

The Renaissance Institute

K-12 Technology Planning Services

Dr. Andrew Berning, President

Our personalized technology audit and planning services will deliver a state-approved technology plan you can use for planning, budgeting, and evaluation.

Plan

- Networks and systems, both on campus and remote
- Desktop, laptop, and mobile devices
- Integration and training strategies

Match

- Funding sources, including local, state, E-rate, and other federal programs
- Staffing and skillsets, both in-house and contract
- Software applications that best fit your needs

Predict

- Future staffing needs based on upcoming purchases and initiatives
- Future infrastructure needs including network, systems, and devices
- Replacement cycle costs
- Probability of success of upcoming purchases and initiatives

Evaluate

- Key Performance Indicators of a successful technology program
- Efficiency and effectiveness of technology
- Cybersecurity posture and readiness
- Technology spending and initiatives

Document

- Spending
- Adherence to policy and mandates
- Program success and accountability
