PROPOSAL FORM 5: UNRESOLVED FINDINGS FOR RECOVERY

O.R.C. Chapter 9.24 prohibits CCOG from awarding a contract to any entity against whom the Auditor of State has issued a finding for recovery, if such finding for recovery is “unresolved” at the time of award. By submitting a proposal, a Respondent warrants that it is not now, and will not become, subject to an “unresolved” finding for recovery under **O.R.C. Chapter 9.24** prior to the award of any contract arising out of this RFP, without notifying CCOG of such finding. The Proposal Review Team will not evaluate a proposal from any Respondent whose name, or the name of any of the subcontractors proposed by the Respondent, appears on the website of the Auditor of the State of Ohio as having an “unresolved” finding for recovery.

Is your company the subject of any unresolved findings for recoveries?

- ☐ Yes
☒ No

PROPOSAL FORM 6: MANDATORY DISCLOSURES

1. *Mandatory Contract Performance Disclosure.*

Disclose whether your company's performance and/or the performance of any of the proposed subcontractor(s) under contracts for the provision of products and services that are the same or similar to those to be provided for the Program which is the subject of this RFP has resulted in any formal claims for breach of those contracts. For purposes of this disclosure, "**formal claims**" means any claims for breach that have been filed as a lawsuit in any court, submitted for arbitration (whether voluntary or involuntary, binding or not), or assigned to mediation. For any such claims disclosed, fully explain the details of those claims, including the allegations regarding all alleged breaches, any written or legal action resulting from those allegations, and the results of any litigation, arbitration, or mediation regarding those claims, including terms of any settlement. While disclosure of any formal claims will not automatically disqualify a Respondent from consideration, at the sole discretion of Equalis Group, such claims and a review of the background details may result in a rejection of a Respondent's proposal. Equalis Group will make this decision based on the Proposal Review Team's determination of the seriousness of the claims, the potential impact that the behavior that led to the claims could have on the Respondent's performance of the work, and the best interests of Members.

Provide statement here. Neither AmTab nor its subcontractors are involved in any formal claims.

2. *Mandatory Disclosure of Governmental Investigations.*

Indicate whether your company and/or any of the proposed subcontractor(s) has been the subject of any adverse regulatory or adverse administrative governmental action (federal, state, or local) with respect to your company's performance of services similar to those described in this RFP. If any such instances are disclosed, Respondents must fully explain, in detail, the nature of the governmental action, the allegations that led to the governmental action, and the results of the governmental action including any legal action that was taken against the Respondent by the governmental agency. While disclosure of any governmental action will not automatically disqualify a Respondent from consideration, such governmental action and a review of the background details may result in a rejection of the Respondent's proposal at Group's sole discretion. Equalis Group will make this decision based on the Proposal Review Team's determination of the seriousness of the claims, the potential impact that the behavior that led to the claims could have on the Respondent's performance of the work, and the best interests of Members.

Provide statement here. Neither AmTab nor its subcontractors are involved in any governmental investigations.

PROPOSAL FORM 7: DEALER, RESELLER, AND DISTRIBUTOR AUTHORIZATION

CCOG allows Suppliers to authorize dealers, distributors, and resellers to sell the products and services made available through, and consistent with the Terms and Conditions set forth in, the Master Agreement. If Supplier intends to authorize their dealers, distributors, or resellers access to the Master Agreement in the event of a contract award Supplier must provide a list, either in the form of a document or a weblink, to identify those organizations who are being authorized access to the Master Agreement.

Will the Supplier authorize dealers, distributors, resellers access to Master Agreement?

- ☒ **Yes**
☐ **No**

If yes, how will Supplier disclose which organization(s) will have access to the Master Agreement? This list can be updated from time to time upon CCOG's approval.

Respondent Response: Attached please find AmTab's dealer list for this contract.

D. *C. 271 Political Contribution Disclosure Form*

PUBLIC AGENCY INSTRUCTIONS

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information is available in Local Finance Notice 2006-1 (https://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html).

