ACCESS CONTROL

From the reduction of theft and violence to maintaining the security of facilities, there are multiple reasons for implementing effective access control. Terrorists, disgruntled customers, and dishonest employees pose great risks to organizations of any size in any industry, but access control systems provided and installed by a company you trust can help mitigate these risks.

- Control the entire facility or just specific areas within your building
- Limit access to specific parts of your building by date/time or by the cardholder
- Control access to parking facilities, elevators, and more
- Provide badges with images included
- Open doors with a mobile device using cloud access
- Use automated system management to save time and manual work

We understand the importance of identifying each person who enters campus facilities and offers comprehensive reporting to help implement access management. Agencies will receive an audit trail of site access by user, date, and time. With the integration of surveillance cameras, you can watch what is happening in multiple facilities. We can also connect with your intrusion detection system.

CENTRAL STATION MONITORING

ADT Central Station monitoring services can help to increase your efficiency while mitigating your losses. Through our partnership, you'll know that your company is protected, all while staying within budget.

- ADT Commercial infrastructure reliability meets or exceeds regulatory requirements. Our monitoring centers are UL Certified and FM Approved to provide business alarm monitoring, service dispatching, technical assessment, and support services. Your business enjoys three layers of business security monitoring that provide protection: through our primary computer system, our on-site backup system, and off-site at our Disaster Recovery Center.
- We believe that transparent data delivery and analytics are core services that add value to the customer experience.

- We provide multiple data access, reporting, and analytics tools to help our customers use the data we collect to improve their security programs and lower costs.

We are one of the only security service providers that ban “phone trees” for incoming calls. All calls to our monitoring and customer service centers are answered by an associate who is trained to assist you. In jurisdictions that have adopted ASAP, we can enact the protocol for faster, more accurate, and two-way communications with dispatching agencies for better response time by authorities.

VIDEO SURVEILLANCE SYSTEMS

Whether you need an IP-based enterprise-level solution with hundreds of cameras or a simple system to secure a satellite location and everything in between, we have the technical expertise and resources. We can help agencies choose the video surveillance system that is right, not only for their facilities but also within budget. Additionally, our advanced video solutions can be integrated with other technologies, including intrusion detection systems and access control systems, to deliver a holistic approach to securing your business. Our team of professionals is here to help.

Our digital recording solutions include DVRs, NVRs, and networked servers that provide bandwidth-friendly solutions. This allows your security team remote access to the system to observe and research events using analytics and tools that pinpoint video events. In many cases, we can work with your legacy IT infrastructure to route video throughout your enterprise, or we can help you enhance your security and efficiency by having our integrated solutions team deploy a security-only network.

Video Data:

We offer several solutions that can help you review videos and make smart decisions. Our core products include:

Cloud-hosted video

Enhance your security without large capital investment or costly IT maintenance resources—using cloud computing and IP video.

Alarm event video

Save alarm events so you can view them in your eSuite portal along with alarm data. Video events can be tied to exceptions—like out-of-schedule panel disarm events— and then saved and viewed online at your convenience.

IT-friendly video

Overcome the bandwidth constraints of your network. We understand how to make video surveillance work with your legacy IT systems, and we can also show you how to achieve efficiencies by deploying a security-only network.

Web and mobile security management

Control and view live video from on-site cameras. You’ll be able to monitor the situation at your organization with a full-color video that can be easily downloaded—even to your mobile device.

Video analytics

Use advanced, pattern-based analytics to cover high-threat areas in buildings or specified zones. If your system is triggered, the signal and video footage of what caused the alarm are sent not only to an ADT Commercial video monitoring center but also to your PC or smartphone. From there, a highly trained professional from our monitoring center will review the alarm signal and verify the crime and call emergency services, if appropriate. Video records are then stored at the edge, reside in the cloud, or stored on-site using DVRs, NVRs, and IT servers.

ANALYTICS AND REPORTING

To make the most of any security investment, you need historical data available at the touch of a button. You also need reports that help you make sense of the raw figures in real-time. With ADT Commercial, you get the tools you need to view, manage, and analyze site activity to help you get the most from your security system investments.

- Test burglar alarms
- Create location schedules
- View contacts for a location
- Edit contacts for a location
- Access panel information for all locations, and location-specific data, such as product photos and fire alarm inspection data for easy retrieval later
- Track permit numbers and expiration dates
- Assign location permissions
- Run reports of all ADT Commercial products installed at each of your locations to check install dates, warranties, maintenance reports, and replacement costs
- View video associated with burglar alarms for up to a year after the alarm

Part of the reason we've focused our attention on data collection and presentation is that our customers have identified reporting as a way to turn information into action. In the modern business environment, data collection is moving from optional to mandatory.

eSUITE ACCOUNT MANAGEMENT

We listened to the current and evolving needs of customers, then designed eSuite to address them. This next-generation tool is highly intuitive and provides to-the-minute, actionable insight into your organization.

- Add and update your contacts and alarm codes
- Manage system status
- Place systems on test
- View video verified alarm events
- Verify and update open and close schedules
- Pay and view invoices
- Manage users and permission roles

- Manage permits
- Implement dual-factor authentication
- Manage keypad codes

eSuite™ helps businesses of all sizes streamline and manage their security programs with real-time data, using a secure portal and mobile app.

FIRE AND LIFE SAFETY

Work with seasoned professionals on your comprehensive fire and life safety plan from ADT Commercial and rest assured that you have the help you need to be ready to deal with challenges before they appear.

