The transition to electric vehicles should be easy & fun.

Something that's good for business shouldn't be hard. So, at National Car Charging we strive to make the transition to electric vehicles as simple and seamless as possible for infrastructure managers and station owners.

Today, after thousands of installations, NCC is the leading reseller and installer nationwide — providing hardware, software and planning expertise across a wide variety of business channels including hospitality, municipalities and multi-family dwellings.

NCC is committed to bringing you only the best EV charging options and delivering them with top notch service. We partner only with those top manufacturers best positioned to succeed and go the distance-offering a selection of products with a wide range of features and prices.

Anything new can be challenging but at National Car Charging, we've done all the homework so you don't have to.

It pays to be choosy.

We partner only with manufacturers best positioned to succeed and go the distance.

For Equalis Group members, NCC carries three distinct, highly vetted product lines, giving our customers the ability to choose from a range of features and price options.

All of our products are UL/Intertek listed and manufactured by financially healthy and growing companies who are innovation leaders with a proven track record.

Level 2 charging options available with and without management software.

DC fast charging (Level 3) options for faster charging with no additional effort.

Easy and hassle-free fleet solutions to dramatically reduce fuel costs.

Experienced across all business channels.

- State & local Governments
