PROJECT PROFILE

United Site Services supports our military customer's half marathon of 3,700+ runners from 46 states, the District of Columbia and 14 countries.

WE ENABLE SITE SERVICE SUCCESS THROUGH:

Deep organizational expertise to enable our customers' project success

Our comprehensive range of products aligns to government customers' need for all-in-one solutions that streamline operations, save time and resources, and ensure seamless project execution from start to finish.

Excellence in process management makes our customers' on-site job easier

Our repeatable servicing model for each equipment type ensure that cleanliness, efficiency, and safety standards are consistently upheld for both government officials and attendees alike.

Strong corporate responsibility programs align with our customers' values

Our comprehensive safety programs are designed to minimize risks through extensive protocols. We lead the industry with initiatives that address job site environmental impacts and meticulously monitor regulatory guidelines to guarantee 100% compliance.