The ADT Commercial National Fire and Life Safety Team (NFLST) can install and maintain fire systems to help protect commercial facilities of all sizes across a wide range of industries. Before starting any project, we assess your specific needs and then develop an integrated solution that works today—and can expand to help meet your future needs.

We utilize NICET Certified (National Institute for Certification in Engineering Technologies) technicians, installers, and inspectors who understand your business, landscape, and risks. Our staff members also enrich their life safety knowledge with other certifications and advanced courses in fire and life safety and are qualified to deploy systems for businesses of all sizes.

- Fire Detection
- Fire Suppression Solutions
- Wet fire sprinklers
- Dry fire sprinklers
- Fire pumps and controllers
- Pre-action fire sprinklers
- Deluge fire sprinklers
- Fire extinguishers
- Hood suppression systems
- FM 200
- CO2 low & high pressure
- Halon systems replacement/retrofit
- Novec 1230 Argonite Foam Systems
- Mass notification

We also offer high sensitivity and specialty hazard detection, and, in the event of an emergency, color-coded LEDs will help you pinpoint alarms. We offer sensitivity adjustments for environmental factors, too.

Our complete line of passive fire protection services is even customizable. It includes fire and smoke damper inspections, fire damper and smoke damper repairs, fire door inspections, firestop survey and installation, and photoluminescence egress marking systems. Just having a fire detection system isn't enough. You need to ensure that your system and the team behind it can meet the needs of your business and everyone involved.

EMERGENCY RESPONDERS' COMMUNICATION ENHANCEMENT SYSTEMS (ERCES)

The safety of occupants and first responders often depends on the reliable availability of firefighter, EMS and police two-way radio communication. Building materials, particularly high-efficiency material such as low-E glass, can substantially dampen outdoor radio signals from public safety radio towers, making indoor levels too low to meet International Fire Code Section 510, NFPA 72 National Fire Alarm and Signaling Code or the NFPA 1221 Standard for the Installation, Maintenance, and use of Emergency Services Communications Systems

- Baseline coverage assessments
- Permitting and AHJ coordination
- Computer-based design
- Procurement of system hardware including FCC and UL Listed bidirectional amp (BDA)
- BDA configuration and optimization
- UL Listed monitoring services via phone lines or cellular connections

ADT Commercial is your One Ideal Partner for fire and life safety solutions. We work with contractors, local fire authorities and building owners to create turnkey and robust in-building ERCES, bi-directional amplifiers (BDA) and distributed antenna systems to a jurisdictions adopted/amended fire code.

MANAGED SERVICES

Our ADT Commercial Network Operation Center can help design, implement, commission, manage, and monitor your security application IT network. The team can also help manage broadband connections. Because our engineers hold certifications in both Cisco and Meraki, they have the advanced knowledge required to design and implement the integrated security solution you need.

- Test your equipment.
- Schedule repairs
- Keep you connected.
- Alert you.
- Protect your data

Managed services can help your agency reduce costs associated with travel expenses, improve processes, mitigate network security risks, and enhance physical security. It will allow teams to focus on

core competencies, while we help provide peace of mind by helping agencies keep security systems and components running as expected— while the system is monitored, the software is updated, and bandwidth is managed.

INTEGRATED SOLUTIONS

For agencies looking to optimize the efficiency of their defenses, ADT Commercial helps to seamlessly merge IT and security teams. When these two departments come together, the entire organization benefits through increased reliability and cost savings.

With consolidation comes sophistication, and not all vendors are prepared to offer an enterprise solution that can help. Our solutions might be right for you if you have high- end integrated solution needs coupled with sophisticated IP networked system requirements. Our industry-leading approach can help you reach peak efficiency by integrating technologies and customizing solutions.

We're a leader in the industry and we hold Cisco Cloud and Managed Services Express Partner Certification. Our Cisco Authorized Technology Partner Certification underscores our expertise in advanced and emerging technology. We are one of the few Cisco CMSP partners in the security industry.

Our dedicated team can also integrate visitor management and access control systems, intercom systems, alarm management, intrusion protection, perimeter security, video surveillance, managed video services, fire alarms, and more. We help agencies unify all of their video, data, and mobile applications for meaningful and cost-effective communications.

Customized systems

We can work with you to craft a system that supports your business. If you're not sure where to start, our auditing and evaluations program might help. We provide a variety of services ranging from risk and vulnerability assessments to full-scale project design packages.

Physical and digital solutions

Your team can surround you with support after the system goes live. The NOC focuses on providing real-time monitoring of IT-sensitive systems, including up/down status and network performance metrics.

If you run a complex business, we're just the partner you're looking for. We meet complex security needs such as those of clients related to energy markets, the pharmaceutical industry, and higher education.

ADT Commercial integrated solutions can offer agencies custom, enterprise-level security platforms and remote managed services to leverage their IT infrastructure to help create additional reliability and potential cost savings.

INTRUSION ALARM SYSTEMS

We can help protect agencies with proven, reliable technology. Whether at a facility or miles away from it, our state-of-the-art intrusion detection solutions and monitoring services give you peace of mind, so you can focus on your business. We don't provide a one-size-fits-all solution. We design protection that takes the shape of your organization, helping choose the most robust intrusion system with the latest technology.

