# OUR BELIEFS

What we do is important because these kids are the future.

We provide tools that support learning, not just build furniture.

Treating people with kindness and respect is not optional.

Loyalty is earned.

Value is determined over time.

Style and function are not mutually exclusive.

There is only one Earth so we must take care of it.

Making it here is better than buying it from over there.

You can't positively impact the future if you're not around.

Whoever said "you can't please all the people, all the time" gave up too easy.
