Dear Mr. Pechacek,

HUB International would like to thank you for the opportunity to provide Region 10 ESC with a proposal for Employee Benefits Consulting for Texas. We have reviewed the Scope of Work and are expertly prepared to deliver the items requested.

Our consulting teams have significant experience working with government sector employers and employees. There are few, if any, consultants in Texas who can match their experience. We advise clients on how to confidently navigate change and tailor benefit strategies to support and engage their employees. It is our belief that employers should treat each benefit dollar spent as an investment rather than an expense. Our value-added services are designed to provide the highest possible return on this investment while being focused on your objectives and impacts to your culture.

HUB will work with each of District to:

- Provide expert guidance and evaluation for potentially exiting the TRS-ActiveCare system including cost projections, benefit design, solicitation assistance and implementation.
- Collaborate with the District, to develop a multi-year blueprint strategy which identifies opportunities for improvement and sustainability through plan design, network strategies, and pharmacy management.
- Assist leadership with a strategic review to identify areas for cost savings while maintaining a viable health and welfare employee benefit program that promotes employee choice and consumerism.
- Enhance the employees' understanding of their benefits through careful planning and effective communication strategies designed to engage and educate employees.
- Provide ongoing support throughout the year working collaboratively with the District's team.
- Deliver timely and insightful updates on trends impacting medical and pharmacy programs.

We are committed to being your strategic partner. Thank you for this opportunity to provide a proposal to serve as your trusted advisor.

Sincerely,

A handwritten signature in blue ink that reads "Brent Weegar".

Below are some of the key items we provide as part of your scope of services, and rarely do we find Districts requesting services that we aren't within our capabilities / pricing.

HUB International's Core Practices

Strategy, Reporting, and Cost Management

HUB will perform a proprietary and comprehensive audit and evaluation of each participating members benefits program identifying areas to improve efficiency and align with best practices while not diminishing the overall value of the benefits program to employees. We will work with the stakeholders to identify key goals and provide a menu of options and cost savings for both short term and long-term planning. We typically will provide a 3-to-5-year proactive benefits strategy including key performance indicators targeting benefit design, utilization management, wellness programs, compliance, financial solvency, and more.

As part of the audit process and on-going cost management support, HUB's in-house data analytics team will be our main resource to assist in plan management including but not limited to claims and underwriting analysis.

By analyzing claims with our sophisticated data analysis tools, HUB can help:

- > Conduct independent underwriting analysis used for negotiations
- > Develop trend management, plan design, and cost containment strategies
- > Evaluate alternative funding models for employee benefits programs
- > Compare health plan costs and utilization to similar demographics, industries, and regions through benchmark comparative data
- > Identify cost or utilization concerns
- > Create communication campaigns with staff that will target areas with the highest potential to improve health and reduce high dollar claims and high utilization

Additionally, a variety of analytical tools will be provided to support plan design strategies. These include but are not limited to:

- > Monthly and quarterly reporting packages
- > Multi-year strategy document
- > Industry and region-specific benchmarking

- > Plan design comparisons
- > Carrier analysis and comparison
- > Contribution modeling
- > Best practice guidance
- > Self-funding report and analysis
- > PPACA modeling and compliance
- > COVID-19 cost and projections
- > Analyze network discounts and geographic access

Compliance Consulting

The risk of not being compliant with federal and state legal regulations rises every year. To mitigate that risk for employers, HUB's industry-leading, Employee Benefits Compliance Consulting practice is an in-house compliance team of accomplished ERISA attorneys have the experience and knowledge required to educate on all applicable requirements benefits programs must comply with. Our Compliance Officers provide the most current compliance resources to districts, so they can remain fully informed in a quickly changing legal landscape.

The Compliance Consulting practice will provide education to minimize the District's exposure to audits, penalties and lawsuits that may arise from noncompliance with the applicable state and federal laws to employee benefits plan sponsors. As members of government and industry advisory bodies, the team can bring issues to the table as well as advocate for improvements in laws, regulations, and federal taxation policy.