- Opening and closing reports that provide an audit trail of business hours
- The ability to expand, enhance, and customize the system Integration with fire alarm systems, security system access control, and video surveillance systems

Flexible options, such as motion detectors, photoelectric beams, magnetic contacts, shock and pressure sensors, and glass break detectors

Exit and entry time delay features

Our system detects motion and intruders, as well as other issues that can impact health and safety. We can monitor agency buildings for sump pump failure, sudden temperature changes, smoke, carbon monoxide and flooding. All these issues can be incredibly expensive, and our alerts can help customers step in and arrest the damage.

STRUCTURED CABLING:

We prepare, implement, test, and support highly dependable, scalable, and secure network cabling and premise low voltage cabling systems that will help meet today's needs and those of the future. We have installed thousands of Category 5e, 6, and 6a cables for hundreds of voice and data networks.

Our services include:

- Cat 5e, Cat 6, Augmented Cat 6, shielded/unshielded, twisted pair, voice/data
- Datacenter specialization/design and cabling
- Copper and fiber 10 gig connectivity for campus and data center applications
- Fiber optic cabling installation, fusion splicing, buried and overhead/outside plant cabling
- Data cabling for wireless networks as well as access point installation and configurations including point-to-point and point-to-multi-point systems
- Coaxial cable installation for CCTV, IP over coax, audio, and broadband uses
- Aerial/underground fiber-optic design-builds
- Fault location

We offer a suite of front-end and follow-up preparation services. We help to provide consultation, design, installation, and documentation of physical layer infrastructures and network connectivity that are commonly outsourced to multiple organizations. We have an in-house CAD department, and ADT

Commercial employs full-time structured cabling technicians. We work to ensure that organizations have the proper submittal packages before integration begins, and we provide as-built drawings and cut sheets after completion of the work.

COMPANY CERTIFICATION:

- Panduit Certified Installer
- Siemen CI Certified Installer
- CommScope Certified Installer
- Mohawk/CDT Installer
- Belden BRIC Belden Registered Installation Contractor
- Berk-Tek OASIS Contractor
- Leviton Certified Cabling Systems Contractor

We believe that testing and certification are paramount to customer satisfaction. We support and encourage our technicians to become BICSI-certified (Building Industry Consulting Service International). Having BICSI-certified data cabling technicians helps to ensure adherence to the highest quality standards for installation, termination, and testing. We also have BICSI-certified Registered Communications Distribution Designers (RCDD) and BICSI Network Transport Specialists (NTS) on staff and are Corning certified in terminating, splicing, testing, and troubleshooting both multimode and single-mode fiber.

Risk assessment and management

We help you prepare for the unexpected so your organization can respond in a time of crisis. Our Enterprise Security Risk Group (eSRG) helps you identify your risks—and then build programs to help manage them. It is staffed by senior executives with a background in intelligence, business continuity, business process optimization, organizational change, and technology.

Build the system you need

We enable security executives to become trusted advisors to their peers and help prepare you for your role, augmenting services you need to serve your team well. And, more importantly, we help you prepare for the unexpected so your organization can respond in a time of crisis. This process is guided by the professional discipline, principles, and philosophy of enterprise security risk management.

		<p>Capabilities</p> <p>At ADT we believe everyone deserves to feel safe, so we empower our customers to protect and connect what matters most. Our superior monitoring and response capabilities benefit both our customers and our communities in many ways both seen and unseen. We've made considerable progress in reducing false alarms and alarm handling times for our customers while lowering our cost to deliver our service in the future. This model for advancing the cause of all stakeholders has built a priceless foundation of trust among 9-1-1 Centers, first responders, customers, and our team members as we all work together for a safer today.</p> <p>ADT has new and improved ways of leveraging our customers data. Traditional monitored alarms provided a single point of data without any context. The complexity of information was low and false alarms were high. Today ADT is gathering data from many sources including cameras, audio, GPS locations, motion detection, the environment and many more sources our customers have consented to share with us. We analyze the data points in the cloud using powerful machine learning models and Artificial intelligence together to paint a clear picture of the alarm event since introducing this technology ADT has been able to reduce customer false alarms by 54%.</p>

Return and restocking policy and applicable fees	<i>Please describe your company's return and restocking policy, including any commitments necessary for services and fees for agencies to end services early.</i>	ADT Commercial provides integrated installations to agency members, it is rare that ADT has returns / restocking policy, most of our work is design, installation & turn-key security projects. If we need to return products off the primary order ADT will communicate with member agency if additional charges apply.
Customer service/problem resolution	<i>Describe your company's Customer Service Department (hours of operation, how you resolve issues, number of service centers, etc.).</i>	<p>ADT Commercial Services may be requested 24/7/365 days a year, via phone or through our customer eSuite Web Portal. Calls are dispatched to our techs via their hand-held mobile device. Technicians receive the details of the request along with any special instructions. When a service ticket has been created, customer contacts for that site will receive an email (via Tech Tracker account setup) that a job has been created. When the service call is assigned, a second email with the service technician, name, picture, and qualifications is sent. A third email is sent when the technician is in-route, and a final email is sent when service is completed, and the ticket is closed.</p> <p>Request for emergency service must be phoned in to the ADT Commercial Operations Center (Rather than email or web request), and emergency nature of response relayed to the ADT Commercial associate. When our technician is closing out the service ticket, they will obtain an electronic acceptance signature from the customer site contact on their mobile ticket device. Details of the service ticket and technician notes of work performed are available in real-time on eSuite, along with a copy of signature obtained. When a site contact is added or deleted in eSuite, their contact information is added or deleted from site call lists. Additionally, integration done through our eSuite panel will automatically download the panel/s the contact is associated with, and add, edit or remove alarm panel codes. Panels require cell radio or IP connectivity for panel code management functionality.</p>
	<p><i>Provide your safety record, safety rating, EMR and worker's compensation rate where available.</i></p>	<p>At ADT Commercial we strive to protect our most valuable resource - our team members! We have implemented an EH&S Management System, which provides a framework to put our Vision and Values into practice by clearly stating expectations for compliance, accountability, sustainability, and continuous improvement. We believe that all injuries are preventable and constantly seek to provide work in an environment that is free from recognized hazards. We continually work to foster a safety culture that enables our employees to minimize risk, understand and follow safety rules as well as identify and correct unsafe actions, behaviors, or situations.</p> <p>Over the last seven years, we have continued to see significant year-over-year improvements in our safety metrics. In 2019, our total recordable injury incident rate was 1.07 and our total lost time incident rate was 0.34 which was a reduction of 49% and 50% respectively, compared to our baseline year of 2012. We also achieved a significant reduction in the days which were lost during the same period by 41%. We have not experienced any work-related fatalities. Our proactive prevention programs have helped us achieve these reductions including continual support and investment over the years in safety programs and initiatives such as:</p>

