About Us

Forward Edge is an education-focused technology solutions and service provider serving school districts since 2005. Because we focus 100% on Education, our partner districts' needs are our top priority. From infrastructure, to networking, to providing devices, to designing and delivering professional development, and everything in between, you can count on us to bring a deep specialized expertise to each school system we service. We focus so deeply on developing positive relationships with our partner schools and teachers that it is truly one of the things that sets us apart; people love our people!

What Our Customers Say

"It is true that Forward Edge provides us with tech specialists who oversee our network and are extremely good at what they do, but they also work with us to better understand the impact that technology has on our students' academic and social growth and they provide the needed training and solutions to help us become more effective educators"

- Jay Phillips, Superintendent at Deer Park Community City School District

"After several conversations with Forward Edge we had a pretty strong feeling they were here because they cared, not for a sales pitch or anything more. We chose Forward Edge because of the relationships built during conversation plus the unbelievable care when onsite."

- Brandon Hoff, Technology Director at Southern Wells

"Having an [instructional] coach has drastically enhanced our teacher capacity for innovation as they have felt supported and empowered to pursue a growth mindset. Our teachers are leveraging technology both intentionally and meaningfully to increase student choice and voice in the classroom."

- Gretchen Bloomstrom, Former Curriculum Director at Three Rivers Local School District
