

Today, we are partnered with more than 750 school districts in 29 states, serving 3,500,000 students with more than 60,000 employees. Our growth continues to this day, as we recently acquired a company that enhances our ability to providing virtual education solutions: Proximity Learning Inc., an Austin, TX company that provides online, live instruction to K-12 school districts.

#### **One of America's Best Large Employers**

Since our inception we have seen tremendous growth not only in our client list, but also in our reputation as a world-class employer. For three consecutive years, ESS has had the distinct honor of being named one of "America's Best Large Employers" by Forbes Magazine. We are very proud of these awards. They are a testament to our employees; they are knowledgeable, compassionate, successful, and helpful. This experience and dedication will be brought to your member districts.

#### Size, Strength, and Stability

ESS is a national company with revenues in excess of \$500 million. Our strong national presence of over 750 partnerships across 29 states gives us a wealth of resources and a deep infrastructure to ensure our partners receive the highest quality service possible.

#### **ESS Leadership**

#### **Buddy Helton, President & CEO**

Buddy brings over 35 years of business expertise to our clients. For twelve years, he led a national facilities services company with responsibility for K-12 schools and higher education operations across the United States. Buddy delivered results to customers, resulting in high customer satisfaction and company growth with average annual revenues that increased, on average, by 24% per year over eleven years. He founded Southern Building Service in the mid-nineties and served as President of that organization. The company enjoyed exponential growth, again with very high customer satisfaction and references. Buddy and the ESS executive team continue to have a "pioneering" attitude. Buddy graduated from the University of Tennessee with honors and holds a Bachelor of Science Degree in Business Administration.

With over 15 years of experience in K-12 operations, Steve joined the ESS team in February 2017. He has successfully managed education-based operations in excess of \$100 million throughout the nation. Steve is accountable for ensuring quality operations and customer centered programs for each and every ESS client. Steve received his Bachelor of Science in Marketing from Clemson University in 2000 and his Master of Business Administration from Charleston Southern University in 2004. Steve resides in the Charleston, SC area with his wife and children.

#### John Devall, Chief Financial Officer

John Devall has 22 years of accounting experience in the service industry. He began his career with Associated Building Services as Senior Accountant and expanded his role to Controller of a subsidiary company. In 2005, John joined GCA Education Division to become the Division Controller. He was an integral part of a management team that increased revenue and EBITDA double digits each year from 2005 to 2014. John oversees all of ESS' financial processes and procedures. He holds a Bachelor of Business Administration degree from Stephen F. Austin State University.

#### Bernie Decker, Senior Vice President of Human Resources

Bernie Decker brings over 25 years of human resources experience to ESS. His expertise includes recruiting, hiring, training and development, benefits administration, and union negotiations. He joined ESS after spending twelve years previously with an education services provider where he served as Vice President of Human Resources and Training. His current responsibilities include recruiting, hiring, training of management, recruiters, teachers and support staff, as well as, administration of benefit plans, employee relations, training and employee development. Bernie holds a Bachelor's Degree in Industrial Relations from LeMoyne College, Syracuse, New York. He has furthered his education through various American Society for Training and Development seminars and attended Wimberly Lawson Labor Law Seminars for eleven years.

#### **Ron Glisk, Senior Vice President of Sales & Marketing**

Ron Glisk has more than 25 years of sales and sales management experience. Prior to joining ESS, Ron was EVP of Sales and Marketing for Xanitos, Inc., a hospital housekeeping specialist firm. Before joining Xanitos, Ron was SVP of Sales and Marketing for GCA Education Services and, prior to that, SVP of Sales and Marketing for GCA at the corporate level. Ron holds a Bachelor of Science degree in Computer Science from Northern Illinois University.

#### **Carrie Myers, Director of Human Resources**

Carrie is a veteran human resources manager with more than 20 years of experience spanning all HR operations. She leads employee recruitment and retention efforts, driving successful programs for our district partners. Carrie's exceptional knowledge of employment law and regulations, paired with her auditing experience, provides strict compliance and risk management for our partners. She is an adept communicator who sustains positive employee relations by working with personnel and managers to resolve conflicts and counsel employees. As a certified Professional in Human Resources (PHR), Carrie has expertise in developing, implementing, and updating company policies to ensure alignment with standards, human resources best practices, and all relevant regulations.

#### 5. Who is your competition in the marketplace?

We compete with other staffing and management companies that serve K-12 school districts throughout the country. As a national company partnered with districts as large as 130,000 students and as small as a few hundred, we compete at both the enterprise- and mom-and-pop level. Further, since most school districts are not partnered with a staffing management agency, a great deal of our competition is against districts themselves, proving to them that our services will provide their students, schools, and communities educational and financial value.

#### 6. What are your overall annual sales for last three (3) years?

We had audited gross revenues of:

- \$345,094,000 in FY 2018
- \$420,980,000 in FY 2019
- \$547,000,000 in FY 2020

To further demonstrate our financial capability, we have included a letter from our CFO that details our finances over the last few years on the following pages.

## 7. What are your overall public sector sales, excluding Federal Government, for last three (3) years?

All our sales are in the public sector and exclude the federal government. Our customers are exclusively PreK-12 public school districts. As such, the numbers listed in item 6 above are also our overall public sector sales.

To whom it may concern:

S4T Holdings Corp. and its subsidiaries ("Company") is a privately held high growth education service provider. In 2015, the Company was purchased by Nautic Partners, LLC. As a result, of the purchase, US GAAP requires an allocation of the purchase price to all the assets both tangible and intangible. Most was allocated to the intangible assets, which are amortized to expense over a 10-year period.

These costs are non-cash accounting charges that don't reflect ongoing operations or financial positioning of the Company. Furthermore in 2017 and 2019, the Company made a total of 6 acquisitions that have one-time expenses that are non-recurring. One of the acquisitions resulted in a large investment in a new management team with proven history in servicing education customers.

In addition, as previously mentioned the Company is privately held and therefore the financial statements contain various confidential information that is not relevant to the Company's overall financial position or ability to perform the services it provides to its customers.

Therefore, below are summarized key excerpts from the audited (December year-ended) and internal financial statements for the past 3 audited periods along with a more recent look at the Last Twelve Months (LTM) of November 2019 with adjustments to net income for various non-cash items described above:

A revolving credit facility, \$45,000,000, is used to handle the working capital needed to fund the timing difference between the payment to our employees and cash received from the customer. This revolving facility is typically paid in full in the summer months as the capital need reduces with schools being on break.

In addition to the revolving facility indicated above, the Company carries term debt from the various acquisitions. The Company has made all principal and interest payments on time. There are no concerns on the continuation of any future periods.

Furthermore, the Company's primary stakeholder Nautic Partners, LLC has managed over \$4 billion in assets with significant connections in the financial markets. They provide additional resources and support with obtaining favorable financing for the continued growth of the company.

Please feel free to reach out directly to me if further information or clarifications are required as I am happy to share our Company's progress.

Sincerely,

Anticipated number of staff absences, types of positions we'll be providing (teachers, nurses, paraprofessionals, etc.), technology services, training programs, virtual learning programs, and the necessity and number of onsite management staff are just some of the factors that play into our markup calculations. By keeping our pricing tightly customized to a district's specific needs and program scope, we are able to ensure the fairest and most cost-effective pricing possible.

We are best-described as a "Value-added reseller," "Certified education/government reseller," and "Other."

**21.** Provide relevant information regarding your staffing placement process including how an agency would place an order, and the ability for purchasing agencies to verify they are receiving contract pricing.

#### **Requesting a Substitute**

To request a substitute, a district staff member creates an absence posting, or "vacancy," within the absence management system. Absences can be placed at anytime in the system. Absence posting can be created digitally by using the absence management software or by calling, emailing, or texting the ESS District Team.

#### **Preferred Substitute List**

District administration and/or District staff can set a preferred substitute list. The preferred list ensures that priority is given to proven educators to fill in for certain positions and enhance classroom continuity. With the preferred substitute list, the substitutes on the list will be able to view absences posted to your specific schools prior to the general population of substitutes.

