

**The right learning
environment can
transform more
than a classroom.**

But what makes an environment **right**?

At School Specialty, we've redefined what modern, comprehensive learning spaces can, and should, be.

Dynamic furniture that invites collaboration.

Curriculum that doesn't just engage, but excites.

Daily essentials that equip students and support learning.

Individually, they all make a difference. But imagine what could be accomplished if every component could be brought together to work towards the same purpose of improving outcomes and student success.

We've done more than imagine it.

We've brought it to life.

CURRICULUM

Science - Core & Supplemental

Scientific thinking benefits everyone. Students thrive with the hands-on approach of FOSS™, the most-awarded, most implemented science core curriculum; We also offer supplemental resources, like CPO Link®, and ScienceFLEX®, that let students learn science by doing science.

Math - Supplemental

Building skills builds confidence. From solutions to address content-area gaps to practice before the big test, our resources meet a range of academic challenges and instructional goals, including best-selling Coach® programs for review, practice, and support aligned to every standard, including yours.

ELA (English Language Arts) - Supplemental

Literacy is the cornerstone of academic achievement. Our proven programs for reading intervention, phonics, and vocabulary support students at all levels, from nonreaders to accelerated performers. Get results with trusted brands like S.P.I.R.E.®, Wordly Wise 3000®, Coach®, and more.
