A MaxPreps Top 10 high school weight room

MORE STRENGTH PER SQUARE FOOT™

WHAT MAKES US STAND APART FROM THE REST?

We turn YOUR pride into the 100% American-made strength and conditioning equipment designed to create and sustain champions.

Dynamic provides an unsurpassed level of customization that will fit your budget without compromising quality or performance.

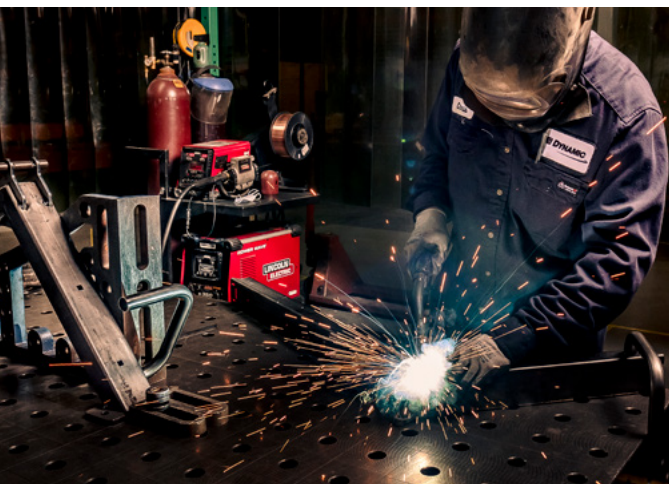

You will get direct, immediate and personal support that doesn't end upon delivery or invoice. We don't just build the best equipment. We build lasting relationships.

Every weld, every laser-cut, every custom specification, color and logo will boldly display the pride of your team, school or gym.

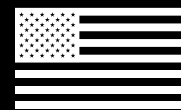

WHO IS DYNAMIC FITNESS & STRENGTH?

Located in the west-central Wisconsin northwoods, Dynamic Fitness & Strength grew from a small fab shop to the world's fastest growing fitness equipment manufacturer. Our strength comes from our team—from our design and production crew, to the professional coaches whose experience include the NFL, MLB, academic and commercial coaching and training. They've been exactly where you are—some are past customers—and they understand your situation and they have solutions.

Alongside Dynamic's stellar leadership, our Dynamic Team has brought this mid-American fitness and strength manufacturer to a position that's shaping the strength training industry.

**BEST QUALITY. BEST VALUE.
BEST SUPPORT. BEST PEOPLE.**