#### **Absence Approval Process**

An absence must be "approved" before a substitute is placed into the vacancy. Your member districts have three options for approval settings:

- Automatic approval of all absences
- All absences must be approved by District administration or principal
- Some absence reasons must be manually approved, others will be automatically

There are no deadlines for submitting absence requests. The ESS team and its technology systems will immediately begin looking for substitutes as soon as a request is placed.

#### Advanced and Short Notice

There is no special process for requesting substitutes on advanced notice. Short-or last-minutes substitute requests are handled similarly to regular substitute requests, the only difference being that ESS has implemented a number of fail-safes and expedited procedures to ensure last-minute vacancies are filled quickly with qualified staff:

#### **Substitute Placement Technologies**

We place substitutes using a variety of technologies, including Frontline Education's Absence Management technology and our own willsub+ system.

Frontline Education's Absence Management is one of the premier absence management technologies, and one that ESS is also an expert in. We are Frontline Education's largest end-user, and as such, we have the experience and relationship necessary to bring additional efficiencies, improvements, and customizations to Frontline Education Absence Management systems. We have an in-house, specialized Frontline Education technology team, which allows us to customize systems to district preference.

ESS also has its own proprietary substitute management technology called willsub+. The technology was designed with scalability and speed in mind, using a mix of automations and streamlined interfaces to adapt seamlessly to any district size. willsub+ also includes applicant- and time-tracking.

Our systems are built to mirror the regulations and certifications of both the member district and its State. A substitute will only be able to view an assignment for which they hold the required credentials. If a substitute's certificate has expired, or the maximum number of work days allowed by that certificate is exceeded, the substitute will no longer be able to accept positions.

#### **Absence Filling**

As soon as a district employee calls out, ESS begins the process to fill that vacancy. Our multifaceted approach is comprehensive and allows ESS to fill assignments at a high rate. We use several technology platforms as well as the traditional methods to create a unique and highly effective approach.

#### • Instant Contact

Our technologies contact qualified substitutes by email and phone notifications immediately when a vacancy is posted. Further, our willsub+ technology features an integrated text message system that allows us to send out text messages in mass batches.

#### • Personalized Contact

The ESS District Team will begin their efforts early in the morning, calling, emailing, and texting substitutes to fill any open vacancies.

#### • Building-Based Substitutes

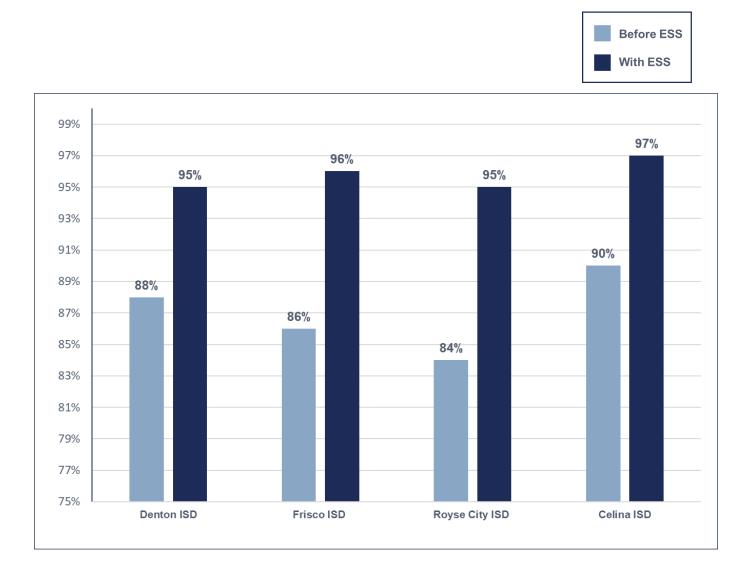

To help resolve last-minute callouts, we can place "on-call" substitutes within specific school buildings in a district. These substitutes will then fill any unfiled vacancies in that school, on any given day.

#### **Contract Pricing**

Our pricing process is fully transparent. Any district or purchasing agent will have full access to all pricing information necessary to verify that contract pricing is received.

#### 22. Provide staffing placement fill rates and average timeframes met.

We pride ourselves on our high staffing placement fill rates, as well as our ability to improve the fill rates of districts who already have high numbers. The chart below shows some of our Texas successes:

#### **Average Timeframes Met**

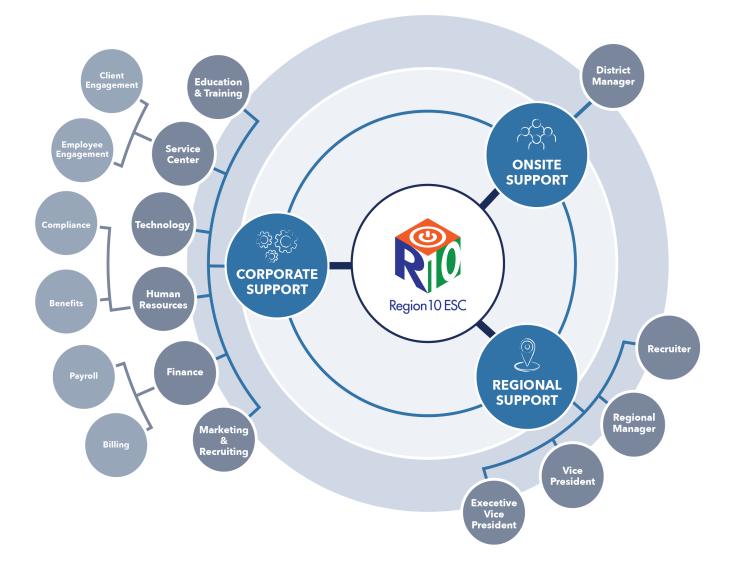

To meet the absence needs of our district partners, our substitute program is fast and flexible. Our combination of technology automation, dedicated staff, and program innovations allow us to fill absences up to the minute they are reported.

## 23. Describe your company's Customer Service Department (hours of operation, number of service centers, etc.).

Our customer service strategy is to provide our district partners, their staff, and our substitutes a layered, all-encompassing customer service experience. This customer service is delivered through the ESS District Team.

The team has branched design that allows it to be fully customized, completely flexible, and empowered to and provide the best customer service and support to your member districts. It is divided into three key units: onsite, regional, and corporate support. By dividing the ESS District Team into these specialized components, we are able to provide an exceptional level of efficiency and reliability to your member districts.

#### **The ESS District Team**

#### **The ESS Regional Team**

Each district partner is served by a regional ESS team that is specifically customized to best serve the partner's schools, students, and program needs. This team is the primary operating force for each district's program, and a major part of that operation is customer service.

Our regional management team will provide daily communication and accountability to each principal, supervisor, and any other designee, guaranteeing we are meeting every school's individual needs. On a daily basis, they are available and ready to answer questions, address concerns, and provide solutions to ensure that our program is running efficiently and effectively in each of your member district's schools.

#### **Onsite Support Team**

Due to a large student population or high level of service complexity, some districts require that ESS staff be permanently onsite to ensure 100% program success. How much staff is local, and what rolls they fulfill depends on the needs of the district. Some districts are best served by a district manager working inside their HR office, others by an entire team working in their own office.

Whatever the shape of the local support team, their purpose is to ensure the ESS program is running smoothly and meeting district needs. Their local work bolsters program results, and also provide an additional layer of customer service to the district and our substitutes.

#### **Hiring Local Staff**

When possible, we prefer that local support staff be hired from the district's community. A community member's understanding, insight, and investment in a district's success are of invaluable benefit to our program, and we strive to cultivate such resources whenever possible. All local staff will be selected for their outstanding credentials and their experience with the district and its community. Their significant career qualifications will help our partnership achieve higher fill rates, consistent community recruitment, and high quality service.

Our district partners are always welcome to join in the interview process for such staff and will have final say on any hiring decisions.

