Section One: Part A – Introduction, Scope and Project Information

1. Overview

This invitation of bid (“**IFB**”) is published by the Cooperative Council of Governments (“**CCOG**”) for the purpose of awarding a master cooperative purchasing agreement (the “**Master Agreement**”) and creating a cooperative purchasing program for Job Order Contract (“**JOC**”) program in the state of Illinois (the “**Program**”) that will be available to current and future members of Equalis Group (the “**Members**”). Under applicable state statutes, public sector entities nationwide that join Equalis Group can purchase products and services through the resulting Master Agreement without having to conduct their own formal procurement process, thereby saving both themselves and the awarded suppliers (a “**Winning Supplier**” “**Supplier Partner**”, and “**Awarded Contractor**”) significant time and money.

2. CCOG Background

CCOG is a Council of Governments and Ohio political subdivision organized under Chapter 167 of the Ohio Revised Code. CCOG is an Equalis Group, LLC (“**Equalis Group**”) lead public agency and, in that role, conducts formal public sector competitive solicitation processes in compliance with applicable public sector procurement guidelines to select a Winning Supplier(s) to provide products and services to Members.

At the conclusion of this RFP process, CCOG will award a Master Agreement to the Winning Supplier(s).

3. Role of Equalis Group

Equalis Group works with lead public agencies, such as CCOG, that are legally empowered to conduct formal procurement processes, enter into Master Agreements, and make those Master Agreements available to public sector organizations such as: municipalities, K-12 school districts, counties, higher education institutions, special districts, tribal nations, and state and federal agencies as well as non-profit and for-profit organizations across the country.

The Winning Supplier(s) and Equalis Group will also enter into a separate management agreement (the “**Administration Agreement**”) which defines i) the roles and responsibilities of both parties relating to marketing and selling the Program to current and prospective Members and ii) the financial terms between the parties. The Winning Supplier and Equalis Group will work closely together to develop and implement marketing and sales strategies to drive program adoption with current and future Members across the country.

Equalis Group, is committed to actively engage with the Winning Suppliers to grow profitable public sector revenue by:

- 3.5 Training Supplier Partners’ sales representatives** on the pricing, terms, and conditions of the Master Agreement and how to sell their products and services through this already procured contract vehicle.
- 3.6 Developing sales tools** that address common legal, procurement and compliance questions.

3.7 Creating, implementing, and managing marketing and sales campaigns to jointly identify public sector prospects across the country.

3.8 Supporting the sales process by providing subject matter expertise to prospective Members on the legitimacy of the procurement process that established the Master Agreement.

4. Purpose and Scope of this IFB

The goal of this IFB is to establish a group of JOC contracts for CCOG, Equalis Group and their members. These JOC contracts will provide access to products & services related to construction projects including the repair, alteration, modernization, new construction and rehabilitation of infrastructure buildings, structures or other real property at competitively solicited prices. Awarded Contractors will perform an ongoing series of individual projects for Members at different locations primarily within the designated Geographic Area.

5. Job Order Contracting Overview

JOC is a competitively solicited indefinite quantity construction contract awarded to proposers to accomplish construction projects related to the repair, alteration, modernization, new construction and rehabilitation of infrastructure buildings, structures or other real property. The Estimated Annual Value is based on the anticipated estimated annual use and the contract term is one year with three bilateral option terms. The IFB Documents include a Construction Task Catalog (CTC) containing repair, alteration, modernization, and rehabilitation of infrastructure buildings, structures, or other real property Tasks with preset Unit Prices. All Unit Prices are based on local labor, material, and equipment prices. Once contracts are awarded, Members will order Work from the CTC by issuing a Purchase Order against the contract.

CCOG and Equalis Group are using Gordian for its JOC eIQCC Program. The system includes Gordian's proprietary eIQCC, eGordian and Bid Safe IQCC applications (IQCC Applications) and construction cost data (Construction Task Catalog), which will be used by the Contractor to prepare and submit Price Proposals, subcontractor lists, and other requirements specified by CCOG, Equalis Group and their Members. The Contractor's use, in whole or in part, of Gordian's IQCC Applications and Construction Task Catalog and other proprietary materials provided by Gordian for any purpose other than to execute work under this Contract for CCOG, Equalis Group and their Members is strictly prohibited unless otherwise stated in writing by Gordian.

Proposers will offer price adjustments (Adjustment Factors) to be applied to the CTC Unit Prices. The Adjustment Factors represent either an increase to (such as 1.1000) or a decrease from (such as 0.9800) the preset Unit Prices. The amount to be paid for the Work ordered will be determined by: multiplying the preset Unit Prices by the appropriate quantities and by the appropriate Adjustment Factor. The CTC and the Proposer's Adjustment Factors will be incorporated into the awarded contract.

Under JOC, the Contractor furnishes management, labor, materials, equipment, and incidental design support needed to perform the Work.