Our Compliance Officers will also help the District integrate compliance programs with the overall employee benefits strategy. Whether it's ACA, COBRA, HIPAA, Medicare, DOL, ERISA, or Section 125, HUB's Chief Compliance Officers offer a full complement of services, including legal updates and guidance as regulations are issued as well as ACA compliance and strategic guidance. Health & Performance

HUB's Health and Performance (H&P) practice is built on research that supports this premise: Employee health and company performance are inextricably linked. Organizations that approach employee health and wellbeing as a strategic business imperative, rather than a tactical action item, experience a positive impact to organizational performance both when it comes to individual health and organizational cost. HUB's H&P consultants adhere to industry best practices, ensuring that districts are in the best positioned to realize success: high participation and engagement, behavior change, risk reduction, lowered costs, and culture enhancement.

Beginning in the strategic planning and discovery phase and continuing through each phase of the District's tailored multi-year strategic plan, our Health and Performance model is rooted in a sound understanding of the culture, goals, and desired outcomes. Decentralized organizations present with heightened needs around communication, technology, and champion networks. We also rely on industry benchmarks and examples of similarly structured organizations to help paint a picture of a successful wellbeing initiative.

HUB's Health & Performance **Service Model** consists of three distinct pillars:

- > **Core Consulting** – Using deep industry knowledge, our H&P Consultants will work with the District to develop a goal-specific annual roadmap and multi-year strategy to deliver results that matter to the organization.
- > **Programs and Solutions** – Based on the District's organizational goals and strategy, our consultants will work with you to identify the most effective solutions given the internal and external resource allocation. We pay special attention to your workplace culture, budget, and demographics.
- > **Value Added Resources** – As a district of HUB, the District will have complimentary access to our proprietary resource portal, **ChooseWell Online**, an extensive library of resources curated by our Health & Performance Consultants specifically for district use.

ChooseWell Online provides districts with the capability to implement turnkey awareness campaigns and challenges, data collection and evaluation, employee communication pieces and much more. **ChooseWell** administrators will receive a monthly emailing with an awareness campaign, newsletter, and challenge. Each of these elements is designed to provide education, awareness, and skill-building for employees. For example, the newly released Mental Health SOS is a 12-month employee awareness campaign complete with leadership communications, monthly emails, posters, and intranet snippets. Many HUB districts leverage this resource in conjunction with their EAP to destigmatize and provide mental health assistance to their employees during this difficult time. Communications & Design

HUB helps organizations build communication strategies to drive employee engagement. Our Communication and Design practice – an innovative, highly creative, results-driven team, is focused solely on creating bright, engaging experiences that make employees stand up and take notice. We are different from other firms whose account managers and benefits staff also are responsible for developing communications. In contrast, HUB has a cohesive team of 25 across North America: strategists, writers, graphic designers, consultants, project managers and video developers.

With the cost of providing benefits to employees averaging upwards of \$11,000 per year, investing in communications is vital to ensure that employees appreciate the benefits their employer offers. After years of building and executing communication campaigns, we've found it's not the dollar amount that employers spend on benefits that matters but, rather, how well employees are engaged about the benefits being offered. Adhering to this belief, we've fine-tuned our process, offering two approaches to address the District's distinct needs.

Core - HUB Communication and Design Core is a resource for employee benefits districts offered at no additional cost. And for districts generally seeking open enrollment communications, Core is a great option. We offer an extensive library of dynamic benefits communication materials, ranging from benefits guides to postcards to mobile app, educational videos — and much more. The District is eligible for several communication credits and, using those credits, you can “shop” our selection of deliverables based on the needs of your company. We'll then customize by incorporating your company's logo and benefits program information. You choose — we do the rest!

Each year we evolve our deliverables. We're up on the trends and unique offerings in the industry to assure you're getting the most from C&D Core to drive employee engagement.