#### **Local Customer Service Centers**

Depending on a district's location, size, and scope of program, it will be supported by one of our regional offices. In most cases, these offices house regional leadership, customer service staff, and operational support staff such as recruiters and hiring specialists. Some offices, such as the Jacksonville office, are purely customer service for our Southeastern clients. Others, such as the Proximity Learning and Enriched Schools offices, support specific products and services. Finally, the Northeast and Southeast offices also house our corporate leadership, nationwide call center, and corporate support teams such as technology and human resources.

#### **Professional Conduct Policy**

Employees are expected to follow proper conduct and ethics. Employees will strictly adhere to school district's and ESS' standards of professionalism, security, and conduct including the district's policy on Drug and Tobacco Free environment.

Substitute employees are prepared with a thorough understanding of the importance of student safety and preventative measures. Employees are guaranteed to be conscious of district safety policies concerning the students and themselves.

#### **Accidents and Injury**

Our district partners retain no responsibility for pursuing and investigating workers' compensation claims for ESS' employees. We conduct a full accident investigation to determine the cause of the accident, as well as ways to prevent further accidents in the future. In the event of an injury, ESS staff should immediately call our human resources department. District staff and ESS employees can find information related to workers' compensation on the "Resources" tab of ESS' website. Here, users will find all relevant documentation, including company injury reporting procedures and a list of designated health care providers in the area.

#### **Evaluations**

ESS substitutes are provided evaluations and internal performance reviews. These forms of measurement help employees understand their requirements and guarantees they are effective. Evaluations and reviews will be conducted in accordance with policies and will address employee performance, professionalism, and progress.

#### Self-Evaluations

Every employee is expected to complete an employee evaluation. Employees are provided the evaluation through an electronic survey. This evaluation provides the substitute with a rubric for self-assessing their effectiveness, through various indicators on a rating scale.

The ultimate goal of this evaluation is to create a common standard for what constitutes a high-quality educational experience for the students ESS employees serve, and how ESS can measure areas of improvement as professionals who are striving for increased effectiveness. In addition to the rating scale, the survey also provides room for comments and notes, allowing for a more profound self-assessment. The results are used for personal reflection, program improvements, and professional development planning.

#### **Classroom Evaluations**

We can perform classroom evaluations at a district's request on. The ESS District Team will work with a district's Human Resources team to conduct substitute evaluations. Substitutes are evaluated on a satisfactory / unsatisfactory rating scale on criteria including conduct, professional demeanor, and job responsibility skills.

#### **Resolving Unsatisfactory Performance**

Although we take painstaking measures to hire skillful individuals who will perform optimally in schools, we have procedures in place to address unsatisfactory performance. In the event of an incident, District employees simply submit an incident report through the resources portal on ESS' website. A sample of the incident form is on the next page. The incident portal tracks and saves all data in our system. The ESS team will handle each incident with extreme urgency and will take action as soon as an incident is reported. Once submitted, a copy of the incident is simultaneously sent to the District's human resources department for full transparency.

Each incident is treated with the utmost importance. We will partner with the school administration to determine if termination is appropriate. ESS will also block any employee that a district does not want working in a specific school. This type of partnership alleviates some of the strain put on district human resource staff and allows them to focus on other key areas.

#### **Incident Reporting Enhancements**

ESS' incident portal functionality and processes are being enhanced. These improvements are focused on a grading scale and a retraining program.

The grading scale will allow district staff to "grade" the severity of incidents. This grading will allow for the possibility of retraining and retaining substitutes who have committed less serious offences, which will help further improve fill and retention rates.

The retraining initiative will alert the training team of any recurring issues that may arise within the substitute's job performance. Substitutes with less serious incidents will attend additional trainings to help correct their subpar performance and stop any recurring issues. We have found that many substitutes with minor incidents don't realize the reasons for their poor performance. With a little mentoring and extra training, most substitutes that had minor incidents become valuable employees.

#### **Immediate Resolution**

The ESS Team will be able to immediately resolve any issues that may arise. They will be available for face to face meetings, phone calls, and email to answer any questions or resolve any concerns. 25. Describe your company's hiring and vetting process, and how your company assures that only high-quality professionals are fulfilling the staffing needs of your customers. Specifically include your company's background check policy and procedure.

Your member districts' classrooms will be filled with staff that have the skills, certifications, and knowledge required for each unique position. Staff undergo an in-person interview to assess previous experience, critical thinking, communication, confidence, and professional demeanor. The entire hiring process from recruiting, screening, hiring, training, placing, evaluating, disciplining, and managing will be designed to deliver a culture of excellence in the District.

Staff will be provided with benefits and an extensive support network. Candidates are carefully guided through each step of the hiring process by the ESS team. They are in regular contact with personnel and available for support during extended office hours. They also monitor credentials making sure each and every employee is properly guided and compliant to work in schools. By providing substitutes with benefits and ample support, districts are staffed with happy, confident, engaged personnel.

#### **Quality Assurance in The Employee Hiring Process**

To ensure high-quality professionals are placed in your member district's schools, our hiring process is designed to evaluate employee from beginning to end. It starts with identifying candidates who could best serve our district partners, and ends with our thorough training and retention programs. Each step is integral to ensuring that a district's unique criteria are met and that they are provided the best staff possible.

#### Identifying

Our hiring process begins with targeting promising individuals that meet the exact specifications of each partner district. The ESS team finds qualified candidates for every position required. There are several key characteristics we look for in each ESS employee:

#### Caring

Staff need to be interested in working with children and helping students achieve. They need to be friendly, empathetic, and sensitive to students' needs.

#### Patient

At times a job may seem thankless, repetitive, and frustrating for long periods, interrupted by meltdowns and medical emergencies. The best ESS team members remain calm and patient in crisis.

#### Organized

Making sure students receive the best instruction possible requires advanced planning. It is also important in achieving goals.

#### Communicative

ESS support staff need to be great listeners and make an effort to understand what students are trying to communicate. They must be able to articulate information and instructions clearly and in terms that students can understand, which sometimes requires paraphrasing or interpreting information. They must be observant of students' body language indicating unspoken problems.

#### Cooperative

The supporting staff member is only one member of the educational team. They have to cooperate with others to enhance the students' school experience while working with teachers, principals, and other school staff.

#### Creative

ESS staff should be able to think outside the box to come up with creative solutions where traditional methods fail when working with students.

#### Positive

Students succeed when they believe in themselves. One of the surest ways of instilling this self-confidence is by supporting students with support staff who exude optimism and a positive attitude. They should believe in their mission, their own talents, and the abilities of the students.

#### Adaptable

An effective supporting staff team member is able to adjust to situations while providing a productive learning environment.

#### Recruiting

ESS will invest in a thorough and detailed step-by-step process to recruit a large pool of qualified staff for districts. Our recruiting process is continuous and proactive, ensuring that districts will have a large, healthy substitute pool.

The ESS district teams will focus on each school to quickly build rapport with principals and school personnel, forge community relationships, and gain the knowledge necessary to recruit the highest quality and quantity of substitute personal for each school.

ESS doesn't believe in a "one size fits all" approach to recruitment. It is our job to figure out what works best for each partner district and customize a plan to meet its unique needs. Below are a few of the customized recruiting techniques that we frequently use:

#### **Community Recruiting**

ESS builds a strong community presence with districts to create opportunities to recruit qualified community members interested in working in schools. ESS will identify candidates in the community that will make a positive impact within classrooms. We will be active and accessible in the district community by building relationships with community members.

#### • ESS Job Fairs - In-person and Virtual

To find candidates who will best understand and serve student populations, we will host in-person community job fairs. These fairs will be regularly held throughout our partner districts. In response to COVID-19, we are also hosting virtual job fairs through Zoom.

#### • Chamber of Commerce

ESS will work with local Chambers of Commerce. With the Chamber, ESS will build relationships with local businesses and leverage networking opportunities to promote jobs through associated websites, newsletters, and other media.

#### • Events, Fairs, and Festivals

ESS will participate in parades, host booths, hand out flyers, and greet the community to get the message out about substitute opportunities at districts. We will attend events, fairs, and festivals throughout district communities.

#### Digital Campaign

The ESS District Team creates marketing campaign utilizing job posting message boards and social media to find candidates across districts.