- Promoting risk assessment with our field teams by ensuring they identify and control potential hazards at the beginning of each job.
- Emphasizing and being accountable for our nine behavioral Safety Absolutes.
- Providing Personal Protective Equipment to all employees to help minimize risk in the field.
- Providing instructor led, interactive safety training courses monthly.
- Ensuring management involvement through the execution of our jobsite observation process, which includes visiting team members while they are on a job and having a conversation about the safety aspects of the job.

Establishing monthly EHS Council and Incident Review meetings, which are conducted within each region and area and are led by Regional Vice Presidents and Area General Managers. Distribution of safety communications and alerts, including weekly “toolbox talks” that targets our installers and service technicians and are specific to the hazards they may face while working for ADT.

FLEET

ADT operates a fleet of approximately 6,500 vehicles in the U.S. which presents risks and hazards associated with driving the vehicles. As collisions involving motor vehicles have typically been one of our top causes of injuries, special programs have been put in place to continuously improve fleet safety. These programs include mandatory driver safety training and adherence to our Driver Safety Standard, which includes signing the ADT Driver Code of Conduct and compliance with our Motor Vehicle Safety Absolutes. Additionally, we have installed reflective tape on the rear of the vehicles to increase visibility and help reduce rear-end collisions. In late 2019 we rolled out our new telematics program in partnership with Geotab. This will give us focus on instant alerts of poor driving habits allowing our team managers to coach the drivers while we grew our fleet by 2,000 vehicles over the past 2+ years, our injuries per million miles driven have been reduced by 35%, and collisions per million miles have been reduced by 10%.

ADT is constantly reviewing our fleet safety initiatives to determine if there are other programs that could be implemented to help us prevent motor vehicle incidents and injuries. We are also a member of the Network of Employers for Traffic Safety (NETS), where we benchmark our programs and the three-fleet metrics mentioned above, to determine if there are programs that have been effective at other companies that could be implemented within ADT.

TRAINING

To support our value of providing all team members with the necessary knowledge to perform their jobs safely, ADT asks employees to complete several important training programs. The first is part during the onboarding process. All ADT commercial team members must complete the ADT EH&S Orientation Program on ADT’s Learning Management System (LMS) before any work can proceed in the field.

Additionally, each employee is required to complete certain training programs throughout the year as part of your annual (monthly for technicians) EH&S training.

COMMUNICATIONS

Periodically ADT will release internal communications related to a recent incident called “Safety Alerts.” These safety alerts are written to provide our employees with insight gained through an incident investigation. It will provide an overview of the incident and what solutions and controls, if implemented, could have lessened the risk or prevented the incident altogether. In addition to safety alerts, the EH&S team will provide information regarding best practices or safety procedures for performing a job. Employees can review these and keep them readily available as a reference tool. Safety is paramount, ADT will never expect our employees to work in an unsafe manner. If any team member is in doubt about the safety of a task, they can stop their work and have direct communications with their manager for guidance before proceeding with the job!

WWW.ADT.COM/COMMERCIAL

Founded in 1874 as the American District Telegraph Company, ADT delivered the most advanced communications technology of the 1800s, the telegraph system. In the 1890s, ADT embraced the call box where specific signals could be transmitted by a watchman to a district office alerting the company to specific needs of a customer.

ADT continued growing and innovating through the decades. During the roaring twenties, ADT made significant additions to its line of burglar, holdup and fire alarm systems through its own research and development. On the eve of World War II, the company developed technologies which would help protect factories making weapons. The 1950s and 1960s saw ADT making tremendous growth, creating the first automated central station.

In February of 2016, ADT was purchased by Apollo Global Management and merged with Protection 1, making it the largest security company. In January 2018, ADT again emerged as a public company, trading on the New York Stock Exchange. The company has continued to build on its commercial capabilities with more than 16 strategic acquisitions in recent years, to ultimately enhance its customer service capabilities, geographic footprint and help to expand its enterprise solutions and technology offerings.