Included in our consulting fee is our HUB **Benefit Spot** mobile app which offers the following benefits:

- > Reach employees where they spend much of their time—on their phone
- > The ability to include links to on-demand education videos, carrier documents, cost comparison tools, etc.
- > Available on both Android and iPhone
- > Customizable home screen buttons

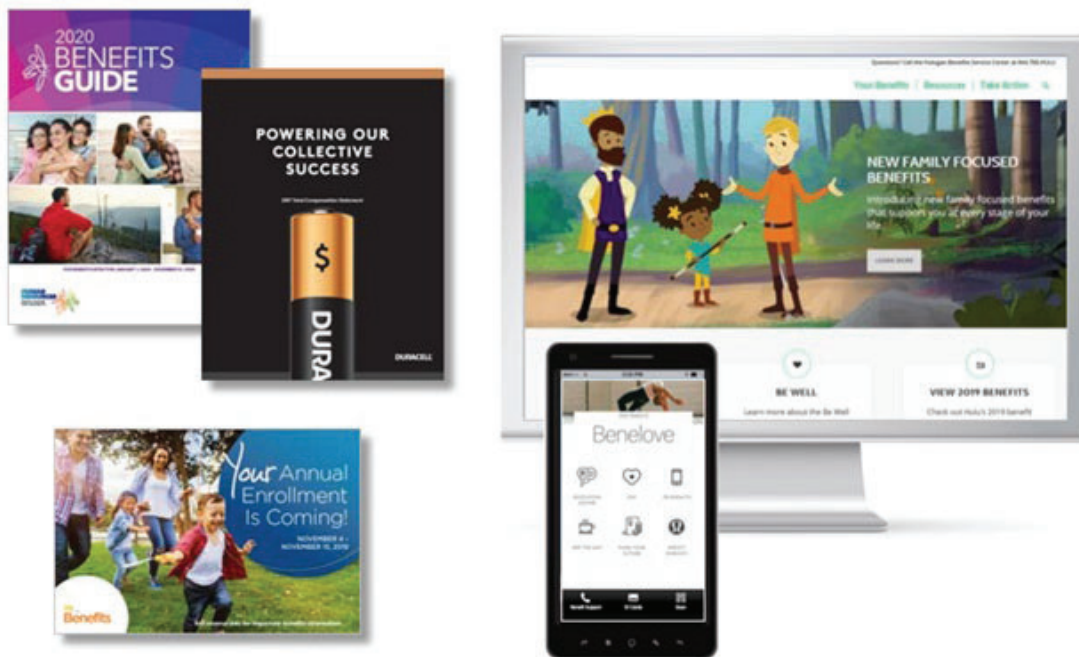

To learn more about what Benefit Spot offers, click [here](#) for a short video

Custom - Our Communication and Design Custom offering gives you the ability to go beyond C&D Core with strategic consulting and custom deliverables, offered at an additional cost. Do you need to communicate change management? Benefit/HRIS implementation? Open Enrollment? Organizational change or restructuring? A year-round communications campaign to promote consumerism? Our team develops custom, impactful messages to support all aspects of HR communications. Other campaigns might include talent acquisition, retention and onboarding, HR policies and procedures, and/or health and performance initiatives. We are typically able to negotiate carrier allowances or credits with vendors to cover any additional costs for customization

HUB Custom C&D work that our team has created:

Pharmacy

Pharmacy claims represent 20% to 25% of an employer’s health plan cost and with \$2M drugs on the market right now, pharmacy has become a volatile and intimidating factor for all employers. Additionally, it is anticipated that pharmacy will grow at 8-10%, so it has never been more important for employers to review their pharmacy program. It is essential that the pharmacy component receives the same due diligence as the medical plan.

HUB’s national Pharmacy Specialty Practice continues to expand with regional leaders in each of our hubs who provide local solutions with support of national resources. HUB’s pharmacy practice is vendor agnostic, independent, and district centric. This approach helps us develop the best-fit for the district absent outside influence. We effectively minimize the risk for our districts because our in-house Pharmacy Practice Leaders work with the district to determine the right plan design and utilization management strategy that balances plan savings with minimal member disruption.