#### Social Media

ESS leverages social media to connect with candidates through targeted Facebook and Instagram ads, filtering our searches by location and college degree. Through Twitter, we look for candidates by profession, location, skill set, hashtags, and keywords. Through LinkedIn, we leverage the platform's robust interest groups, job posting, and recruiting tools.

#### **Online Job Boards and Broadbean**

We use many individual online job boards, such as Indeed, CareerBuilder, and Glassdoor. We are able to post positions and search a database of resumes to match the skill sets needed.

ESS uses Broadbean technology to integrate with thousands of job boards, resume databases, and social and professional networks to find qualified talent quickly and efficiently. The platform allows us to drive efficiency by creating one search to return results for all our digital recruiting channels, including multiple job boards, at all once.

#### **Grassroots Advertising**

The ESS District Team will create and execute a grassroots campaign, using everything from flyers and yard signs to source the perfect employees for schools and students.

#### **College & Universities**

College students looking to start their careers in education or special education are strong candidates for ESS positions. We will form close relationships with local colleges and universities to build a large pool of qualified candidates eager to begin working in the classroom.

#### • Campus Events

We join campus events, such as career fairs, to meet jobseekers, collect resumes, and explain the benefits of working as a substitute.

#### Career Centers

Career centers are vital to our recruitment efforts. We closely work with the centers, discussing potential ways to reach new graduates, post job opportunities, and form partnerships with career counselors so they continually send qualified candidates to apply to district positions.

#### • Education Departments

We build relationships with professors and key personnel in education departments to recruit students who are pursuing careers in K-12.

#### Handshake

Handshake is a digital tool that allows us to scale our college and university recruiting. We are able to reach multiple college and university career centers at once. With Handshake, we can define and save our hiring criteria, then tap into the most engaged student audience. These scaling and efficiency features allow to us to recruit quickly and efficiently.

#### **District Recruiting**

Many of the best candidates for ESS are those that already have demonstrated experience or interest in the school district. Retired teachers, parents active in schools, and previous applicants for full-time positions are all excellent candidates. These individuals have established relationships with the students and a vested interest in the district, making them ideal substitute employees.

#### • District Events

ESS is eager to participate in events held throughout our partner district communities. Attending and participating in district events also allows the ESS team to target qualified parents who would enjoy working while their children are in school. A few types of events that we would attend are back to school nights, football games and other sporting events, plays, school festivals, and PTAs.

#### • Retired and Aspiring District Staff

We will solicit local retired teachers to encourage them to use their experience in education to engage local students and further promote education in the community. Additionally, individuals that had previously applied to full-time district positions may be interested in joining ESS to work in districts as a substitute employee.

#### • Word-of-Mouth Referral

ESS has established incentives for district staff to refer qualified candidates to work for us. District staff are encouraged to participate in our employee referral program and receive \$75 gift card for each successful working referral.

#### Earn \$75 for each person you refer!

#### Screening

#### **In-Depth Interviews**

Each applicant goes through a structured screening process in which the candidate is thoroughly evaluated. This process ensures only the best candidates with the correct credentials are hired to work in your schools.

#### Phone Screen

The phone screen determines the seriousness and commitment of the applicants to the district and our company, as well as their ability to articulate information and communicate effectively.

#### • Group Interview

During this in-person session, applicants are evaluated on their critical thinking skills, enthusiasm, communication skills, confidence, and professional appearance. This session is carefully designed to assess the candidate's ability to perform in a real school setting. Their skills as educators are tested.

#### • Credentialing Screen

Candidates must possess proper clearances, certifications, and credentials to be hired. Substitutes will not be allowed to work within districts until all valid credentials are logged in our system.

#### • District Interview

Districts may interview any candidate and could be asked to provide a reference if the candidate had been a district employee previously.

#### **Online Meet & Greets**

To ensure safety during COVID-19, we have been holding virtual orientations with substitute candidates. This allows us to meet applicants, answer questions, and determine the commitment to working in school districts. During these meets and greets, we also walk candidates through the hiring process.

#### Credentialing

ESS' compliance department manager will guarantee paperwork is completed accurately and certifications, permits, and clearances are submitted. Employees' credentials are continuously monitored and audited. The substitute employees who work in schools will be compliant with the state departments of education, district requirements, and other state and federal laws.

Candidates must possess proper clearances, certifications, and credentials to be hired. Substitutes will not be allowed to work within a district until all valid credentials are logged in our system. All documentation will be kept and maintained for at least five years.

The credentialing process includes criminal background checks, which are a key component of our screening process. As the requirements of criminal background checks vary from state to state, so too do the specific background checks we run. Regardless of the state however, all employee backgrounds are checked to the very highest standards of state, federal, district, and ESS' standards.

#### **Compliance Assurance**

Absence management systems will be built to mirror the regulations and certifications of your member districts. An employee will only be able to view an assignment for which they hold the required credentials. If an employee's certificate has expired, or the maximum number of work days allowed by that certificate is exceeded, the employee will no longer be able to accept positions. Employees will not be able to accept assignments if any of their other clearances or credentials are missing or invalid.

Our applicant system provides automated, error-proof auditing of employee credentials and notifies our team when credentials need to be renewed. Our compliance team helps the employees update their credentials before they expire so there is no gap in service.

Additionally, our in-house counsel is up-to-date with state and federal legislation. Upon any changes or updates in laws, ESS' systems and processes are revised to reflect the new regulation.

#### Training

ESS staff will be trained through ESS' own comprehensive, specialized training program. We take pride in providing the most comprehensive, consistent training to all substitute staff.

While many staffing companies rely on remote, computerized training methods for their staff, ESS understands the necessity of training staff live before they begin working with students. Prior to working in your schools, ESS substitutes participate in an in-depth training that provides them with the confidence they need to succeed.

These trainings allow for a level of completeness and assessment that is not possible through methods utilized by other staffing companies. ESS also utilizes this initial training class to review a district's procedures and to stress our high standards of professionalism. Any part of the training can be customized to meet district needs.

#### Key Advantages to ESS' Training Program

- Specified training class for each staff position, including ESS' copyrighted training guide
- A team of expert trainers consisting of former superintendents, principals, teachers, behavior specialists, and certified school administrators
- Trainings are delivered through in-person and online learning classes
- Classes are customized to meet district requirements
- Provides one final check to ensure the staff meet the requirements of the positions they are about to fill and will excel in their respective roles

#### **COVID-19 Virtual Training Sessions**

ESS is committed to protecting the safety of all ESS employees, district staff, and students. As such, ESS has been hosting some training sessions virtually during the pandemic. Districts can be confident that these trainings are just as comprehensive as our traditional training methods, and they can be adjusted to any additional needs as necessary.

#### Online Training - Global Compliance Network (GCN) Online Training Modules

Substitute employees complete periodic internet-based training modules via the Global Compliance Network, GCN. GCN enhances the professional development of substitutes through the provision of informative modules on topics such as classroom management for different grade levels, ethics and boundaries for school employees,

understanding aggressive behavior, cyber-bullying, special education, and autism. There are over 150 educational modules available. Substitute personnel will complete modules in GCN based on state and district's requirements.

Based on the type of substitute employee, we require a certain number of specific modules to be completed. We further encourage employees to take any additional modules that they feel will be beneficial to them.

Below are some of the training modules frequently completed by our staff:

| Active Shooter Safety                 | Ethics & Boundaries for School     |

#### Additional GCN Classes by ESS

Just as a student is never finished learning, the training of an educational professional should never end. Each day, innovative techniques are developed to improve the student learning experience. We seek new methods and provide supplementary training to keep employees refreshed in the latest techniques. In addition to GCN's modules, GCN also hosts ESS training videos.

#### • Bullying and Child Abuse

As educators, substitutes must be familiar with the signs and symptoms of bullying and child abuse among students. They must recognize these signs and follow proper procedure to report and prevent these abuses to ensure student health and safety at all times. In this module, employees learn the various types of maltreatment, abuse, and bullying, and the steps to take to address these issues.