		<p>As demand for commercial services and complex security integration grew, ADT Commercial LLC emerged in 2020 as a separate operation from the residential business. 		<p>Our national field consultants will receive initial instruction on the use of the contract, the agencies that can utilize it, and the policy and procedures that need to be followed to ensure compliance with the terms and conditions of the contract.</p>																																				
<p>Past litigation, bankruptcy, reorganization, state investigations of entity or current officers and directors</p>	<p><i>Provide information regarding whether your firm, either presently or in the past, has been involved in any litigation, bankruptcy, or reorganization.</i></p>	<p>ADT Commercial LLC ("ADT Commercial") has approximately 4,400 employees operating out of over 150 operation centers or branch office locations. It manages a fleet of approximately 100 vehicles and provides installation, monitoring, and maintenance services of and for fire detection systems, intrusion detection/security systems, sprinkler, and fire suppression systems, access control systems, ATM and banking security systems, nurse call and medical alert systems and other life safety related & security systems for over 500,000 commercial or governmental customer nationwide. Given the scope and nature of its business operations, ADT Commercial is subject to, pursues, or is peripherally involved or named in administrative and/or litigation matters in the ordinary course of its business. The types of litigation/legal matters of record are varied and wide-ranging, including, among other things: ADT Commercial named as a creditor to a customer/debtor under bankruptcy and/or foreclosure matters; employee wage garnishment proceedings; commercial collection matters; traffic citations; ordinance [false alarm] citations; automobile negligence actions; alarm operations civil litigation (most typically insurance subrogation claims). Because of the volume and geographic diversity of routine, non-material legal matters that ADT Commercial sees in the ordinary course and the different internal functional groups that may be responsible for handling particular types of matters, and further given the dynamic and routine reality of new matters being filed and existing matters being closed, it becomes burdensome to the point of impracticality for ADT Commercial to list all such matters at any point in time, let alone for any defined or undefined period. There is no matter currently that has or may have a material adverse impact on ADT Commercial's ability to perform its contractual obligations to any customer. If there is any matter of which the County is aware and for which the County requests additional information, please identify it and ADT can respond further.</p>

If you have a diversity program, please describe it and indicate whether you plan to offer your program or partnership through Equalis Group?</i></p>	<p>As an organization, we’re continuously striving to employ a workforce that looks more like the communities we serve. We recognize that within our industry, there is a significant lack of diversity—in gender, people of color, and individuals with disabilities. While ADT Commercial does have minority leaders and employees, we know that we—and the entire industry—will benefit from an increase in workforce diversity.</p> <p>ADT Commercial is committed to being an agent of change in this area. While we’ve always strived to be an organization focused on inclusion, we’re making decisive strides to create that change. First and foremost, we’ve identified key leaders from our workforce to form a Diversity Committee to work directly with our executive leadership to develop a company-wide diversity strategy. This committee is dedicated to helping us to determine how we at ADT Commercial can best structure our organization and initiatives to be an accountable representative of the company’s core values to represent our organization authentically within the communities we serve.</p> <p>We committed to engaging in a more consistent conversation on the topic of diversity—in our hiring practices, in our mentorship programs, and throughout our company culture. But this is just the beginning, we hope to utilize the paths we’ve laid out through our apprenticeship program, mentorship programs, and opportunities for career progression to develop a more diverse candidate pool and kick off a wave of sustainable change within the industry.</p>

		<p>ADT Commercial is committed to diversity and inclusion and strives to create a workplace that provides opportunities for professional development for all our team members. In 2020, we took a meaningful step towards our commitment by establishing our Inclusive Diversity and Belonging Council, educational and learning opportunities, and Business Employee Resource Groups. Members of the Inclusive Diversity and Belonging Council represent a broad cross section of our organization and are expected to help build enterprise initiatives, by elevating inclusion and diversity as a business priority across the organization, that include measurable goals and accountability. While ADT is proud of its diversity and inclusion efforts, we aim to have greater gender, racial and ethnic representation throughout the Company, including at the senior leadership levels.</p> <p>Overall Population Female: 31.3% Racial/Ethnic Representation: 41.4%</p>

27 OCTOBER 2021

Subject: ADT Commercial - Edwards National Strategic Partner

Dear Sir or Madam:

At Edwards we believe that the success of a life safety system installation depends on properly trained individuals, from the early bid and application stage, through the life cycle of the product, including retrofit. Properly trained technicians ensure that the project is managed with the highest quality standards and that the site owner is satisfied that the equipment meets his or her needs. Most importantly, properly trained employees ensure that the life safety system operates flawlessly in an emergency and protects the ultimate customer.

As a Factory Authorized Edwards National Strategic Partner, they are authorized and supported by Edwards to sell, order, install, maintain, and service all Edwards Fire & Life Safety products. Also, they have exclusive access to many Edwards services including but not limited to 24/7 technical support, firmware upgrades, and of course factory training to certify and ensure their personnel have the knowledge and resources available to install and maintain an Edwards life/safety system.

This letter is to confirm ADT Commercial is a Factory Authorized Edwards National Strategic Partner serving the following locations for 2021:

Albany, Albuquerque, Biloxi, Boston, Buffalo, Connecticut, Dallas, Denver, Hawthorne, Houston, Katy, Los Angeles, Louisville, New Jersey Metro, New Orleans, New York City, Novi, Oklahoma City, Orlando, Philadelphia Metro, Phoenix, Raleigh, San Antonio, San Diego, San Francisco, Syracuse, Tampa, Safe electronics

Please don't hesitate to contact me if you have any questions or concerns.

