

STOP PESTS BEFORE THEY START HURTING BUSINESS

Stopping business pest threats requires training, knowledge, and experience. At Terminix Commercial®, our professional technicians are specialists in commercial pest control and understand the importance of learning the specific needs of each business we serve. With our general pest control service, we'll handle pest problems so that you can focus on running your business.

GENERAL PEST CONTROL SERVICE FROM TERMINIX COMMERCIAL

Pests can cause significant issues for all types of businesses. In addition to being unsightly and unhygienic, pests may:

- Deter customers
- Disrupt operations
- Cause unsanitary and unhealthy conditions
- Decrease productivity and efficiency
- Create an unpleasant working environment for employees
- Damage structures, equipment, and products
- Result in health and safety violations in some industries
- Prompt negative social media posts and reviews
- Cause product, revenue, and profit loss

TERMINIX
COMMERCIAL®

STOP PESTS IN THEIR TRACKS

General pest control service from Terminix Commercial helps control infestations of certain pests that are known to cause problems for businesses, including:

- Cockroaches
- Mice
- Rats
- Silverfish
- Some types of ants and spiders
- Centipedes
- Millipedes
- Earwigs
- House crickets
- Paper wasps

(See contract for details about pests not listed here.)

WE WORK TO STOP PESTS

Terminix Commercial's trained technicians will customize a discreet, effective treatment plan for your specific region as well as for your unique business and operational requirements. With the goal of minimal disruption to your business, our treatment strategies include:

- A comprehensive inspection of the interior and exterior of your business for pest identification and activity analysis
- An evaluation of the reasons why pests may be present and recommended actions to help control the risk of future infestations
- Continuous evaluation and monitoring of treatment effectiveness and implementation of any necessary modifications should pest activity change
- Education for your staff about proactive measures to help prevent pest problems

To put our experienced professionals to work for your team, contact your Terminix Commercial National Accounts Business Development Manager:

Our focus on helping businesses succeed guides everything we do. **Business First®** is our promise to ensure pests — and the problems they create — never get in the way of a customer's business.

Protection First

We will provide the custom pest control solution you require and return if needed to resolve any issue.

Service First

We will act professionally, communicate transparently, and respond urgently to your needs.

Satisfaction First

We will ensure you are satisfied with the protection and service we provide or we will make it right.