6. Project Delivery Order Procedures

As Projects are identified, the Contractor will jointly scope the Work with the Member. The agency will prepare a Detailed Scope of Work and issue a Request for Proposals to the Contractor. The Contractor will then prepare a Proposal Package for the Project including a Price Proposal, Schedule, list of identified subcontractors, and other requested documentation such as cut sheets for materials. If the Proposal Package is found to be reasonable, the agency will issue a Purchase Order. The Purchase Order will reference the Detailed Scope of Work and set forth the Purchase Order Completion Time, and the Purchase Order Price. The Contractor must perform the Detailed Scope of Work within the Purchase Order Completion Time for the Purchase Order Price. Extra Work, credits, and deletions will be contained in Supplemental Purchase Orders calculated in the same manner.

The Member (or the Member Designated Representative), with the assistance of Gordian, will identify Projects and develop a draft scope of the work. The Contractor and Gordian will then assist the Member in developing a final scope of work. The Member will then issue a Detailed Scope of Work and a Request for Proposal to the Contractor. The Contractor will then utilize Gordian's JOC System to prepare a Price Proposal for the Purchase Order including a Schedule, list of identified subcontractors, and other requested documentation such as cut sheets for materials. Gordian will assist the Member with Price Proposal review, and if the Price Proposal is found to be reasonable, the Member will issue a Purchase Order to Contractor. The Purchase Order will reference the Detailed Scope of Work and set forth the Purchase Order Completion Time, and the Purchase Order Price. The Contractor will perform the Detailed Scope of Work within the Purchase Order Completion Time for the Purchase Order Price. Extra Work, credits, and deletions will be contained in Supplemental Purchase Orders calculated in the same manner.

The Contractor must, within two (2) business days of receipt of a Purchase Order from a Member, provide notification to CCOG of each Purchase Order by forwarding a copy of the Purchase Order via email to PO@ezlQC.com or via facsimile to (864) 233-9100.

The Contractor must, within two (2) business days of sending an Invoice to a Member, provide notification to CCOG of each Invoice by forwarding a copy of the Invoice via email to Invoice@ezlQC.com or via facsimile to (864) 233-9100.

Chapter 149.43**.

4. Master Agreement

Many of the terms and conditions contained in the Sample Master Agreement are required by state and federal law.

6. Formation of a Master Agreement

A response to this IFB is an offer to establish a Master Agreement with CCOG and Equalis Group based upon the terms, conditions, scope of work, and specifications contained in this request. A contract is formed when an award is made and CCOG's Board President or designee signs the Master Agreement Signature Form provided in Section Two of this RFP. The Bidder must submit a signed Master Agreement Signature Form with the response, thus eliminating the need for a formal signing process.

7. Public Release of Records

8. Ethical and Conflict of Interest Requirements

- A. No bidder or individual, company, or organization seeking a CCOG contract award will promise or give to any CCOG or Equalis Group employee anything of value that is of such character as to manifest a substantial and improper influence upon the employee with respect to his or her duties;
- B. No bidder or individual, company, or organization seeking a contract will solicit any CCOG or Equalis Group employee to violate any of the conduct requirements for employees;
- C. When acting on behalf of CCOG and Equalis Group, will refrain from activities which could result in violations of ethics and/or conflicts of interest. 9. Waiver of Minor Bid Errors

CCOG may, at its sole discretion, waive minor errors or omissions in bidders' submissions when those errors do not unreasonably obscure the meaning of the content or the competitive nature of the bid submitted in response to this IFB. However, substantial and/or substantive submission errors that include, but are not limited to, a bidder's ability to perform, price points, costs, or other economic indicators and factors that may affect the content or competitive nature of the bid submitted, or capacity to perform, shall not be waived, and bidders shall not have the right to withdraw or modify their submissions after the bid due date.

10. Bid Clarifications

CCOG reserves the right to request clarifications from bidders to any information in their submission and may request such clarification as the Bid Review Team deems necessary at any point in the bid review process.

11. Unresolved Findings for Recovery

O.R.C. Chapter 9.24 prohibits CCOG from awarding a contract to any entity against whom the Auditor of State has issued a finding for recovery, if such finding for recovery is "unresolved" at the time of award. By submitting a bid, a bidder warrants that it is not now, and will not become, subject to an "unresolved" finding for recovery under **O.R.C. Chapter 9.24** prior to the award of any contract arising out of this IFB, without notifying CCOG of such finding. CCOG will review the Auditor of State's website to identify each bidder's eligibility to enter into a contact with CCOG prior to the evaluations of any bid submitted pursuant to this IFB. The Bid Review Team will not evaluate a bid submission from any bidder whose name, or the name of any of the subcontractors proposed by the bidder, appears on the website of the Auditor of the State of Ohio as having an "unresolved" finding for recovery.

