**Making a Clean Sweep**

How to keep facilities healthier with the Clorox® Total 360® System while saving time, money and labor resources.

When hard-to-reach, difficult-to-clean areas aren't properly treated for germs, your facilities and tenants are at risk, and the cost of illness can add up fast.

Patented PowerWrap™ nozzle delivers uniform coverage on all sides of the target. Powerful air compressor covers more intended surfaces in less time. Reliable delivery method provides no variations in performance due to operator handling or battery life.

The Clorox® Total 360® System pairs an electrostatic sprayer with an array of Clorox® disinfectants and sanitizers to ensure that all surfaces are properly treated.

- 75% faster cleaning time than a trigger sprayer
- 18,000 approximate square feet treated per hour
- 65% less solution used than a trigger sprayer

CLOROX® TOTAL 360® SYSTEM

Fellowes® AeraMax® Air Purifiers

CLEAN THE AIR

Improve your office air quality with Fellowes® Air Purifiers which feature a 4-Stage Purification that safely removes 99.97% of airborne pollutants as small as 0.3 microns from your air.

Fellowes AeraMax® Professional air purifiers:

- Are certified to be effective in reducing airborne concentrations of influenza A (H1N1) aerosol in a test chamber, reaching 99.9% airborne virus reduction within the first 35 minutes of operation.
- Are certified to capture 99.97% of pollutants at 0.3 microns
- Can capture more than 97.8% of pollutants at 0.1-0.15 microns, via IBR Laboratories test data.
- What's more, an AeraMax® Professional III with PureView Technology can sense when airborne contamination is present in a room, automatically adjusting cleaning to remove the offending particles from the air.
