

CARES Act Funding

1 The Problem

To reopen safely in the COVID-19 pandemic and maximize the use of in-person instruction, primary and secondary **educational institutions need sufficient financial resources** to implement mitigation strategies, such as:

- Cleaning and maintaining healthy facilities, including ventilation improvements
- Changing business practices to maintain critical operations
- Supporting the use of technology for in-person learning and periodic shifts to remote learning

2 Solutions that Work

Signed into law on March 27, 2020, the CARES Act provides funding to educational institutions for costs due to the shift to online learning, student financial aid, additional education funding and more. Grainger has products and services to help schools improve their facilities and reduce the spread of germs, including:

- Air filters, air cleaners, and other products that help reduce the transmission of airborne disease
- Janitorial and sanitation compressed air sprayers for enhanced cleaning
- Touch-free products to help reduce contact with shared surfaces

3 How Grainger Can Help

From K-12 to higher education, count on Grainger for product and services for cleaning and maintaining healthy facilities. Learn more about our value-added solutions to help with recovery and reopening.

Products

- Cleaning & Sanitation