12. Mandatory Contract Performance Disclosure

Each bid must disclose whether bidder's performance and/or the performance of any of the proposed subcontractor(s), under contracts for the provision of services that are the same or similar to those to be provided for the Program which is the subject of this IFB has resulted in any "formal claims" for breach of those contracts. For purposes of this disclosure, "**formal claims**" means any claims for breach that have been filed as a lawsuit in any court, submitted for arbitration (whether voluntary or involuntary, binding or not), or assigned to mediation. If any such claims are disclosed, bidder must fully explain the details of those claims, including the allegations regarding all alleged breaches, any written or legal action resulting from those allegations, and the results of any litigation, arbitration, or mediation regarding those claims, including terms of any settlement. While disclosure of any formal claims will not automatically disqualify bidder from consideration, at the sole discretion of CCOG and Equalis Group, such claims and a review of the background details may result in a rejection of bidder's submission. CCOG and Equalis Group will make this decision based on its determination of the seriousness of the claims, the potential impact that the behavior that led to the claims could have on bidder's performance of the work, and the best interests of CCOG, Equalis Group, and Members.

13. Mandatory Disclosures of Governmental Investigations

Each bid must indicate whether bidder and/or any of the proposed subcontractor(s) has been the subject of any adverse regulatory or adverse administrative governmental action (federal, state, or local) with respect to bidder's performance of services similar to those described in this IFB. If any such instances are disclosed, bidder must fully explain, in detail, the nature of the governmental action, the allegations that led to the governmental action, and the results of the governmental action including any legal action that was taken against supplier by the governmental agency. While disclosure of any governmental action in response to this section will not automatically disqualify bidder from consideration, at the sole discretion of CCOG and Equalis Group, such governmental action and a review of the background details may result in a rejection of the bidder's response. CCOG and Equalis Group, will make this decision based on its determination of the seriousness of the matter, the matter's potential impact on bidder's performance of the work, and the best interests of CCOG, Equalis Group, and Members.

4. Estimated Annual Value

CCOG and Equalis Group anticipates that a substantial number of current and future Members will enter into contracts resulting from this solicitation; however, CCOG and Equalis Group makes no guarantee or commitment of any kind concerning quantities or usage of contracts resulting from this

solicitation. The total annual volume for this contract category is estimated to be over \$2,000,000 annually for General Construction, Roofing Construction, and Paving Asphalt/Concrete Construction and over \$1,000,000 for Mechanical/HVAC Construction, Electrical Construction, and Plumbing Construction. This information is provided solely as an aid to bidders preparing responses only, and performance will be determined by other factors such as awarded contractors' competitiveness, and overall performance and support of the contract. Note these volumes are estimates only and should not be construed as limits to the amount of volume that can be performed on each individual contract.

5. Award

It is the intent of CCOG to award each Contract to the lowest responsive, responsible bidder(s) based on the Combined Adjustment Factor as shown on the Bid, subject to, **Article 6. Pricing**, below. CCOG's Bid Review Team reserves the right to reject any and all bids, in whole or in part, received in response to this IFB. A bidder will not be awarded more than one same scope Contract within any Geographic Region.

Bidders are required to answer questions concerning their performance capabilities, qualifications, and experience, see **Section Two, Bid Submission and Required Forms**. The answers to these questions will provide information to gauge the responsibility of the bidder.

6. Pricing

- A. Each bidder must submit Five (5) Adjustment Factors to be applied to every task in the CTC. The bid shall be an adjustment "decrease from" (e.g. 0.9800) or "increase to" (e.g. 1.1000) the Unit Prices listed in the CTC.
- B. The bidder's Adjustment Factors shall include all of the bidder's direct and indirect costs including, but not limited to, its costs for overhead, profit, bond premiums above the reimbursable amount, insurance, mobilization, Purchase Order Proposal development, and all contingencies in connection therewith. See pages 00-1 – 00-6 of Book 3 – the CTC for a complete explanation of what is included in the Unit Prices and what is not.
- C. The first Adjustment Factor is to be applied to Work to be accomplished during Normal Working Hours and are performed on projects that **do require** prevailing wage rates.
- D. The second Adjustment Factor is to be applied to Work to be accomplished during Other Than Normal Working Hours and are performed on projects that **do require** prevailing wage rates.
- E. The third Adjustment Factor is to be applied to Work to be accomplished during Normal Working Hours and performed on Projects that **do not require** prevailing wage rates.
- F. The fourth Adjustment Factor is to be applied to Work to be accomplished during Other Than Normal Working Hours and performed on Projects that **do not require** prevailing wage rates.
- G. The fifth Adjustment Factor is for work tasks not identified in the Construction Task Catalog. IQCC includes a provision for establishing of prices for Work requirements which are within the general scope of IQCC but were not included in the CTC at the time of Contract award, see Book 2 Section One, Article 8. These Tasks are referred to as "Non Pre-priced Tasks (NPP)". NPP Tasks may require new specifications and drawings and may subsequently be incorporated into the CTC. The bidders will offer an Adjustment Factor to be applied to the actual material, equipment, and labor cost for NPP work Tasks.