Our Pharmacy practice can provide data analytics, claims repricing, plan design modeling, and ad hoc reporting. This ensures that our districts have the information necessary to make informed decisions and to manage their pharmacy programs efficiently while ensuring quality outcomes for their members. In addition, they conduct audits to confirm that contracted discounts and provisions are being adhered to by the pharmacy benefit manager. We have preferred vendor relationships with the largest PBMs who connect directly with the medical plans to ensure the integration of all pharmacy and medical data.

Technology

At no cost to districts, our Technology Practice Leaders work with you to review your current HR Technology and assist you in identifying and selecting solutions that are a best fit for your company's requirements.

HUB's Technology Consulting practice works with districts to deliver best-fit solutions for:

- > Benefits administration
- > HCM
- > Payroll
- > ACA compliance and management

The benefit of these solutions is reduced amount of time an HR practitioner spends on paperwork or administrative tasks that could be automated. These changes lead to increased productivity, reduced costs and an improved HR experience for all stakeholders.

District Advocacy

We will assist you with employee claim interpretations and adjudication of specific claims when requested, including contacting the carrier and utilizing our leverage to escalate service issues regarding out-of-network providers and maximizing discounts through active involvement in large claims.

- > Our account management team will provide you the following support:
- > Serve as a liaison between the district and all insurance companies/vendors
- > Monitor administrative process and assist in the smooth resolution of elevated issues
- > Act as an employee/employer advocate in the resolution of ongoing claims issues
- > Monitor vendor goals and performance and report findings at quarterly meetings
- > Review plan performance as directed
- > Review and provide guidance on diagnostic data
- > Identify and monitor potential catastrophic claims and review large claims management activity
- > Support with ongoing management of COBRA, FSA, and HSA administration

We not only act in a support function, but we proactively reach out to you regularly to ensure that vendors are meeting your needs. HUB will manage and measure each vendor's performance against baseline outcomes and normative-adjusted data. For example, we will measure operational results, clinical outcomes, financial controls, claims, member services, and quality of services, among other key areas. Some of the measures will come from external sources; however, most can be obtained from your claims data, if available. As part of this process, HUB will perform the following:

- > Manage vendor relationships in a manner that promotes a spirit of collaboration and partnership
- > Advise and communicate with you on vendor issues
- > Negotiate performance guarantees, fees at risk, and performance measurements
- > Conduct site visits with vendor finalists, where appropriate
- > Provide project management oversight in the implementation of any new programs, systems, vendors, and processes
- > Communicate with appropriate parties to ensure that all involved entities are kept fully informed.

Additional Services – Not Included in Fees – Priced on Per Project Basis if not stated otherwise.

Call Center – HUB’s can provide a call center if requested for \$1.18 PEPM which would provide assistance with claims and benefits related questions for District employees.

Human Resources Consulting – HUB’s Human Resources Consultants help businesses excel across all human resource-related areas by focusing on the entire employee lifecycle. We develop a deep understanding of our districts’ business and culture, which allows us to align initiatives and create efficiencies. Our goal is to help organizations develop and sustain high-performing human resource programs and teams that drive their success. Below outlines a number of services our Human Resources Consulting practice provides:

- > Employee Handbook Review and Creation
- > Job Descriptions Creation
- > Training & Development Programs
- > Continuous Education Services

Workforce Absence Management – HUB’s Workforce Absence Management practice helps districts manage their workforce and absence management programs to reduce costs and increase productivity.

Property and Casualty Consulting – This is another primary arm of our overall risk management services provide to many of our municipality districts.

14. Detail how your organization participates in developing a comprehensive long term benefit plan strategy with your districts

We recognize that every dimension of an individual’s performance and health is interconnected. Our proprietary approach is to identify the key success metrics with the District that influence their employee’s ability to thrive - both at work and at home. We then develop a comprehensive long-term benefits strategy to solve issues and prioritize needs.

