Solutions for EMS

Efficient and easy to use, **McKesson SupplyManagerSM** lets you order, reorder or return your supplies and make payments online – from a single source. Within SupplyManager, we also offer several tools and usage reports to support inventory management.

McKesson Inventory Manager helps you track inventory, reorder supplies and maintain periodic automatic replenishment (PAR) levels – helping avoid shortages. With Inventory Manager, you can manage expenses, get access to the data you want with custom reports and access easy-to-read dashboards.

Operative IQ Operations Management Software is designed around the way you work – do more in less time. Electronically track & report on inventory, assets, fleet maintenance and narcotics transactions in real-time from any device.

MedTrainer's compliance and learning management platform makes compliance training, policy distribution, incident reporting, and safety plans easy to deploy and track.

The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources. All product claims and specifications are those of the product suppliers and have not been independently verified by McKesson Medical-Surgical or its affiliates ("McKesson"). McKesson is not responsible for errors or omissions in the product information.

The properties of a product may change or be inaccurate following the posting or printing of the product information in the document, either in the print or online version. Caution should be exercised when using or purchasing any products from McKesson's online or print documents by closely examining the product packaging and the labeling prior to use.

Due to product changes, information listed in this document is subject to change without notice.