H. Adjustment Factors must be specified to the fourth decimal place. For example:

1	.	1	0	0	0
---	---	---	---	---	---

Or

0	.	9	8	0	0
---	---	---	---	---	---

I. For bid evaluation purposes only, the following weighting of the Adjustment factors shall be used to determine the Combined Adjustment Factor:

Adjustment Factors	Weight
NORMAL WORKING HOURS- PREVAILING WAGE RATE PROJECTS	60%
OTHER THAN NORMAL WORKING HOURS- PREVAILING WAGE RATE PROJECTS	10%
NORMAL WORKING HOURS- NON-PREVAILING WAGE RATE PROJECTS	10%
OTHER THAN NORMAL WORKING HOURS- NON-PREVAILING WAGE RATE PROJECTS	10%
NON-PRE-PRICED	10%

7. Bidders Responsiveness and Responsibility

Awards will be made to lowest responsive, responsible bidders. To qualify for evaluation, a bid must be responsive which means it shall have been submitted on time and materially satisfy all mandatory requirements identified in this document. A bid must reasonably and substantially conform to all the terms and conditions in the solicitation to be considered responsive. Deviations or exceptions stipulated in bidder’s submission, while possibly necessary in the view of the bidder, may result in disqualification.

Bidders will be required to answer questions pertaining to its capabilities, qualifications, and experience, see **Section 2, Bid Submission and Required Forms**. Information gathered from the required bid forms will be used to determine the responsibility of the bidder to perform the contract. Bidders should take great care in answering these questions as they will become part of the complete submitted bid.

8. Taxes

The Contractor will pay all sales, consumer, use and other similar taxes required by law for which an exemption does not exist. If the Contractor is required to pay sales tax on non-exempt material, equipment, services or other items purchased in connection with a Purchase Order, the Member will

reimburse the Contractor for such tax, without mark-up, provided the Contractor submits the appropriate documentation.

9. Review Process Caveats

Unbalancing of Bids - A Bid may be removed from consideration if it is determined that the bidder has mathematically unbalanced their Bid to gain a competitive advantage. The Bid will be considered to be unbalanced if any Adjustment Factor is found to not cover the contractor's reasonable actual cost. Those costs would include a reasonable prorated share of their anticipated profit, overhead cost, and other indirect costs that the bidder anticipates for the performance of the work as determined by the CCOG and Equalis Group Bid Review Team.

Competitive Range Determination - If a wide margin is found in the Adjustment Factors submitted in response to the solicitation; being too high or too low, then the Bid Review Team may establish a Competitive Range for the solicitation. If it is determined that a Bidder's Combined Adjustment Factor is too far outside the Competitive Range, then the bidder can be removed from consideration. The bidder shall be notified that they were determined to be outside the Competitive Range after award of the contracts.

Self-Performance Requirement – Contractor(s) for the Mechanical/HVAC Construction, Electrical Construction, Plumbing Construction, Roofing Construction, Paving, and Paving Asphalt/Concrete Construction will perform with its own organization and forces not less the 51% of the total amount of labor hours performed at the project site through the working foreperson level. The percentage calculation does not include field superintendents or office management personnel.

The Other Than Normal Working Hours Adjustment Factors must be higher or equal to the Normal Working Hours Adjustment Factors.

10. Final Supplier Recommendation

The Bid Review Team will recommend to CCOG the lowest responsive, responsible, taking into consideration the responsiveness and responsibility of the contractor.

11. Proposal Withdrawal

Any Bidder seeking to withdraw its proposal from consideration after the proposal due date must submit such request in writing directly to CCOG at Procurement@EqualisGroup.org.

12. Contract Award Caveats

CCOG is under no obligation to issue a contract as a result of this solicitation if, in the opinion of CCOG and the Bid Review Team, none of the bids are sufficiently responsive to the objectives and needs of Members, CCOG, or Equalis Group. CCOG reserves the right to not select any bidder should CCOG decide not to proceed for any reason.

13. Protest of IFB

A protest may be filed by a prospective or actual Bidder alleging improprieties in the issuance of the RFP or any other event preceding the deadline for proposal submission. The protest must be sent via email to Procurement@EqualisGroup.org and prior to the proposal due date.

14. Protest of Contract Award

Any potential or actual Bidder objecting to the award of a contract resulting from the issuance of this RFP may file a protest of contract award and must be submitted no later than 12:00 PM Eastern of the eighth (8th) calendar day after the public announcement of contract award. The Bidder(s) who would have been awarded the contract will be notified of the receipt of the protest.

