

Premium Delivery Service

For the past 50 years, Kaplan has helped early childhood educators open hundreds of new centers throughout the United States. Our K-Truck Delivery and Setup teams are educated and trained on how to properly set up classrooms to create the best learning environments for children.

Kaplan executes K-Truck deliveries for new center builds, old center renovations, classroom additions, and more. The experienced delivery and installations teams will unload the K-Truck, place boxes organized by classroom in correct rooms, remove packaging, assemble furniture and larger products, and give a status report. To make sure you have the best experience, our K-Truck Assisted Delivery Coordinator is here to walk you through the process. Not every center build or refurbishment is alike, so we offer three levels of service that we can customize to fit your needs.
