Their Library-**Solution** and **CARL** library software platforms are built on mobility, flexibility, and operational efficiency.
- Innovative and intuitive patron self-service solutions designed to blend with any library aesthetic.
- RFID technologies to assist in inventory management, theft protection, and material handling processes.
- Powerful, administrative reporting tools tying together the entire Tech Logic eco-system of solutions.

Who is Tech Logic?

Tech Logic is the leading provider of innovative sorting technologies, circulation staff support tools, and patron self-service solutions for public and institutional libraries throughout North America. Over 20 years ago, Tech Logic created the first automated materials handling system specifically designed for the library industry to address the redundant and repetitive staff-work associated with checking in returned materials. Our philosophy then is the same as it is today — Automation should accentuate the efficiencies of an operation, not highlight the inefficiencies.