15. Required Information for Protest Submission

Whether for a protest of the RFP or contract award(s) the protest must be filed in writing and must contain the following information;

- a. The name, address, and telephone number of the protestor;
- b. The name and number of the RFP being protested;
- c. A detailed statement of the legal and factual grounds for the protest, including copies of any relevant documents;
- d. A request for a ruling by CCOG;
- e. A statement as to the form of relief requested from CCOG; and
- f. Any other information the protestor believes to be essential to the determination of the factual and legal questions at issue in the written protest.

CCOG will issue written decisions on all timely protests and will notify any protestor who filed an untimely protest as to whether or not the protest will be considered.

16. Protest Caveats

An untimely protest may be considered by CCOG if CCOG, in its sole discretion, determines that the protest raises issues significant to CCOG's procurement methodology. An untimely protest is one received by CCOG after the time periods set forth in this section.

17. Protest Submission

All protests must be filed at the following location:

Cooperative Council of Governments
Attn: Procurement
6001 Cochran Road, Suite 333
Cleveland, Ohio 44139

18. Administrative Fees

Bidders must include an Administrative Fee in calculating the Adjustment Factors. The Administrative Fee will be calculated at the rate of 7.5% of the total Purchase Order Price charged to the Member. The Administrative Fee will be remitted by the Contractor to the designated contract administrator, within thirty (30) days of the submission of an invoice to a Member by Contractor. The Contractor will be assessed a one percent (1%) per month late fee for any Administrative Fees not paid by the due date set forth herein.

CCOG designates Gordian as its contract administrator. The Administrative Fee payments must be made payable to The Gordian Group and sent to the following address:

The Gordian Group, Inc.
PO Box 74008498
Chicago, IL 60674-8498

CCOG, Equalis Group, or Gordian may request records from the Contractor for all purchases through this Contract and payment of all Administrative Fees. If a discrepancy exists between the purchasing activity and the Administrative Fees paid, CCOG, Equalis Group, or Gordian will provide written notification to the Contractor of the discrepancy and allow the Contractor ten (10) days from the date of notification to resolve the discrepancy. In the event the Contractor does not resolve the discrepancy to the satisfaction of CCOG, Equalis Group, or Gordian reserve the right to engage a third party to conduct an independent audit of the Contractor's records and, in the event Contractor is not in compliance with this Contract, Contractor will, in addition to any Administrative Fees due, reimburse the appropriate party for the cost and expense related to such audit.

CCOG, Equalis Group and Contractor hereby acknowledge Gordian, as the designated contract administrator. In the event any court action is brought to enforce payment of the Administrative Fees set forth above by any party or third-party beneficiary of this Contract, the prevailing party will be entitled to an award of reasonable attorneys' fees and collection costs.

Any Contract award will be subject to CCOG General Terms and Conditions, as well as any additional terms and conditions in any Purchase Order, participating agency ancillary contract, or Member Construction Contract agreed upon by Vendor and the participating agency which must be consistent with and protect the participating agency at least to the same extent as the CCOG Terms and Conditions.

BID FORM 15: UNRESOLVED FINDINGS FOR RECOVERY

O.R.C. Chapter 9.24 prohibits CCOG from awarding a contract to any entity against whom the Auditor of State has issued a finding for recovery, if such finding for recovery is “unresolved” at the time of award. By submitting a proposal, a Bidder warrants that it is not now, and will not become, subject to an “unresolved” finding for recovery under **O.R.C. Chapter 9.24** prior to the award of any contract arising out of this RFP, without notifying CCOG of such finding. The Proposal Review Team will not evaluate a proposal from any Bidder whose name, or the name of any of the subcontractors proposed by the Bidder, appears on the website of the Auditor of the State of Ohio as having an “unresolved” finding for recovery.

Is your company the subject of any unresolved findings for recoveries?

- Yes
- No

BID FORM 16: MANDATORY DISCLOSURES

3. *Mandatory Contract Performance Disclosure.*

Disclose whether your company's performance and/or the performance of any of the proposed subcontractor(s) under contracts for the provision of products and services that are the same or similar to those to be provided for the Program which is the subject of this RFP has resulted in any formal claims for breach of those contracts. For purposes of this disclosure, "**formal claims**" means any claims for breach that have been filed as a lawsuit in any court, submitted for arbitration (whether voluntary or involuntary, binding or not), or assigned to mediation. For any such claims disclosed, fully explain the details of those claims, including the allegations regarding all alleged breaches, any written or legal action resulting from those allegations, and the results of any litigation, arbitration, or mediation regarding those claims, including terms of any settlement. While disclosure of any formal claims will not automatically disqualify a Bidder from consideration, at the sole discretion of Equalis Group, such claims and a review of the background details may result in a rejection of a Bidder's proposal. Equalis Group will make this decision based on the Proposal Review Team's determination of the seriousness of the claims, the potential impact that the behavior that led to the claims could have on the Bidder's performance of the work, and the best interests of Members.