PROPOSAL FORM 7: CONTRACTOR CERTIFICATION REQUIREMENTS

Contractor’s Employment Eligibility

By entering the contract, Contractor warrants compliance with the Federal Immigration and Nationality Act (FINA), and all other federal and state immigration laws and regulations. The Contractor further warrants that it is in compliance with the various state statutes of the states it will operate this contract in.

Participating Government Entities including School Districts may request verification of compliance from any Contractor or subcontractor performing work under this Contract. These Entities reserve the right to confirm compliance in accordance with applicable laws.

Should the Participating Entities suspect or find that the Contractor or any of its subcontractors are not in compliance, they may pursue any and all remedies allowed by law, including, but not limited to: suspension of work, termination of the Contract for default, and suspension and/or debarment of the Contractor. All costs necessary to verify compliance are the responsibility of the Contractor.

The Respondent complies and maintains compliance with the appropriate statutes which requires compliance with federal immigration laws by State employers, State contractors and State subcontractors in accordance with the E-Verify Employee Eligibility Verification Program.

Contractor shall comply with governing board policy of the Region 10 ESC Participating entities in which work is being performed.

Fingerprint & Criminal Background Checks

If required to provide services on school district property at least five (5) times during a month, contractor shall submit a full set of fingerprints to the school district if requested of each person or employee who may provide such service. Alternately, the school district may fingerprint those persons or employees. An exception to this requirement may be made as authorized in Governing Board policy. The district shall conduct a fingerprint check in accordance with the appropriate state and federal laws of all contractors, subcontractors or vendors and their employees for which fingerprints are submitted to the district. Contractor, subcontractors, vendors and their employees shall not provide services on school district properties until authorized by the District.

The Respondent shall comply with fingerprinting requirements in accordance with appropriate statutes in the state in which the work is being performed unless otherwise exempted.

Contractor shall comply with governing board policy in the school district or Participating Entity in which work is being performed.

PROPOSAL FORM 9: IMPLEMENTATION OF HOUSE BILL 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016. https://www.ethics.state.tx.us/whatsnew/elf_info_form1295.htm

PROPOSAL FORM 10: BOYCOTT CERTIFICATION AND TERRORIST STATE CERTIFICATION

BOYCOTT CERTIFICATION

Respondents must certify that during the term of any Agreement, it does not boycott Israel and will not boycott Israel. "Boycott" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes.

Does vendor agree? YES
(Initials of Authorized Representative)

TERRORIST STATE CERTIFICATION

In accordance with Texas Government Code, Chapter 2252, Subchapter F, REGION 10 ESC is prohibited from entering into a contract with a company that is identified on a list prepared and maintained by the Texas Comptroller or the State Pension Review Board under Texas Government Code Sections 806.051, 807.051, or 2252.153. By execution of any agreement, the respondent certifies to REGION 10 ESC that it is not a listed company under any of those Texas Government Code provisions. Responders must voluntarily and knowingly acknowledge and agree that any agreement shall be null and void should facts arise leading the REGION 10 ESC to believe that the respondent was a listed company at the time of this procurement.

Does vendor agree? YES
(Initials of Authorized Representative)

PROPOSAL FORM 12: FEDERAL FUNDS CERIFICATION FORM

When a participating agency seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200 (sometimes referred to as the "Uniform Guidance" or "EDGAR" requirements). All Vendors submitting proposals must complete this Federal Funds Certification Form regarding Vendor's willingness and ability to comply with certain requirements which may be applicable to specific participating agency purchases using federal grant funds. This completed form will be made available to participating agencies for their use while considering their purchasing options when using federal grant funds. Participating agencies may also require Vendors to enter into ancillary agreements, in addition to the contract's general terms and conditions, to address the member's specific contractual needs, including contract requirements for a procurement using federal grants or contracts.

For each of the items below, Vendor should certify Vendor's agreement and ability to comply, where applicable, by having Vendor's authorized representative complete and initial the applicable lines after each section and sign the acknowledgment at the end of this form. If a vendor fails to complete any item in this form, Region 10 ESC will consider the Vendor's response to be that they are unable or unwilling to comply. A negative response to any of the items may, if applicable, impact the ability of a participating agency to purchase from the Vendor using federal funds.

1. Vendor Violation or Breach of Contract Terms:

Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 USC 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Any Contract award will be subject to Region 10 ESC General Terms and Conditions, as well as any additional terms and conditions in any Purchase Order, participating agency ancillary contract, or Member Construction Contract agreed upon by Vendor and the participating agency which must be consistent with and protect the participating agency at least to the same extent as the Region 10 ESC Terms and Conditions.

The remedies under the Contract are in addition to any other remedies that may be available under law or in equity. By submitting a Proposal, you agree to these Vendor violation and breach of contract terms.

2. Termination for Cause or Convenience:

When a participating agency expends federal funds, the participating agency reserves the right to immediately terminate any agreement in excess of \$10,000 resulting from this procurement process in the event of a breach or default of the agreement by Offeror in the event Offeror fails to: (1) meet schedules, deadlines, and/or delivery dates within the time specified in the procurement solicitation, contract, and/or a purchase order; (2) make any payments owed; or (3) otherwise perform in accordance with the contract and/or the procurement solicitation. participating agency also reserves the right to terminate the contract immediately, with written notice to offeror, for convenience, if participating agency believes, in its sole discretion that it is in the best

interest of participating agency to do so. Offeror will be compensated for work performed and accepted and goods accepted by participating agency as of the termination date if the contract is terminated for convenience of participating agency. Any award under this procurement process is not exclusive and participating agency reserves the right to purchase goods and services from other offerors when it is in participating agency's best interest.

