

**Great learning
environments are
filled with furniture.**

And so much more.

We believe desks and chairs can be invitations for collaboration and creativity.

When everything's designed to work well together, everyone can work well together.

We believe the right environment can transform much more than a classroom.

Let us help you design the right learning environments for you. We'll get to know your dreams and challenges. Your budget and square footage, too. Together, we can elevate your spaces, your outcomes, and most important of all, your students' futures.

Spaces

that help transform
your students.

Comprehensive ecosystems that work together.

We offer far more than furniture. We've curated 150,000+ products, from crayons to curriculum, to help you create entire ecosystems where everything is designed to work perfectly together to engage, inspire, and excite your students.

// Including School Specialty® from the outset has helped make the project a success. Throughout chosen looks great and performs just as we had

been huge. Their involvement the building, the furniture we've hoped. //

DICKINSON INDEPENDENT SCHOOL DISTRICT
PROJECTS BY DESIGN CUSTOMER

As many solutions as there are learning styles.

Furniture & Equipment

The right furniture can foster collaboration, creativity, and critical thinking. Discover solutions for every type of environment with our own line of best-in-class furniture as well as a broad selection of products from top brands.

Educational Technology

We work with you to provide reliable solutions that engage students and connect in dynamic ways.

Safety & Security

Kids thrive when they feel safe. Create secure spaces with our innovative lock systems, first aid & emergency response kits, and more.

Curriculum

We believe every student deserves help to reach their full potential. We offer core and supplemental curriculum designed to help you teach the way they learn best.

Supplies

From general classroom and cleaning supplies to specialty products for Art, Special Needs, STEAM, and PE plus instructional solutions, you'll find it all. Including 5,000+ items available next day. Because when you give kids the right basics, they soar.

Partnership at every step.

Projects by Design® is our unique service from collaborative no-cost design through installation and beyond available to help you create spaces that equip and inspire next-generation teachers and students. Here's the process we use to lead our clients to success.

Discover

First, we partner with you to roadmap your school's construction, renovation, or modernization programs, including helping gain alignment on budget and vision.

Design

Next, we bring your product selections to life. We show you both 2D and 3D color renderings. In addition, we provide final price proposals, detailed room-by-room, and work together to refine selections until a consensus is achieved among all stakeholders.

Deliver

To ensure on-time and on-budget delivery and installation, the team will supervise the entire post-award process. Throughout the process, our project management team will personally manage all logistical arrangements from coordination to communication and ensure a flawless installation, including protecting the building site through final spotless clean up.

Develop

It's hard to stay current on ever-evolving techniques and teaching styles. We're here to help with a variety of half and full day courses that offer practical tips and inspiration designed to help you get the most out of your learning environments and your students. This phase is ready when you are - take as much or as little time as your need exists. Take courses before or after installation to inspire or train.

Save time and money

so you can spend more on
what matters most to you.

We partner with leading purchasing
cooperatives to offer contractually compliant,
pre-negotiated pricing on 1000's of items,
delivering competitive prices, and time-savings

We have also been awarded many state and local
contracts that offer great contracted pricing
and easy ordering options.

For larger projects, we can streamline
your procurement process by one month.

Our Grant Assist™ team can even help you identify
and qualify for grants to help fund it all.