PROCESS

HUB has developed a proprietary process to better understand the District, their employees, and unique needs. This process improves our ability to deliver the best possible solutions for the district and is what sets us apart from our competitors. With this process we are equipped to:

- > Provide comprehensive analysis and evaluation of options for exiting TRS and the appropriate fully insured or self-insured foundation for the future of the health plan.
- > Help to make educated decisions on how to invest in the benefits program
- > Manage implementation as seamlessly as possible
- > Provide ongoing support for your HR Department, and your employees and their families
- > Track and report critical indicators of plan success to make changes where necessary

The process consists of five steps:

1. Discovery and Analysis
2. Develop Strategy
3. Product Service and Selection
4. Implementation
5. Ongoing Service and Performance Monitoring

DISCOVERY PHASE

We will work with the District to understand their philosophy about employee benefits, history, current benefits, and goals. We want to understand the employee population - not just their claims history, but also their needs and wants from a benefits program and their tolerance for change. By gaining an understanding of the District's competitive position and benefits philosophy, we can help set a strategic direction for the future.

Upon notification we have been awarded the consulting services. HUB International will immediately initiate a Strategy Meeting with the district to personally introduce your service team, review key contact information, discuss our services / resources in depth, set timelines, prioritize deliverables, and discuss future short- and long-term goals for the budgeting, growth, and optimization of your benefit plans. HUB will also immediately submit to TRS and other vendors a data request so that our team can perform a comprehensive assessment of the District's current benefits position to include:

- > Complete review, benchmarking, and gap analysis of the district's benefit offerings, plan designs, current carriers and service providers, administration, network, and funding.
- > Thorough financial assessment of your benefits budget, historical cost review under TRS, actuarial forecasted costs for exiting TRS (Self Insured and Fully Insured) opportunities for savings, and employer and employee contributions for your health and welfare plans.
- > Analysis of current Health Risk Management Strategies including Wellness Program, Employee Health Clinic and Disease / Case Management, Prescription Drug Cost Savings Programs.
- > Comprehensive Benefits Benchmarking analysis across all lines of coverage specific to size, industry, and region(s).
- > Assessment of your communications strategy including online, print and carrier resources available to employees to pinpoint opportunities to enhance your strategy.
- > Compliance audit of the district, which will include (but is not limited to) PPACA, HIPAA, COBRA, USERRA, ERISA (as applicable), Medicare Part D and all insurance contracts.

DEVELOP STRATEGY

Once we have completed our gap analysis, we will provide you with formal recommendations to help move the District closer to its goals including key recommendations for exiting TRS-ActiveCare and on-going requirements and best practices for management of the health plan. Additionally, considering both the District's financial and cultural objectives, as well as the needs of employees, we will prepare recommendations to include opportunities for savings, alternate plan design considerations, employee engagement options, and new products or services not currently being offered. Areas we will focus on vary depending on our analysis, but may include the following:

- > TRS Exit Strategy and Implementation
- > Plan Solvency (Self Insured Stop Loss, IBNR, Contingency Reserve Strategy)
- > Plan Performance
- > Plan Oversight (Audits / Performance Guarantees / Reporting)
- > Benefits Communication and Resources
- > Benefits Administration and technology
- > Employee Satisfaction and Benefits Understanding
- > Compliance Requirements
- > Health Risk Management (Wellness and Population Health)

- > Catastrophic Risk Planning
- > Ancillary Insurance (Dental / Vision / Life / Disability / Worksite)
- > Additional Benefit Programs (Student Loan Repayment Programs / Pet Insurance / Executive Benefits / Dependent Audit Services)

PRODUCT SERVICE AND SELECTION

Once we have established the type of plans, products, and services that need to be included in our district's benefits package, our public sector consultant and marketing specialist will begin the working with the purchasing department to draft the RFP, develop specifications, obtain necessary data for release, and assist in soliciting proposals from the appropriate carriers and service vendors. HUB works with the purchasing department every step of the way providing best practice recommendations, so we have a successful RFP response.

The ultimate selection of a health plan provider will be based on the criteria established during HUB's strategic planning meeting with the district. HUB will advise on best practice criteria such as network access, contracts, benefit options, service team, price, performance, rate guarantees, and ability to provide wellness or communications funds will all come into play in the final selection of a health plan provider.