3. Equal Employment Opportunity:

Except as otherwise provided under 41 CFR Part 60, all participating agency purchases or contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 shall be deemed to include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

The equal opportunity clause provided under 41 CFR 60-1.4(b) is hereby incorporated by reference. Vendor agrees that such provision applies to any participating agency purchase or contract that meets the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 and Vendor agrees that it shall comply with such provision.

4. Davis-Bacon Act:

When required by Federal program legislation, Vendor agrees that, for all participating agency prime construction contracts/purchases in excess of \$2,000, Vendor shall comply with the Davis-Bacon Act (40 USC 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, Vendor is required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determinate made by the Secretary of Labor. In addition, Vendor shall pay wages not less than once a week.

Current prevailing wage determinations issued by the Department of Labor are available at www.wdol.gov. Vendor agrees that, for any purchase to which this requirement applies, the award of the purchase to the Vendor is conditioned upon Vendor's acceptance of the wage determination.

Vendor further agrees that it shall also comply with the Copeland "Anti-Kickback" Act (40 USC 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled.

5. Contract Work Hours and Safety Standards Act:

Where applicable, for all participating agency contracts or purchases in excess of \$100,000 that involve the employment of mechanics or laborers, Vendor agrees to comply with 40 USC 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 USC 3702 of the Act, Vendor is required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 USC 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

8. Debarment and Suspension:

Debarment and Suspension (Executive Orders 12549 and 12689) – A contract award (see 2 CFR 180.220) must not be made to parties listed on the government-wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1966 Comp. p. 189) and 12689 (3CFR Part 1989 Comp. p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Vendor certifies that Vendor is not currently listed on the government-wide exclusions in SAM, is not debarred, suspended, or otherwise excluded by agencies or declared ineligible under statutory or regulatory authority other than Executive Order 12549. Vendor further agrees to immediately notify the Cooperative and all participating agencies with pending purchases or seeking to purchase from Vendor if Vendor is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under statutory or regulatory authority other than Executive Order 12549.

9. Byrd Anti-Lobbying Amendment:

Byrd Anti-Lobbying Amendment (31 USC 1352) -- Vendors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 USC 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. As applicable, Vendor agrees to file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 USC 1352).

PROPOSAL FORM 13: ADDITIONAL ARIZONA CONTRACTOR REQUIREMENTS

AZ Compliance with Federal and state requirements: Contractor agrees when working on any federally assisted projects with more than \$2,000.00 in labor costs, to comply with all federal and state requirements, as well as Equal Opportunity Employment requirements and all other federal and state laws, statutes, etc. Contractor agrees to post wage rates at the work site and submit a copy of their payroll to the member for their files. Contractor must retain records for three years to allow the federal grantor agency access to these records, upon demand. Contractor also agrees to comply with the Arizona Executive Order 75-5, as amended by Executive Order 99-4.

When working on contracts funded with Federal Grant monies, contractor additionally agrees to comply with the administrative requirements for grants, and cooperative agreements to state, local and federally recognized Indian Tribal Governments.

AZ Compliance with workforce requirements: Pursuant to ARS 41-4401, Contractor and subcontractor(s) warrant their compliance with all federal and state immigration laws and regulations that relate to their employees, and compliance with ARS 23-214 subsection A, which states, "...every employer, after hiring an employee, shall verify the employment eligibility of the employee through the E-Verify program". Region 10 ESC reserves the right to cancel or suspend the use of any contract for violations of immigration laws and regulations. Region 10 ESC and its members reserve the right to inspect the papers of any contractor or subcontract employee who works under this contract to ensure compliance with the warranty above.

AZ Contractor Employee Work Eligibility: By entering into this contract, contractor agrees and warrants compliance with A.R.S. 41-4401, A.R.S. 23-214, the Federal Immigration and Nationality Act (FINA), and all other Federal immigration laws and regulations. Region 10 ESC and/or Region 10 ESC members may request verification of compliance from any contractor or sub contractor performing work under this contract. Region 10 ESC and Region 10 ESC members reserve the right to confirm compliance. In the event that Region 10 ESC or Region 10 ESC members suspect or find that any contractor or subcontractor is not in compliance, Region 10 ESC may pursue any and all remedies allowed by law, including but not limited to suspension of work, termination of contract, suspension and/or debarment of the contractor. All cost associated with any legal action will be the responsibility of the contractor.

AZ Non-Compliance: All federally assisted contracts to members that exceed \$10,000.00 may be terminated by the federal grantee for noncompliance by contractor. In projects that are not federally funded, Respondent must agree to meet any federal, state or local requirements as necessary. In addition, if compliance with the federal regulations increases the contract costs beyond the agreed on costs in this solicitation, the additional costs may only apply to the portion of the work paid by the federal grantee.

Registered Sex Offender Restrictions (Arizona): For work to be performed at an Arizona school, contractor agrees that no employee or employee of a subcontractor who has been adjudicated to be a registered sex offender will perform work at any time when students are present, or reasonably expected to be present. Contractor agrees that a violation of this condition shall be considered a material breach and may result in the cancellation of the purchase order at the Region 10 ESC member's discretion. Contractor must identify any additional costs associated with compliance to this term. If no costs are specified, compliance with this term will be provided at no additional charge.