Provide statement here. [Insert statement here.](#)

4. *Mandatory Disclosure of Governmental Investigations.*

Indicate whether your company and/or any of the proposed subcontractor(s) has been the subject of any adverse regulatory or adverse administrative governmental action (federal, state, or local) with respect to your company's performance of services similar to those described in this RFP. If any such instances are disclosed, Bidders must fully explain, in detail, the nature of the governmental action, the allegations that led to the governmental action, and the results of the governmental action including any legal action that was taken against the Bidder by the governmental agency. While disclosure of any governmental action will not automatically disqualify a Bidder from consideration, such governmental action and a review of the background details may result in a rejection of the Bidder's proposal at Group's sole discretion. Equalis Group will make this decision based on the Proposal Review Team's determination of the seriousness of the claims, the potential impact that the behavior that led to the claims could have on the Bidder's performance of the work, and the best interests of Members.

2. Scope of Work

A Job Order Contract is an indefinite quantity contract pursuant to which the Contractor may perform an ongoing series of individual Projects at different Sites throughout the Regions. A Job Order Contract includes a Construction Task Catalog® containing construction tasks with preset Unit Prices. All Unit Prices are based on local labor, material and equipment prices and are for the direct cost of construction.

As Projects are identified the Member (or the Member Designated Representative), with the assistance of Gordian, will identify Projects and develop a draft scope of the work. The Contractor and Gordian will then assist the Member in developing a final scope of work. The Member will then issue a Detailed Scope of Work and a Request for Proposals to the Contractor. The Contractor will then utilize Gordian's JOC System to prepare a Price Proposal for the Purchase Order including a Schedule, list of identified subcontractors, and other requested documentation such as cut sheets for materials. Gordian will assist the Member with Price Proposal review, and if the Price Proposal is found to be reasonable, the Member will issue a Purchase Order to Contractor. The Purchase Order will reference the Detailed Scope of Work and set forth the Purchase Order Completion Time, and the Purchase Order

Price. The Contractor will perform the Detailed Scope of Work within the Purchase Order Completion Time for the Purchase Order Price. Extra Work, credits, and deletions will be contained in Supplemental Purchase Orders calculated in the same manner.

If the Job Order Proposal Package is found to be complete and reasonable, a Job Order and Purchase Order may be issued.

A Job Order will reference the Detailed Scope of Work and set forth the Job Order Completion Time, and the Job Order Price. The Job Order Price shall be a lump sum, fixed price for the completion of the Detailed Scope of Work. One or more Job Orders will be issued for each Project. Extra work, credits, and deletions will be contained in a Supplemental Job Order.

The Contractor shall provide all pricing, management, incidental drawings, shop drawings, samples, documents, Work, materials, supplies, parts (to include system components), transportation, plant, supervision, labor, and equipment needed to complete each Job Order. The Contractor shall also be responsible for Site safety as well as Site preparation and cleanup during and after construction. All costs associated with the above scope of work and the preparation of proposals shall be the responsibility of the Contractor.

The Work shall be conducted by the Contractor in strict accordance with the Contract Documents. The Contractor shall maintain accurate and complete records, files and libraries of documents to demonstrate compliance with Federal, State, and local regulations, codes, applicable laws, and manufacturers' instructions and recommendations which are necessary and related to the Work to be performed.

The Contractor shall prepare and submit required reports, maintain current record drawings, and submit required information. The Contractor shall provide: materials lists to include trade names and brand names, and model materials lists to include trade names, brand names, model number, and ratings (if appropriate) for all materials necessary to complete the Job Order.

All Work shall comply with any applicable standards, including those specified in the Contract Documents. If the Job Order specifies a standard which is different or more stringent, the standard used in the Job Order shall control:

- Job Order Contract Technical Specifications
 - The Technical Specifications are numbered and organized in the Construction Specification Institute's (CSI) master format. All specifications are filed in divisions per CSI guidelines.
 - The intent of these specifications is to furnish concise industry and commercial standards for construction, maintenance or repair of Member facilities.
 - Reference in the Technical Specifications or the Construction Task Catalog[®] to a specific manufacturer, trade name, or catalog is intended to be descriptive but not restrictive and only to indicate to the prospective Proposer items that will be satisfactory.

3. Procedure for ordering work

Initiation of a job order: As the need exists, CCOG (or their designated representative) will, on behalf of a Member, notify the Contractor of a Project and schedule a Joint Scope Meeting.