After securing all the carrier and vendor proposals, HUB will spreadsheet and provide expert analysis in a format that allows the district to easily compare the details of each. HUB will present the analysis and serve on the selection committee to provide expert guidance. Once finalist are selected, we will participate in finalist meetings and will assist in negotiations through best and final process. A Best and Final analysis will be presented by HUB and our independent recommendations. Once the selection committee has made their recommendations, HUB will assist the district with any presentations needed to the Region 10 ESC team or other stakeholders.

IMPLEMENTATION

Immediately after approval of recommendations from Region 10 ESC, the HUB team will jump into action to ensure a smooth implementation and open enrollment process. The HUB account management team will direct the implementation from start to finish including notify vendors of sold products, reviewing signature documents / contracts, holding implementation meetings, and provided on-going oversight of timelines / processes. As vendor implementation is going on, HUB will also be assisting Region 10 ESC with open enrollment needs including development of communications, setting open enrollment schedule, coordinating vendor participation, oversight, and quality control of meetings and more.

15. Please list the due diligence steps you normally conduct before recommending an employee benefit vendor.

Vendor due diligence is a core competency included in HUB's employee benefits consulting services. HUB is an independent consultant who works with all carriers who possess an A or better rating by leading financial rating agencies. Further, throughout the year we meet with leadership of established vendors as well as new potential vendors to vet out potential cost savings solutions for our clients. We also monitor vendor performance through weekly and monthly internal consultant and management meetings.

During RFP processes we conduct a comprehensive vendor selection process, including both qualitative and quantitative analysis; key areas of expertise included but not limited to:

- > Fees and Contract Terms
- > Financial Rating
- > Customer Service Statistics
- > Claims Payment Statistics
- > Technology
- > Network Strength and Geographic Foot Pricing
- > Performance Guarantees

16. Please list the number and types of RFPs you have completed in the past 12 months for any government entities. Provide at least one real example of savings realized because of a single RFP.

HUB has conducted 17 RFP's in the last 12 months for our public entity groups. Our latest RFP was from the District of Georgetown in Central Texas. HUB was hired on as their consultant to replace Gallagher Benefit Administrators after an extensive consulting RFP process. We released an RFP for Health Insurance and saved the 7.0% or \$594,682 to their Health Insurance Program. It is important to note that they remained with their incumbent carrier and HUB was able to renegotiate a much more favorable contract through the RFP process for the District. Below is a comment from the District of Georgetown post RFP.

"I would like to personally express my gratitude and appreciation of your team's effort during our RFP process. From the beginning to the t end, your team made the initial RFP launch easy to administer. During the complexity and voluminous documentation of medical, PBM, and life insurance plans that was received, your team made it easy to understand and very user friendly. This made our evaluation review much easier to complete.

I would also like to commend your team's negotiation skills during this process. As a result of this, I believe that it will be the first time we will be going to GGAF with a savings to our self-insurance fund and more discretionary funds for us to use."

17. Outline your products, services or capabilities being offered as it relates to the ongoing program administration and maintenance. Please include all services being offered regardless of whether they are explicitly spelled out within the scope defined herein.

As stated, we agree to provide the entire scope of services as requested by Region 10 ESC and will include our standard scope of service below to fill any gaps we deem necessary to provide the most complete solution for Districts.

We understand the importance of a dedicated service team that and know that our exceptional service is what sets us apart from our competitors. Each member can expect a response to a call or email within 24 hours, if not sooner. We will work to understand each groups specific needs and provide a customized strategy to ensure use of everything HUB has to offer. Below are just some of the items we can offer at no additional costs to your district.

Compliance Resources and Training

HUB employs on-staff industry Attorney’s to assist our districts with benefits related compliance and will provide necessary training as needed. For example, we recently conducted a HIPAA Compliance and Security training for a public entity needing new associates to understand the importance of HIPAA privacy.

Seminars

In 2020, HUB provided over 70 online seminars on a national level for organizations. Our seminars and trainings are comprehensive and encompass each of our Specialty Practices. Districts value the accessible, timely education that highlights new regulatory developments as well as giving them the needed tools, in a variety of formats, to deepen their knowledge about emerging workforce trends:

Virtual Summit

HUB gathered thought leaders from the risk and insurance industry to present its 2nd Virtual Summit, Resilient: Responding to Changing Workforce Needs, in May of 2021. These leaders highlighted what a changing workforce might look like while HUB's consultants provided actionable insights on how to realign strategy to have a meaningful impact on employees.