#### Classroom Management

It takes more than following standard classroom procedures to work in a school and provide quality education successfully. Managing the classroom is essential to giving every student a valuable learning day. Employees learn some of the basic techniques of classroom management, and the distinct differences between "controlling" a classroom and "managing" a classroom. They will understand the steps to minimize problems and establish themselves as a positive authority figure for students.

#### Company Incident Reporting Process

When working in a school district, it is essential for ESS employees to perform responsibilities diligently and professionally at all times. By understanding the factors that contribute to an incident report, substitute teachers and paraprofessionals may avoid performance issues and punitive measures that result from repeated, or severe, incident reports. This module discusses ESS' procedures for reporting incidents concerning inappropriate behavior of employees.

#### • Daily Operations

Regular routines and daily operations are essential to students and schools. Employees learn the basics of daily operational procedures and adhering to the regular teacher's classroom routines, including signing in, classroom introductions, and taking attendance. These standards help to create an orderly classroom and school experience for the employee and the students.

#### • Injury Prevention and Workers' Compensation

Just as students' safety is a top priority, it is also essential for ESS employees to consider their own safety when working in a school district. Many factors that contribute to workplace injuries, but many can be prevented. While each workday may be different, there are simple precautions that substitute teachers and paraprofessionals can take to ensure they and their students do not sustain an injury. In the rare event of an injury, it is necessary that employees know the proper school and company procedures for reporting the injury and receiving treatment.

#### • Instructional Strategies

In the absence of lesson plans, "free time" can lead to inappropriate student behaviors and classroom management problems. It is essential to have additional activities prepared to maximize instruction and focus students. This module explores ideas that the employees can use in the absence of lesson plans or when students complete the activities prepared by the classroom teacher.

#### **Ongoing Training**

Our commitment to our district partners includes our promise to customize a training program for your them. Every substitute working in your schools will be well-prepared and trained for your requirements. Substitutes will have access to ongoing training. These ongoing trainings are available in multiple forms:

We offer an annual training for returning substitutes to the new school year. Employees attend this training to discuss new developments in instructional and safety strategies, reinforce ideas, and implement any additional information as requested by the district.

#### • Additional Training Requested by the Substitute

ESS will host a substitute training class every other week for substitutes that want to work at the district. Substitutes are welcome to reattend these regular in-person trainings.

#### • Additional Training Requested by the District

The district may request that substitutes undergo additional training on any topic and ESS will implement it into your customized substitute training program. Additional training could include:

# 26. Provide your safety record, safety rating, EMR and worker's compensation rate where available.

ESS does not have a safety record or safety rating, however, the safety of our partner districts, their students, and our staff, is one our highest priorities. We take safety extremely seriously, devoting a significant portion of our substitute training to safety procedure and policy.

Our EMR is 1.66. Workers compensation rates depend on the state the insurance issued.

# 27. Describe the capacity of your company to report monthly sales through this agreement to Equalis Group.

We have significant capacity and ability to report monthly sales through this agreement to Equalis Group. We have a large, veteran finance department that includes staff specifically devoted to reporting sales based on cooperative agreements. Additional reporting for Equalis Group will neatly fit into our standard financial workflow.

**28.** Describe the capacity of your company to provide management reports, i.e., consolidated billing by location, time and attendance reports, etc. for each eligible agency.

Districts can depend on ESS to be truly transparent and forthcoming about program data. We understand how crucial transparency is for district decision-makers, and we are committed to providing it so they in turn can do their jobs with the best information and at the highest levels of efficiency.

In addition to daily communication and availability, the ESS Team works closely with district administration and school administration to establish reporting needs and the resulting processes, procedures, and analysis required. These reports are essential to maintaining open communication during our partnership.

ESS can create and customize any report that is needed. Customization and data options are endless. Reports can be exported into simple formats for districts to review, such as PDF, Excel, and HTML. If district officials require a specific report, we will tailor it based on district specifications. Reports can be scheduled to be emailed to any district or school designee daily. We can also train administrators and key staff on all reporting systems.

#### **Absence Management's Report Writer**

District administrators will have full access to the Report Writer function within Absence Management and will, therefore, have the ability to create, run, and analyze ad hoc Absence Management reports with no limitations. The system is tailored to district preferences.

#### Domo

Another reporting tool we use daily is Domo, a reporting software that allows us to pull real-time data on program performance. We can create charts crucial to helping us in forming strategic decisions. Domo has many capabilities, including the ability to quickly drill down into program data to see fill rates by school, day, and position, as well as hiring activity for the District.

#### **School District Analysis Report**

District Analysis report produces the most comprehensive view of a substitute program, illuminating trends in absence coverage.

- **Trends by Month:** Districts are able to see an increase in absences at different points throughout the school year as well as how our recruiting efforts are working to fill positions.
- **Trends by Day of the Week:** A great tool to spot trends in district employee call-outs. Are they mostly on Fridays or intermittently throughout the week? Using this data, ESS will consult with the district for a solution. One recommended solution is to have on-call substitutes available for days with more call-outs.
- **Trends by Date and Time Entered:** Districts can see when employees are calling out and how that affects whether or not their positions are getting filled. Are employees who have personal or vacation days waiting until the day of their absence to post their positions? Statistics show that absences entered with less than 12 hours before the start of the assignment are much harder to fill than those entered one day prior.
- **Trends by Preference List:** The preference list utilization section shows what type of substitutes are accepting positions: long-term, employee preferred, school preferred, district originals, and other substitutes who are not on any of those lists. Many districts allow their teachers and staff to have a list of substitutes that they prefer when they are absent. The preferred substitute can pick up the teacher's or staff's open position before they are viewed by other ESS substitutes. The district is also able to see how many preferred substitutes are working in the district.

#### **Day of the Week Analysis Report**

The day of the week analysis provides districts with the information needed to track absences and fill rates by day. Showing the absences reported by position type, the number of filled and unfilled absences, and fill rate percentage, this report helps to identify trends in absence occurrences and fill rate success based on the day of the week. Many districts utilize this data to coordinate professional development days on low volume absence days.

#### Fill Rates Report

As with all our reports, there are endless ways to pull, save, and view the data. Custom date ranges, position type, and "by school" or "by District" may be chosen. The ESS District Team will work with the District to customize all reports that are needed and as our partnership grows, we can create any new report. The fill rate data can be viewed by percentages, totals, or both.

#### **Absences & Call Out Times Report**

District employees call out times have a significant impact on the substitute program, as last minute call outs affect the likelihood of a substitute filling the position. This report benefits the district by tracking employee absence submittal details, including employee name, absence reason, and submittal time. By tracking these metrics, administrations and ESS can minimize last minute absence submittals and encourage accountability and higher coverage rates.

#### **Absence Report**

The absence report is an essential utility that collects reported absences and their reasons into a single, easy-to-understand document. The total absences in a district will be reported by category, as well as the grand total.

#### **Mid-Year and Year-End Reports**

Providing our partners with detailed reports is one of the ESS standard operating procedures. During the mid-year and year-end reviews, we organize the substitute program data by using easy-to-follow charts and graphs. This data is provided by school and by position type.

#### **Monthly Analysis Report**

This report analyzes the success of substitute programs as it relates to previous months. The report will list the number of filled and unfilled absences for each position, position fill rate, and grand totals for each school year. These statistics are vital to reviewing annual fill rates, as well as identifying trends in rising or declining absence numbers.

#### **Total Filled Absences and Vacancies Report**

We can provide this report by district, by school, and by position type. The data can be pulled daily, weekly, monthly, quarterly, and yearly. During our mid-year and year-end review, ESS will provide the district all this information in easy-to-read charts.

#### **Year-to-Year Comparison Report**

This yearly report analyzes the success of your substitute program as it relates to previous years. The report will list staff positions provided, the number of filled and unfilled absences for each position, position fill rate, and grand totals for each school year. These statistics are vital to reviewing annual fill rates, as well as identifying trends in rising or declining absence numbers over several years, which often impacts fill rates.

# 29. Describe your company's ability to break out administrative costs not directly related to servicing the district (as described in Question 16) on invoices to satisfy federal auditors.