MANDATORY AFFIRMATIVE ACTION LANGUAGE

PROCUREMENT, PROFESSIONAL AND SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color,

national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

PROPOSAL FORM 17: C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.**

What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information is available in Local Finance Notice 2006-1 (https://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html).

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a) The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at https://www.state.nj.us/dca/divisions/dlgs/programs/pay_2_play.html They will be updated from time-to-time as necessary.
 - b) A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c) Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d) The form may be used “as-is”, subject to edits as described herein.
 - e) The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f) The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract. (See Local Finance Notice 2006-7 for additional information on this obligation) A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. **NOTE: This section is not applicable to Boards of Education.**

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

1. any State, county, or municipal committee of a political party
2. any legislative leadership committee^{*}
3. any continuing political committee (a.k.a., political action committee)
4. any candidate committee of a candidate for, or holder of, an elective office:
 1. of the public entity awarding the contract
 2. of that county in which that public entity is located
 3. of another public entity within that county
 4. or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county. The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

5. individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
6. all principals, partners, officers, or directors of the business entity or their spouses
7. any subsidiaries directly or indirectly controlled by the business entity
8. IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs). When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure. Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report. The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement. The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act. The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law.

NOTE: This section does not apply to Board of Education contracts.

PROPOSAL FORM 19: GENERAL TERMS AND CONDITIONS ACCEPTANCE FORM

Signature on the Vendor Contract Signature form certifies complete acceptance of the General Terms and Conditions in this solicitation, except as noted below (additional pages may be attached, if necessary).

Check one of the following responses to the General Terms and Conditions:

We take no exceptions/deviations to the general terms and conditions

(Note: If none are listed below, it is understood that no exceptions/deviations are taken.)

We take the following exceptions/deviations to the general terms and conditions. All exceptions/deviations must be clearly explained. Reference the corresponding general terms and conditions that you are taking exceptions/deviations to. Clearly state if you are adding additions terms and conditions to the general terms and conditions. Provide details on your exceptions/deviations below:

(Note: Unacceptable exceptions shall remove your proposal from consideration for award. Region 10 ESC shall be the sole judge on the acceptance of exceptions/deviations and the decision shall be final.)

13.3 Indemnity: Vendor shall protect, indemnify, and hold harmless both Region 10 ESC and Equalis Group and its Members, administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting solely from the ~~actions~~ errors, omissions, or direct gross negligence of Vendor, Vendor employees or Vendor subcontractors in the preparation of the solicitation and the later execution of the contract, including any supplemental agreements with Members. Any litigation involving either Region 10 ESC or Equalis Group, its administrators and employees and agents shall be in a court of competent jurisdiction in Dallas County, Texas. Texas law shall apply to any such suit, without giving effect to its choice of laws provisions. Any litigation involving Equalis Group participating Members shall be in the jurisdiction of the participating agency.

PROPOSAL FORM 21: OPEN RECORDS POLICY ACKNOWLEDGEMENT AND ACCEPTANCE
OPEN RECORDS POLICY ACKNOWLEDGMENT AND ACCEPTANCE

Be advised that all information and documents submitted will be subject to the Public Information Act requirements governed by Chapter 552 of the Texas Government Code.

Because contracts are awarded by a Texas governmental entity, all responses submitted are subject to release as public information after contracts are executed. If a Respondent believes that its response, or parts of its response, may be exempted from disclosure to the public, the Respondent must specify page-by-page and line-by-line the parts of the response, which it believes, are exempted from disclosure. In addition, the Respondent must specify which exception(s) are applicable and provide detailed reasons to substantiate the exception(s). Respondent must provide this information on the "Acknowledgement and Acceptance to Region 10 ESC's Public Information Act Policy" form found on the next page of this solicitation. Any information that is unmarked will be considered public information and released, if requested under the Public Information Act.

The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 10 ESC must provide the OAG with the information requested in order for the OAG to render an opinion. In such circumstances, Respondent will be notified in writing that the material has been requested and delivered to the OAG. Respondent will have an opportunity to make arguments to the OAG in writing regarding the exception(s) to the TPIA that permit the information to be withheld from public disclosure. Respondents are advised that such arguments to the OAG must be specific and well-reasoned—vague and general claims to confidentiality by the Respondent are generally not acceptable to the OAG. Once the OAG opinion is received by Region 10 ESC, Region 10 ESC must comply with the opinions of the OAG. Region 10 ESC assumes no responsibility for asserting legal arguments on behalf of any Respondent. Respondents are advised to consult with their legal counsel concerning disclosure issues resulting from this procurement process and to take precautions to safeguard trade secrets and other proprietary information.

After completion of award, these documents will be available for public inspection.

Signature below certifies complete acceptance of Region 10 ESC's Open Records Policy, except as noted below (additional pages may be attached, if necessary). Check one of the following responses to the Acknowledgment and Acceptance of Region 10 ESC's Open Records Policy below:

We acknowledge Region 10 ESC's Public Information Act policy and declare that no information submitted with this proposal, or any part of our proposal, is exempt from disclosure under the Public Information Act. *(Note: All information believed to be a trade secret or proprietary must be listed below. It is further understood that failure to identify such information, in strict accordance with the instructions below, will result in that information being considered public information and released, if requested under the Public Information Act.)*

We declare the following information to be a trade secret or proprietary and exempt from disclosure under the Public Information Act.

(Note: Respondent must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition, Respondent must specify which exception(s) are applicable and provide detailed reasons to substantiate the exception(s).)
