

EDSpaces 2023 Product Innovation Awards Winner

Giddy Chair

3rd
Place

All-In-One Desk / Chair

The GIDDY chair's uniqueness lives in its seamless connection of fun and function. Learners and instructors alike have long been presented with educational spaces tailored to an assembly line mentality. This chair breaks that mold.

The GIDDY chair provides not only positive mobility in classrooms, but also necessary mobility in all learning environments. The movement it encourages promotes visual and auditory processing. With an interchangeable work surface - writeable being standard - and pocket for storage, both learners and facilitators benefit from its ingenuity.