We are able to break out invoices to any level of detail and cost reporting that a district requires, including for administrative costs not directly related to servicing the district. Customized invoicing is a standard service we offer all our district partners, not just those who need specifics for federal auditors.

In addition customized and flexible invoicing, we are able to create unique financial reports that can show cost or program information in a high level of detail and transparency.

#### **Implementation Plan**

In addition to the performance capabilities identified in the Appendix A: Questionnaire, we wanted to highlight our transition expertise as it is a core performance element to our program.

The transition team contains specialists from every area of our company. They are experts in working with school districts. The team will design the transition to district specifications. We will work in close cooperation with the district to establish an in-depth understanding of requirements and develop a specific timeline. Each aspect of the transition will focus on what matters to the district and community. With over 20 years of experience and more than 750 successful transitions, our team ensures no disruptions to district administration or student education. We have carefully perfected the process of transitioning school districts to our full-service solution, guaranteeing district satisfaction and program success.

The transition team begins discussions and preparations directly after approval. The team will work with district administrators to set goals and hold orientations for faculty, staff, and current substitute employees. These meetings will make sure everyone is well informed about the start-up plan, specific roles and responsibilities, key timelines and, most importantly, the meetings allow the transition team to answer any questions and adapt to newly discovered needs.

The transition plan is a multifaceted process that includes district implementation, employee implementation, school implementation, and systems implementation. ESS will customize the transition to the district's needs. The transition timelines that are provided in this proposal are a guide as to how and when a program would be transitioned into ESS' care. These timelines are only a guide, and can be customized to the needs and wants of the district. Our goal is to create a transition timeline that works best for each and every one of our district partners. Thus, implementation dates and completion dates are both dependent on, and flexible to, the unique needs of each district.

#### **Transition Success**

The success of our transitions and start-ups will be measured by:

- 1. The conversion rate of the current active substitute staff working in the district
- 2. The fulfillment of requirements set forth by the district during our initial transition meetings
- 3. Increase in fill rates with highly qualified substitutes
- 4. The welcoming of our firm into a district's culture and community

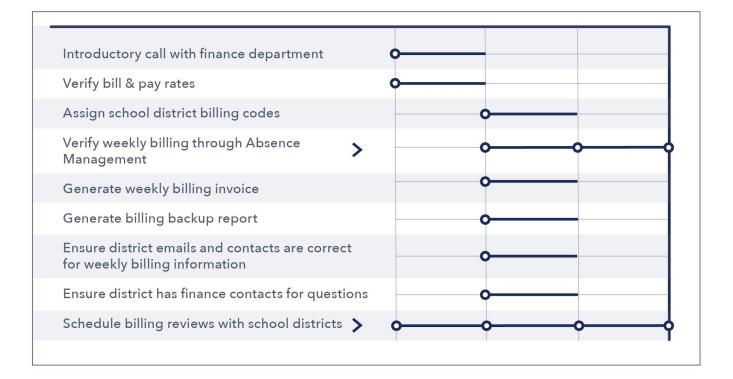

#### **District Implementation**

ESS will arrange a variety of meetings with personnel from the transitioning district to establish expectations, address any concerns, and set a timeline for implementation. We will work together to assess current day-to-day operations and district policies regarding absentee management and substitute placement.

A customized plan of action will be designed to drive the startup across the district. During the initial expectation meeting, the transition team will work with district administrators to establish a comprehensive implementation strategy that meets every need. We work closely with district officials to guarantee a smooth transition for administration, school staff, substitutes, and students. ESS will present the district with timelines for each area of the implementation process along with a detailed plan of action. We will walk the district through each step of the implementation process. Our goals for the meeting:

- Introduce our management team and exchange contact information
- Discover and address requirements, needs, and concerns
- Establish full timelines for the implementation of the program
- Discuss communication strategies for converting your current substitutes
- Review technology and access to current absence information
- Verify pay and billing rates
- Review our daily operations

### **Performance Capabilities**

#### **Employee Implementation**

When school districts partner with a new company, employees are often concerned about the status of their jobs. With ESS' open communication practices, they will quickly discover that their fears are unfounded. A district's active substitutes in good standing will be offered the opportunity for employment with ESS. The background checks for the active substitutes in good standing will be grandfathered in, and they will not have to go through the credentialing process again until their credentials expire. Our transition team will work with the district and substitutes that are with the current provider to assure that we have all proper credentials on file. In Duval County Public Schools as an example, ESS successfully transitioned approximately 1,200 substitute employees from their previous provider within the first two months of our partnership. The substitute pool has since grown to almost 3,000 employees and counting, supporting approximately 130,000 students and over 7,200 teachers.

#### **Orientation Meeting**

After approval, we start the onboarding process of current substitutes by posting flyers in the schools, running digital billboards in the area, announcing our partnership on district websites, and emailing welcome letters with an ESS new employee hire packet. Our goal is to make sure current active substitutes feel welcomed.

The welcome letter will contain orientation dates, times and locations. A district's active substitutes who will continue to work in the district are required to attend an orientation. This meeting introduces our onboarding process in great detail, demonstrating that we offer support to substitute employees each step of the way. Questions are answered in a town hall format. We also provide an overview of ESS and its benefits, feature our substitute training, and introduce our absence management system and present the system's benefits. We will collect new hire paperwork and meet with each employee one-on-one to address specific needs. We will host orientations all throughout the district.

#### **Recruitment Implementation**

To get ESS' recruitment engine up and running as quickly and effectively as possible, our transition team employs a group of dedicated recruitment specialists. These specialists are experienced ESS recruiters who know our systems and processes. Their goal is to establish each and every aspect of our recruiting process, from building relationships with local universities to setting up our digital recruitment strategies and systems. They will initiate relationships in the community in which the ESS District Team will build upon.

#### **School Support Implementation**

We take great care to ensure that schools receive the support they need to thrive by dedicating staff specifically to their care. Our transition team's school support staff will visit each school in a district during the first week of our partnership. They will meet with principals, staff, and key stakeholders, ensuring that they are receiving all information they need. They will also provide each school with an extensive "school kit," which includes helpful collateral such as posters, postcards, and sign-in sheets to help schools announce the transition to our program and onboard substitutes to the ESS team.

#### Orientation Meetings for Principals and Administrative Assistants

We will host orientation meetings for principals and administrative assistants. These meeting will provide an overview of ESS, answer any questions or concerns, present further details on how we are going to support their schools, and provide detailed contact information.

#### **Systems Implementation**

Districts will recognize immediate improvements in coverage rates and teacher accountability after the technology implementation with ESS. ESS will make the systems implementation process uncomplicated and straightforward. The transition team will transfer necessary district data to the absence management systems and provide streamlined technology training to district administration and staff.

Implementing an absence management system is a quick and simple process. ESS will supply districts with standard Excel templates to upload with district, school, and employee information. Our experts will import the data from the template into the absence management system.

We will offer system trainings for all individuals. These trainings will be provided at the start of our partnership and anytime throughout the year as needed. Below are several topics that we cover in the trainings. We will also provide tip sheets. The tip sheets are easy-to-follow step-by-step instructions on each function that the user would use in the system.

To Whom It May Concern:

It is with great pleasure that I am writing this letter in support of ESS. As a district, we were habitually struggling to meet the needs of teacher and aide substitutes on our campuses. We have closely monitored our substitute fill rates since 2013 and despite enhanced internal efforts, our fill rates were not improving. With 72 campuses and continued growth, our need for a consistent, highly-qualified, substitute pool was becoming a concern in our district. We wanted to do whatever was possible to support the daily operations and functions of our teachers and staff. The volume of substitutes needed in our district is around 60,000 a year, so it was essential that we work with a company that could meet that demand.

Outsourcing was not something that we were initially prepared to do; however, after much research and discussion, we felt a professional staffing company was the best option for our district. We were determined to choose a company that had the same beliefs and philosophy as our district as well as a willingness to work within our own system and culture. We have not been disappointed!