Mineral

Mineral, offered via our Human Resources Consulting practice, provides self-paced HR Training on over 200 courses for Statutory Compliance, Conflict Resolution, Terminations, Workplace Safety, and Unlawful Harassment. Mineral's 2020 offerings encompass a range of courses from how to implement personal safety practices in the workplace to developing the skills necessary for effective leadership.

Additionally, HUB's Compliance Consulting practice frequently educates around legislative changes, ERISA, and ACA mandates, and most recently has published bulletins and updates highlighting what employers need to know as a result of COVID-19. These resources are developed by our in-house experts with our districts and their employees in mind.

COVID-19

In the wake of the COVID-19 pandemic, HUB has pivoted its resources to continue to engage districts and provide valuable information to them and their employees. HUB created the [Coronavirus and Vaccine Resource Center](#) to provide timely updates to districts about all regulatory considerations related to COVID-19. In March, this site received a record 35,000 hits and continues to be updated daily. Our communication to our districts has not been delayed.

Since March 2020, HUB has:

- > Launched the [Coronavirus and Vaccine Resource Center](#), updated weekly with new resources
- > Hosted COVID-related webinars, including the "Ready for Tomorrow" virtual summit
- > Sent 140 separate COVID-related email alerts
- > Published 300+ pieces of COVID-related content (articles, blogs, white papers, FAQs, checklists, videos)
- > Sent weekly COVID-related texts to subscribers

Recent on-demand webinars include:

- > [COVID & The Holidays: Employer Liability and Risk Management Best Practices](#)

Recently published E-books include:

- > COVID-19 & the Holidays Best Practices Playbook
- > Understanding Employment Law and Vaccines

Wellness

From a wellness perspective, HUB's Health and Performance practice provides resources to meet the emerging needs of employees. Beginning in March 2020 this team provided additional education to meet workforce needs due to lockdowns, working from home and remote learning.

- > HUB provided multiple education/awareness sessions around lifestyle related resilience enhancing behaviors directly to employees. The presentations often finished with a reinforcement of the district's existing resources, like the Employee Assistance Program.

- > HUB created a Mental Health SOS Awareness Campaign that could be used by employers at no cost. This 12-month campaign toolkit is available to all HUB districts and includes all elements necessary to run the campaign. From sample leadership announcements, pre-drafted monthly email, and poster templates, we made this easy for you to deploy as you see fit. While many districts had us drive this campaign, a few wanted the flexibility to share when they thought appropriate.
- > October's *Best Use of Remaining Wellness Funds* webinar – HUB presented a panel discussion on this topic, many solutions geared toward mental health (e.g., giving employees access to the Calm app, sending care packages to those working from home); while some of the examples presented would involve a fee, the premise was that the district had funds they needed to use or lose by the end of the year.

31. Outline any implementation or other resources you provide in helping to configure your solutions, whether during the initial startup, or ongoing.

During our Discovery Phase, we will work with the District to understand their philosophy about employee benefits, history, current benefits, and goals. We want to understand the employee population - not just their claims history, but also their needs and wants from a benefits program and their tolerance for change. By gaining an understanding of the District's competitive position and benefits philosophy, we can help set a strategic direction for the future.

Upon notification we have been awarded the consulting services. HUB International will immediately initiate a Strategy Meeting with the district to personally introduce your service team, review key contact information, discuss our services / resources in depth, set timelines, prioritize deliverables, and discuss future short- and long-term goals for the budgeting, growth, and optimization of your benefit plans. HUB will also immediately submit to TRS and other vendors a data request so that our team can perform a comprehensive assessment of the District's current benefits position to include:

- > Complete review, benchmarking, and gap analysis of the district's benefit offerings, plan designs, current carriers and service providers, administration, network, and funding.

