

EV Charging Product Solutions

Are you EV ready?

We have solutions for every situation. This experience, matched with our unparalleled customer service, allows us to offer a seamless process from planning through installation.

EV charging solutions for every situation.

Something that's good for business shouldn't be hard. So, at National Car Charging (NCC) we strive to make the transition to electric vehicles as simple and seamless as possible for infrastructure managers and station owners.

- **Top Brands.** We find the most reputable, reliable and innovative products so we can offer the hardest working, hassle-free EV charging solutions.
- **Personalized Service.** Each customer has different needs. Offering the most extensive selection products allows us to always deliver the best solution for your needs.
- **Competitive Pricing.** We offer the most competitive prices - up to 23.75% off list.
- **Unmatched Expertise.** We have solutions for every situation. This experience, matched with our unparalleled customer service, allows us to offer a seamless process from planning through installation.
- **Offices Coast-to-Coast.** Our highly trained team spans the country ready to assist wherever you are.

Our job is to make yours easier. The NCC customer service team partners with their EV charging sales experts across the country to ensure your experience is smooth from planning through installation.

ChargePoint is the U.S. market leader and as premier channel partner we are making the full line of ChargePoint products available for Equalis Group Members. Ideal for every business case including 2-level charging, DC fast charging or fleets.

Known and revered around the world, **EVBOX** is known for its style and slick design. Equalis members will have the option to choose from the company's newest and award-winning stations - the Iqon (Level 2) and Troniq (DC fast charging).

Efacec is a pioneer in DC fast charging - offering a complete range of EV chargers for fast and ultra-fast charging segments and software solutions. We're offering a wide range of Efacec DC charging options.

Whether you're looking for a smart station with data collection or special services or need DC fast charging for those on the go, National Car Charging has the right solution to meet your company's specific needs.

Save time, stress less & reduce costs.

National Car Charging is the only call you need to make for all your EV infrastructure needs.

- Local Offices
- Highly Competitive Pricing