This past summer, ESS brought a large professional team of individuals into our district to transition our current substitutes to ESS employees; as well as hire hundreds of more individuals. They provided an expert staff to work directly within the Frisco ISD Human Resources Department. The ESS staff provides daily reports, recruits, trains, and handles any issues that may arise with any substitute. They are receptive, dedicated, and willing to go that extra mile to meet the needs of our campuses. As one principal expressed, ESS is one of the best things to happen to Frisco ISD.

Our district along with the Frisco community have high expectations for all staff members that work with students, so it is imperative that our substitutes meet, if not exceed those standards. It is also vital that we work with an organization that ensures an exceptional, dependable professional in our schools every day. Just as any other district, we desire the best of the best! ESS has lived up to that reputation of providing a top-quality individual in every classroom. Our current substitute fill rates are at 99 percent and our ESS representative continues to express that she will not stop until we have a consistent daily fill rate of a 100 percent. Once again, the ESS determination to meet our needs is impressive as they continue to provide outstanding customer service.

For us, it comes down to doing what is best for our students, staff and administrators. With confidence, I am now assured that there is a reliable, responsible, trained expert in our classroom when our existing staff cannot be there. Our students still receive the excellent education that we provide even when the teacher of record is not there to lead that lesson. I cannot express enough that the services ESS provides are positively worth the value that a client receives. The results speak for themselves. We look forward to continuing our relationship with ESS as they meet our substitute staffing demands. If I can be of further assistance, please feel free to contact me at (469) 633-6042.

Respectfully,

April 18, 2018

To Whom It May Concern:

On behalf of the Denton Independent School District, I am honored to write this letter of recommendation for ESS. We have enjoyed the success of our partnership with ESS since April 2018, and we look forward to our continued success in the future.

Denton ISD covers more than 180 square miles while serving students in 17 different communities across Denton County. As the second largest school district in what the U.S. Census Bureau has called the third fastest growing county in the country, the district expects to maintain that growth over the next decade. The district currently consists of 37 schools, an alternative high school, an advanced technology complex and nearly 30,000 enrolled students. Up to the point of contracting with ESS, we managed our substitute program and struggled with maintaining a consistent pool of qualified and available substitutes. Once we made the decision to outsource our substitute program, we were adamant about three key components the outside vendor must have in order to be successful for us: 1) making sure we had a quality substitute in our classroom every day that would help bridge the continuity of learning in the absence of the our teacher of record, 2) bringing onboard our current substitutes and treating them with a high level of dignity, support, and training, and 3) having a bi-monthly monitoring and evaluation process in place to ensure we are constantly meeting our expected goals in regards to our agreement. Of course, we were hesitant to award a transition of this magnitude to ESS, as they had no existing presence in Texas. However, as ESS began the implementation process in our district, any reservations we had were put to rest. The ESS team conducted the transition efficiently, openly, and professionally. As with any new endeavor, issues and concerns reveal themselves while establishing norms and protocols. Not only did ESS monitor and adjust to fit our myriad of requests, they tailored the program to fit our specific needs.

The transition team that was sent to manage the implementation worked closely with our administration and each individual school to ensure that the process was seamless. They were open and responsive, building close relationships with our district staff as they guided us through each step of the transition. Following the beginning implementation phase, their team setup shop in one of our existing buildings to have a presence with the community and our staff. The ESS team has remained on campus since the beginning of the transition. In fact, one of the team members (Jamie M.) has become an honorary Denton ISD employee. Principals consistently call on her as needed regarding questions, support and related help.

To support the program during the school year, ESS quickly hired a local management team. The local management team has exceeded our expectations and has demonstrated themselves to be as supportive and professional as we have come to expect from our interactions with all ESS representatives. Their professionalism and positive engagement to our concerns were the reasons we decided to partner with them in the first place and they continue to be clearly outstanding in this area. In the interim of hiring the local management team for our district, the ESS transition team acted as our go-to source of program support, providing customer service and solutions daily.

Given our experiences with ESS in Denton ISD, I recommend ESS without reservation as a professional, dependable, and supportive business partner. We are proud to be ESS' first partner in the state of Texas. We look forward to the continued efficiency of operations as our partnership with ESS continues to expand while meeting the educational needs of our students.

Sincerely,

Robert Stewar

To Whom It May Concern:

It is without reservation I recommend ESS as a substitute provider. During the summer of 2018, Celina Independent School District transitioned our substitute service to ESS from another company. Throughout this process we have found the ESS team responsive and professional. They worked effectively and efficiently with our business and personnel offices to transfer all current substitutes and calibrate our systems to ensure a smooth start to the school year.

Celina ISD is a fast growth district in north central Texas. As such, our previous provider struggled to keep up with the demand to fill vacancies. ESS brought on a team of professionals to work behind the scenes to increase our substitute pool. Through their recruiting efforts, they have almost doubled our substitute pool and have provided a 100% fill rate to date. Additionally, ESS included CISD personnel in the selection of our onsite manager, who has proven a key component and a personal touch to the implementation of the service they provide within the district. The ESS team has effectively integrated into the Celina culture and has provided the needed support for us to meet our goals of providing an excellent educational opportunity for each and every student.

Given the success to date, I anticipate continued partnership for years to come. It is without reservation that I recommend ESS as a partner in your district. Please feel free to contact me with questions.

Sincerely,

In Matheur

TO WHOM IT MAY CONCERN:

Royse City ISD has enjoyed a great working relationship with ESS since the Spring of 2018. During the 2017 - 2018 school year, Royse City Independent School District continued a three-year trend of lowering fill rates, this was a trend being experienced by our neighboring districts.

RCISD was considering another increase in substitute pay rates to counter the lower fill rates. However, when tracking our historical data, the district noticed that each time we raised our pay rates, we would see a one-year increase in fill rates, followed by consecutive years of dropping fill rates. The data indicated a never-ending cycle that would eventually become unsustainable. In addition, RCISD was going through rapid growth that would require the district to expand our substitute administrative staff to continue to keep up with the needs of the district with no guarantees of maintaining a high fill rate.

This led us to ESS in the Spring of 2018 and the seamless transition to ESS for the beginning of our 2018 school year. Throughout this process we have found the ESS team responsive and professional. They worked effectively and efficiently with our business and personnel offices to transfer all current substitutes and calibrate our systems to ensure a smooth start to the school year. ESS brought on a team of professionals to work behind the scenes to increase our substitute pool. Through their recruiting efforts, they have almost doubled our substitute pool and have provided a 93% fill rate to date.

The ESS team has effectively integrated into the RCISD culture and has provided the needed support for us to meet our goals of providing an excellent educational opportunity for each and every student. ESS has provided professional and flexible services during the COVID 19 Pandemic. Given the success to date, I anticipate continued partnership for years to come. It is without reservation that I recommend ESS as a partner in your district. Please feel free to contact me with questions.

To Whom It May Concern:

I am honored to recommend ESS as a substitute provider. Our experience with ESS in Abilene Independent School District has been exceptional. On April 1, 2019 AISD transitioned our substitute placement processes to ESS for certified and paraprofessional positions. ESS arrived on site with a large team in March to onboard all of AISD's current substitute workforce who wanted to continue substituting after the change. ESS helped AISD develop a FAQ document to ensure questions were answered prior to the switch and trained our staff on 22 campuses in the ESS processes so everyone would have a sense of calm once we flipped the switch.

This intentional transition date in April of 2019 has led to a 99% fill rate in the beginning of the 2019-2020 school year. The short time during the spring of 2019 allowed ESS and AISD to fine tune our relationship for success. ESS has taken every opportunity to create a process that ensures our teachers can be out and a trained substitute will be in their place. In five months ESS has raised our substitute pool by over 45%, nearly doubling the available substitute pool. ESS has staff onsite who have been instrumental in recruiting, training, and hiring individuals who now ensure our support staff are not pulled from their roles to substitute in classrooms.

It is with great confidence and appreciation that I recommend a partnership with ESS. Their response to the call for help from AISD has been tremendous. Our ask was high. AISD had a track record of over 18 substitute vacancies districtwide the spring before ESS took the reins. This equates to about a 65% fill rate on average in the spring of 2019. As you can see from the statistics thus far, ESS promises and ESS delivers. Give them a year, they will change the culture in your district.