PROPOSAL FORM 12: IMPLEMENTATION OF HOUSE BILL 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016. https://www.ethics.state.tx.us/whatsnew/elf_info_form1295.htm

PROPOSAL FORM 17: OPEN RECORDS POLICY ACKNOWLEDGEMENT AND ACCEPTANCE
OPEN RECORDS POLICY ACKNOWLEDGMENT AND ACCEPTANCE

Be advised that all information and documents submitted will be subject to the Public Information Act requirements governed by Chapter 552 of the Texas Government Code.

Because contracts are awarded by a Texas governmental entity, all responses submitted are subject to release as public information after contracts are executed. If a Respondent believes that its response, or parts of its response, may be exempted from disclosure to the public, the Respondent must specify page-by-page and line-by-line the parts of the response, which it believes, are exempted from disclosure. In addition, the Respondent must specify which exception(s) are applicable and provide detailed reasons to substantiate the exception(s). The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 10 ESC must provide the OAG with the information requested in order for the OAG to render an opinion. In such circumstances, Respondent will be notified in writing that the material has been requested and delivered to the OAG. Respondent will have an opportunity to make arguments to the OAG in writing regarding the exception(s) to the TPIA that permit the information to be withheld from public disclosure. Respondents are advised that such arguments to the OAG must be specific and well-reasoned--vague and general claims to confidentiality by the Respondent are generally not acceptable to the OAG. Once the OAG opinion is received by Region 10 ESC, Region 10 ESC must comply with the opinions of the OAG. Region 10 ESC assumes no responsibility for asserting legal arguments on behalf of any Respondent. Respondents are advised to consult with their legal counsel concerning disclosure issues resulting from this procurement process and to take precautions to safeguard trade secrets and other proprietary information.

After completion of award, these documents will be available for public inspection.

(Note: All information believed to be a trade secret or proprietary must be listed below. We declare the following information to be a trade secret or proprietary and exempt from disclosure under the Public Information Act.

(Note: Respondent must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition, Respondent must specify which exception(s) are applicable and provide detailed reasons to substantiate the exception(s).)

It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty

- 5.5 **Standard Cancellation:** Either party may cancel this contract in whole or in part by providing written notice. The cancellation will take effect 90 business days after the other party receives the notice of cancellation. After the 90th business day all work will cease following completion of final purchase order. Region 10 ESC reserves the right to request additional items not already on contract at any time.

6. ARTICLE 6 – LICENSES

The letter shall state the duration of the suspension

or action taken, the relevant circumstances and the name of the agency imposing the suspension. Failure to supply or disclose this information may be grounds for cancellation of contract.

Conforming products and services shall be provided within a time frame agreed upon by Vendor and Member. If delivery is not or cannot be made within the agreed upon time the vendor must receive authorization from the purchasing agency for the delayed delivery. At this point the participating entity may cancel the order if estimated shipping time is not acceptable.
- 7.2 **Inspection & Acceptance:** If defective or incorrect products or services are delivered, purchasing agency may make the determination to return the products or services to the vendor at no cost to the purchasing agency. The vendor agrees to pay all shipping costs for the return shipment if applicable.
- 7.3 **Buyer's delays:** Region 10 ESC will not be responsible for any late fees due to the prime contractor by the participating Member. The prime contractor will negotiate with the participating agency for the recovery of damages related to expenses incurred by the vendor for a delay for which the Member is responsible, which is unreasonable, and which was not within the contemplation of the parties to the contract between the two parties.

- 9.2 **Price increase:** Should it become necessary or proper during the term of this contract to make any change in design or any alterations that will increase expense, Region 10 ESC must be notified immediately. Price increases must be approved by Lead Agency and no payment for additional materials or services, beyond the amount stipulated in the contract, shall be paid without prior approval. All price increases must be supported by manufacture documentation, or a formal cost justification letter.
- Vendor must honor previous prices for thirty (30) days after approval and written notification from Region 10 ESC if requested.

It is Vendor's responsibility to keep all pricing up to date and on file with Region 10 ESC. All price changes must be provided to Region 10 ESC, using the same format as was accepted in the original contract.
