

### SH Connect Compliance Management System

## SH Connect ensures your AED program is compliant and ready for an emergency

CROUP Equalis Contract R10-1131 | Quote 4034988

AEDs are a vital part of a school's emergency preparedness. Maintaining a compliant and ready AED program can be a lot of work, and even the most dedicated districts can struggle.

School Health is one of the largest suppliers of AEDs to schools in the US, with decades of experience working with school districts of all sizes. SH Connect, our new compliance platform, ensures your AED program is compliant, and most importantly, ready when an emergency occurs.

SH Connect and it's best-in-class user interface take the guesswork out of keeping your AEDs ready for use. Clear, interactive dashboards allow for at-a-glance oversight of your program. Our web application works across all browsers, and our native iOS and Android apps provide the full function and power of the application in the palm of your hand. We've eliminated the need for another password by providing full support for Google, Microsoft, and Apple logins.

In addition to AEDs, SH Connect is continuously adding additional tracking options. Medication expiration tracking, for epinephirine pens or albuterol for example, is included at no additional cost. Other equipment, such as first-aid kits, stop the bleeds kits, fire extinguishers, and hearing & vision screeners are just a few of the items that can optionally be tracked to bring your compliance into a single interface.

SH Connect Credentials lets you manage first aid and CPR training expiration dates for your personnel.

### Information at a Glance

The key to a manageable system is quick access to pertinent data. At a glance, the dashboard provides you a clear picture into the health of your AED program by letting you know which units need your attention and what you need to achieve compliance.

**Mobile App** Our mobile application allows for full access to the SH Connect System, giving you the power to manage every AED, from anywhere at

any time, all from

	Equipment	t Detai	ls	0

#### **User Interface**

SH Connect has a user interface designed for ease of use. The system provides a "common sense" display and navigation of information. With clear linking between locations, people, and equipment, you can easily find your way to the particular task or piece of information you need without digging through endless menus.

# Stonnect | Subscription Options

your phone.

Each subscription includes the compliance management system, allowing you to:

- Request CPR/AED courses and store credentials within the platform
- Access to our Law Center
- Track expiration dates on electrode pads, batteries, and medication
- Utilize Customer Support
- Log monthly inspections on AED units or medications
- Access to detailed reporting feature

### SH Connect Compliance Essentials (#1041541)

SH Connect Compliance management system.