Respectfully,

tophulden

Additionally, ESS and our sister company Proximity Learning have both enjoyed constructive relationships with ESC 10 and Region 10 ESC Members for years. We have enjoyed supporting the Annual ESC 10 Human Resources Summit for several years now. Region 10 ESC members make up the largest concentration of ESS District Partners in the state.

### **36. Felony Conviction Notice**

## 37. Detail how your organization plans to market this contract within the first 90 days of the award date.

ESS is eager to market a partnership with Region 10 ESC/Equalis Group. Advertising our partnership within the first 90 days of award would be crucial to capitalize on the momentum and value of such an important partnership.

We would promote our partnership through the following channels:

### **Email Marketing**

We run continuous and robust email marketing campaigns throughout the year. A partnership with Region 10/Equalis Group would enhance many of our current campaigns, adding additional credibility and financial incentive for districts considering partnering with ESS.

The partnership would also create opportunity for whole new email campaigns, especially in regards to remarketing. Optimally, we would like to reach out to Equalis Member districts who are not currently partnered with ESS, announcing our new partnership and explaining the benefits of our program. This type of email marketing has been effective for ESS, and would be an excellent way for Equalis to sell deeper to its current members.

### **Direct Mail**

Similar to our email marketing campaigns, we run substantial direct mail marketing throughout the year. We would also support our partnership through our direct mail marketing, incorporating the cooperative into current campaigns where it would be relevant and leveraging our shared data to do targeted remarketing.

#### **Incorporation Into Current Marketing Materials**

Our partnership would be incorporated and advertised throughout our extensive library of sales and marketing materials. From print materials such as sales proposals, catalogs, and brochures to digital materials such as websites and landing pages, our partnership would be a visible—and valuable addition—to our current messaging and marketing.

### **National Sales Force Training**

After contract approval, our salesforce will be promptly trained on our partnership with your cooperative. The ESS Sales Team is well-acquainted with purchasing cooperatives and their value, and will be excited to add Equalis to their sales arsenal.

Our sales team is national in scope, and will gladly leverage our partnership to open new doors into territories and districts throughout the country.

## 38. Provide the agency spend that your organization anticipates each year for the first three (3) years of this agreement.

ESS anticipates no additional agency spend for marketing in the first three years of our agreement. We have a full-service marketing department within our company, and as such, the cost of marketing is incorporated into our yearly marketing budget.

# 39. Please provide any suggested improvements and alternatives for doing business with your company that will make this arrangement more cost-effective for your company and Participating Public Agencies.

Remarketing to current Region 10 ESC/Equalis Group cooperative district partners could be an excellent way for us to build a successful and deep partnership. Email addresses, contact names, and other relevant information would be invaluable in enabling us to help the cooperative serve its members even further.

Additionally, we have several related services that could be of value to your member districts. They are detailed on the following pages.

### **Building-based Substitutes**

ESS can implement the building-based substitute program in any of your member districts. Through this program reliable substitutes will be available to fill last minute assignments in any member district's school.

### Program benefits:

- Coverage for the most hard-to-fill assignments by substitutes that are available all school year
- Committed substitutes that are flexible to work in any school
- Complete customization of the program, including managing the request of additional building-based substitutes during "high-demand" time periods

### Virtual Substitute Teacher Program

As schools prepare for the safe return of students this fall, ESS has established a solution to help districts combat certain challenges of the pandemic that they cannot face alone. In addition to our core in-classroom substitute staffing and management program, ESS offers virtual substitute teachers to provide a quality education, even when students and teachers can't be in the same location. Our virtual substitute teachers are highly trained to help your District navigate remote learning in the most effective and versatile way. Districts that use the program gain a powerful tool for increasing educational continuity and student achievement.

### How It Works

Through our Virtual Substitute Teacher Program, well-prepared substitutes are ready to fill vacancies remotely. Depending on how a district is handling distance education, substitutes either teach from home or work local, utilizing the remote learning technology in your schools.

ESS identifies a specific group of highly qualified teachers from our substitute pool to serve districts. After analyzing a schools' historical absence data, we assign the appropriate number of substitutes directly to each school. We can also discuss any additional absences projected due to COVID-19.

When it comes to scheduling virtual substitutes, each school has its choice of methodologies:

- **Full automation:** Substitutes are automatically placed into assignments by our absence management system, creating an effective hands-off solution.
- **Daily placement by school administration:** A school administrator manually assigns substitutes to absences every morning, allowing for tactical substitution decisions.

Together, districts and the ESS team hand-pick substitutes who are perfect for the program. These trustworthy, adaptable, and talented individuals make for a reliable long-term cultural fit at schools. While filling critical vacancies, virtual substitutes build meaningful connections with staff and students, quickly becoming invaluable members of the school community.

In times like these, flexibility is key. Our virtual substitutes are ready to fill in wherever schools need them – even if that's in a variety of different assignments throughout the day. School administrators have full control over how to utilize these versatile individuals. Administrators not only know exactly who is working in their schools at all times, they can also rest assured, knowing that the substitute staff has a deep understanding of your specific protocols and practices, from COVID-19 policies, online learning systems, and applicable technology to curriculum and lesson plans.

### **Proximity Learning**

ESS offers an innovative new solution to the national teacher shortage that ensures every child has equal opportunity for success. Proximity Learning mitigates the teacher shortage and provides students access to quality, real-time, live instruction taught by statecertified teachers in the classroom via web-conference technology.

Proximity Learning online courses allow for data-driven differentiated instruction. Student progress is tracked in real time, and Proximity Learning teachers use detailed information to create individualized feedback, provide tutoring, and offer supplemental support tailored to each student's individual learning needs. Courses are aligned to state standards for English, language arts, mathematics, science, social studies, career and technical education, general electives, and world languages.

The Proximity Learning solution benefits school districts when a lack of certified teachers negatively impacts student achievement. This can include districts that are unable to find a certified teacher for a certain subject, when an instructor goes on maternity leave, or when a teacher resigns and a replacement can't be found.

- Qualified Teachers Teachers are certified with years of teaching experience; many have advanced degrees.
- Flexible Scheduling Instructors can be part time or full time, giving administrators the flexibility to choose.
- Dedicated Support

Continuously available for the school's technical and administrative needs.

• **Customization** Courses are designed to the school's curriculum, grading policy, and schedule

#### Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

#### **Filing Process:**

Staring on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

#### DOC #15 C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

#### **Public Agency Instructions**

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to <u>N.J.S.A.</u> 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information is available in Local Finance Notice 2006-1 (<u>https://www.nj.gov/dca/divisions/dlgs/resources/lfns\_2006.html</u>).

- 1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).
- 2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
- 3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
- 4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
  - a) The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at <u>https://www.state.nj.us/dca/divisions/dlgs/programs/pay\_2\_play.html</u> They will be updated from time-to-time as necessary.
  - b) A public agency using these forms should edit them to properly reflect the correct legislative district(s). As the forms are county-based, they list all legislative districts in each county. Districts that do not represent the public agency should be removed from the lists.
  - c) Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
  - d) The form may be used "as-is", subject to edits as described herein.
  - e) The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
  - f) The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
- 5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract. (See Local Finance Notice 2006-7 for additional information on this obligation) A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

#### C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at <u>N.J.S.A.</u> 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (<u>N.J.S.A.</u> 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- 4. any State, county, or municipal committee of a political party
- 5. any legislative leadership committee\*
- 6. any continuing political committee (a.k.a., political action committee)
- 7. any candidate committee of a candidate for, or holder of, an elective office:
  - 1. of the public entity awarding the contract
  - 2. of that county in which that public entity is located
  - 3. of another public entity within that county
  - 4. or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county. The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See <u>N.J.S.A.</u> 19:44A-8 and 19:44A-16 for more details on reportable contributions.

<u>N.J.S.A.</u> 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- 8. individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- 9. all principals, partners, officers, or directors of the business entity or their spouses
- 10. any subsidiaries directly or indirectly controlled by the business entity
- 11. IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs). When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure. Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report. The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement. The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act. The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law.