The Contractor will attend the Joint Scope Meeting to discuss, at a minimum:

- the general scope of the Work,
- alternatives for performing the Work and value engineering,
- access to the Site and protocol for admission,
- hours of operation,
- staging area,
- requirements for professional services, sketches, drawings, and specifications,
- requirements for catalog cuts, technical data, samples and shop drawings,
- project schedule,
- requirement for bonding
- the presence of hazardous materials, and
- date on which the Price Proposal Package is due

Upon completion of the joint scoping process, CCOG (or their designated representative), working with the Member and the Contractor, will prepare a Detailed Scope of Work referencing any sketches, drawings, photographs, and specifications required to document accurately the work to be accomplished. CCOG (or their designated representative) will issue a Request for Proposal that will require the Contractor to prepare a Proposal Package. The Detailed Scope of Work, unless modified by both the Contractor and CCOG (or their designated representative), will be the basis on which the Contractor will develop its Price Proposal and CCOG (or their designated representative) and the Member will evaluate the same. The Contractor does not have the right to refuse to perform any Task or any work in connection with a particular Project.

The Member may, at its option, include quantities in the Detailed Scope of Work if it helps to define the Detailed Scope of Work, if the actual quantities required are not known or cannot be determined at the time the Detailed Scope of Work is prepared, if the Contractor and the Member cannot agree on the quantities required, or for any other reason as determined by the Member. In all such cases, CCOG (or their designated representative) shall issue a Supplemental Job Order adjusting the quantities appearing in the Detailed Scope of Work to the actual quantities.

Preparation of the Job Order Proposal Package: The Contractor's Job Order Proposal Package shall include, at a minimum:

- Job Order Price Proposal;
- Required drawings or sketches;
- List of anticipated Subcontractors;
- Construction schedule;
- Other Member-requested documents.

The Job Order Price shall be the value of the approved Job Order Price Proposal.

The value of the Job Order Price Proposal shall be calculated by summing the total of the calculations for each Pre-priced Tasks (unit price x quantity x Adjustment Factor) plus the value of all Non Pre-priced Tasks.

Preparation of the Job Order Price Proposal: The Contractor will prepare Job Order Price Proposals in accordance with the following:

- **Pre-priced Tasks:** A Pre-priced Task is a Task described and for which a Unit Price is set forth in the Construction Task Catalog®. The Contractor will select the appropriate Pre-priced Tasks, and enter the accurate quantity, and the appropriate Adjustment Factor.
 - **Non Pre-priced Tasks:** A Non Pre-priced Task is a Task which is not in the Construction Task Catalog®.
 - Information submitted in support of Non Pre-priced Tasks shall include, but not be limited to, the following:
 - Catalog cuts, specifications, technical data, drawings, or other information as required to evaluate the task.
 - If the Contractor will perform the work with its own forces, it shall submit three independent quotes for all material to be installed and shall, to the extent possible, use Pre-priced Tasks for labor and equipment from the Construction Task Catalog®. If the work is to be subcontracted, the Contractor must submit three independent quotes from subcontractors. The Contractor shall not submit a quote or bid from any supplier or subcontractor that the Contractor is not prepared to use. The Member may require additional quotes and bids if the suppliers or subcontractors are not acceptable or if the prices are not reasonable.
 - The final price submitted for Non Pre-priced Tasks shall be according to the following formula:

For Work Performed with the Contractor's Own Forces:

 - A. The hourly rate for each trade classification not in the Construction Task Catalog® multiplied by the quantity;
 - B. The rate for each piece of Equipment not in the Construction Task Catalog® multiplied by the quantity;
 - C. Lowest of three independent quotes for all materials
 - Total for a Non Pre-priced Task performed with Contractor's Own Forces = $(A+B+C) \times \text{Non Pre-Priced Task Adjustment Factor}$

For Work Performed by Sub-contractors:

 - $D = \text{Lowest of three Subcontractor quotes}$
 - Total for a Non Pre-priced Task performed by Subcontractors = $D \times \text{Non Pre-Priced Task Adjustment Factor}$
 - After a Non Pre-priced Task has been approved by CCOG (or their designated representative), the Unit Price for such task will be established, and fixed as a permanent Non Pre-priced Task which will no longer require price justification.
 - CCOG (or their designated representative) determination as to whether a task is a Pre-priced Task or a Non Pre-priced Task shall be final, binding and conclusive as to the Contractor.
- If the Contractor is required to pay an application fee for filing a project, a fee to obtain a building permit, or any other permit fee to the City, State or some other governmental or regulatory agency, then the amount of such fee paid by the Contractor for which a receipt is obtained shall be treated as a Reimbursable Task to be paid as required (**See Section Three: General Terms and Conditions for JOC, Article 19, Permits and filings**) the Contractor shall

provide incidental engineering and architectural services required in connection with a particular Job Order including drawings and information required for filing.

The Contractor's Job Order Proposal Package shall be submitted by the date indicated on the Job Order Request for Proposal. All incomplete Job Order Proposal Packages shall be rejected. The time allowed for preparation of the Contractor's Job Order Proposal Package will depend on the complexity and urgency of the Job Order but should average between seven and fourteen days. On complex Job Orders, such as Job Orders requiring incidental engineering/architectural drawings and approvals and permits, allowance will be made to provide adequate time for preparation and submittal of the necessary documents.