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a) The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at https://www.state.nj.us/dca/divisions/dlgs/programs/pay_2_play.html. They will be updated from time-to-time as necessary.
 - b) A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c) Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d) The form may be used “as-is”, subject to edits as described herein.
 - e) The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f) The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract. (See Local Finance Notice 2006-7 for additional information on this obligation) A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. **NOTE: This section is not applicable to Boards of Education.**

CONTRACTOR INSTRUCTIONS

Business entities (contractors) receiving contracts from a public agency in the state of New Jersey that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
 - of the public entity awarding the contract
 - of that county in which that public entity is located
 - of another public entity within that county
 - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county. The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs). When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure. Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report. The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement. The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act. The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law.

NOTE: This section does not apply to Board of Education contracts.

¹ N.J.S.A. 19:44A-3(s): “The term “legislative leadership committee” means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures.”

**Let's make your K-12 Dining Commons
and K-12 Food Courts
Modern, Popular, and Fun!**

BEFORE

Case Study: Wayne County High School

Wayne County was struggling getting students inside their cafeteria. They wanted to go from a cafeteria to more of a restaurant style approach. The furniture was very plain with very little seating options for students to pick from. On top of that the room itself was very bland and outdated. Wayne County realized that if they wanted to increase morale and get students excited again they needed to make changes. Here are some of the highlights and results for this project:

- Increased school nutrition participation by 28%
- Including new café wall decor, paint, and signage school's food service spaces and program

Wayne County School System

AFTER

- Improved time to clean up for custodians and staff
- Improved experience for students who now want to spend more time in their new café
- New flexible and dynamic furniture that can easily be stored
- New café space acts as a flex space throughout the day

BEFORE

Case Study: Riverside High School

Riverside High School was in dire need to modernize their cafeteria. Utilizing very old and worn out tables, they were looking to transform their café space into a modern, popular, and fun space that students could enjoy. Participation numbers were dropping due to the aesthetics inside the food court and from outside restaurants that students could visit. Riverside High School decided that they wanted to re-energize their students and create a dining commons they would be proud of. Some of the highlights and results of this project include:

- Increased school nutrition participation by 25%
- Including new café wall decor, paint, and signage school's food service spaces and program

Ysleta Independent School District

AFTER

- Improved time to clean up for custodians and staff
- Improved experience for students who now want to spend more time in their new café
- Brand new modern furniture and seating concepts

BEFORE

Case Study: Twin Lakes Middle School

Twin Lakes is located in Jacksonville, Florida and is part of the Duval County Public Schools district. Seniors and Juniors were allowed to leave campus for lunch due to an outdated furniture selection and bland environment. The DCPS Food service department programmed excess NSLP funds to complete a full remodel of the cafeteria furniture and signage, graphics, and decor. Some project highlights include:

- Increased school nutrition participation by 20%
- Included new custom and modern café furniture for an enhanced retail dining experience
- Included new café wall decor, paint, and signage specific to a re-branding of the school's food service spaces and program

Duval County Public Schools

AFTER

- Increased overall student participation, school spirit, and community pride in the school and the improved spaces
- Reduced the financial and resource burden for the facilities and maintenance departments who would have continued to fix and repair infrastructure in 84-year-old facility spaces
- Assisted the food service department in complying with federal regulations limiting net cash resources for the nonprofit NSLP program

BEFORE

Case Study: William Penn Sr. High School

William Penn is a large High School located in Pennsylvania. William Penn was struggling to get students into their cafeteria. The space itself was very dull and non-inviting which deterred students from wanting to go there for meals. This project was launched to create a warm and inviting atmosphere that students could finally enjoy their meals in. Some of the project highlights included:

- Increased school nutrition participation by 18%
- Included new custom and modern café furniture for an enhanced retail dining experience
- Assisted the food service department in complying with federal regulations limiting net cash resources for the nonprofit NSLP program

York City School District

AFTER

- Improved culture inside the brand new K-12 Food Court
- This school was now able to compete with outside establishments as far as bringing more students into the new K-12 Food Court
- New mobile furniture helped the custodians move the products for easy cleanup
