

Arizona Compliance Questionnaire

Objective: To determine whether the cooperative has followed the State of Arizona procurement laws and the School District Procurement Rules to promote fair and open competition among vendors to help ensure the cooperative’s members are receiving the best value for the public monies they spend.

The audit firm must select and test the lesser of 50 percent or 15 of the cooperative’s contracts awarded during the fiscal year to be used by Arizona school districts, but no fewer than 5 awarded contracts. All contracts awarded for like items should be considered a single contract in applying the sample size. These sample sizes represent the minimum level of required test work. Audit firms should use their professional judgment in determining whether a larger sample is needed.

In the parentheses provided below, indicate the population size and actual number of contracts tested and total number of contracts awarded. If all contracts are tested, indicate such in the “Comments.” Of the total awarded contracts selected for testing, at least 40 percent must be competitive sealed bids and at least 40 percent must be competitive sealed proposals. If the 40 percent thresholds cannot be met because of an inadequate population size, the audit firm must test all contracts awarded through competitive sealed bids or proposals, as applicable. Of the contracts selected, at least 1 awarded contract should be for traditional construction (design-bid-build) and specified professional services, and at least 1 for construction-manager-at-risk, design-build, job-order-contracting, or qualified select bidders list, as applicable.