In emergency situations and minor maintenance and repair Job Orders requiring immediate completion, the Job Order Proposal Package may be required quickly and the due date will be so indicated on the Job Order Request for Proposal or, as described below, the Contractor may be directed to begin work immediately with the paperwork to follow.

If the Contractor requires clarifications or additional information regarding the Detailed Scope of Work in order to prepare the Job Order Proposal Package, the request must be submitted so that the submittal of the Job Order Proposal Package is not delayed.

Review of the Job Order Proposal Package.

- CCOG (or their designated representative) will evaluate the entire Job Order Proposal Package and compare it with the Detailed Scope of Work to determine the reasonableness of approach, as well as the appropriateness of the tasks and quantities proposed.
 - The means and methods of construction shall be such as the Contractor may choose; subject however, to CCOG (or their designated representative) right to reject means and methods proposed by the Contractor that:
 - Will constitute or create a hazard to the Work, or to persons or property; or
 - Will not produce finished Work in accordance with the terms of the Contract; or
 - Unnecessarily increases the price of the Job Order when alternative means and methods are available.
 - By submitting a Job Order Proposal Package, the Contractor agrees to accomplish the Detailed Scope of Work in accordance with the Job Order Request for Proposal at the lump sum price submitted. It is the Contractor's responsibility to include the necessary Pre-priced Tasks and Non Pre-priced Tasks and quantities in the Job Order Price Proposal prior to delivering it to CCOG.

Delivery of the Job Order to the Member.

- CCOG (or their designated representative) reaches an agreement with the Contractor on the Job Order Proposal Package and any requested revision thereto, if applicable, the CCOG (or their designated representative) will deliver the Job Order for the Member's consideration.
- Each Job Order shall reference the Detailed Scope of Work and set forth the Job Order Price and the Job Order Completion Time. All clauses of this Job Order Contract shall be applicable to each Job Order. The Purchase Order, issued by the Member and delivered to the Contractor constitutes the Member's acceptance of the Job Order.

- Once the Job Order has been submitted to the Member the Contractor is bound by its content.

Review of the Job Order by the Member and Issuance of Purchase Order.

- The Member will evaluate the entire Job Order and compare it with the Member's estimate of the Detailed Scope of Work to determine the reasonableness of approach, price, and other factors.
- The Member reserve the right to reject a Job Order or cancel a Project for any reason. The Member also reserves the right not to issue a Purchase Order if it is determined to be in the best interests of the Member. The Member may perform such work by other means. The Contractor shall not recover any costs arising out of or related to the development of the Job Order including but not limited to the costs to attend the Joint Scope Meeting, review the Detailed Scope of Work, prepare a Job Order Proposal Package (including incidental architectural and engineering services), Subcontractor costs, and the costs to review the Job Order Proposal Package with CCOG (or their designated representative) and the Member.
- The Member may request changes to or clarifications of any part of the Job Order. The Contractor and CCOG (or their designated representative) will work together to make any requested revisions in a timely manner and resubmit a revised Job Order.
- Upon approval by the Member, the Member may issue a Notice to Proceed, a Purchase Order, Notice of Award, or similar document accepting the Contractor's offer.
- If performance and payment bonding is required, or if a separate and /or special insurance certificate is required. The Contractor will deliver such requirements to the CCOG Member within ten (10) days of notification of the requirement.

In the event that immediate emergency response is necessary, the Contractor shall be required to follow alternative procedures as established by CCOG. The Contractor shall begin the Work for a Job Order as directed by the Member notwithstanding the absence of a fully developed Job Order Request for Proposal, Detailed Scope of Work, Job Order Proposal Package or Job Order. The Contractor shall be compensated for such Work as if the Work had been ordered under the standard procedures.

This Contract has an initial term of One (1) year from the date on contract and three (3) bilateral option provisions for three (3) additional one-year terms.

In the event the Contract Agreement expires before another bid is awarded, CCOG and the Contractor may extend the contract for an additional (1) one year term per mutual agreement.

The Construction Task Catalog issued with this solicitation will be in effect for the first year of this contract (i.e., until December 31, 2022). On the anniversary of this contract (i.e. January 1, 2023 and each January 1st thereafter during the term) a new Construction Task Catalog will be furnished to address the escalation or de-escalation of costs of materials and services. The new Construction Task Catalog will be effective for the 12-month period after the anniversary date. The Construction Task Catalog that accompanies each anniversary shall only apply to Purchase Orders issued after the effective date of that specific renewal term and shall have no impact on Purchase Orders issued prior to the effective date of that specific renewal term.

The Adjustment Factors submitted with the Contractor's Proposal shall be used for the full term of the Contract. On the annual anniversary of the Contract, CCOG shall issue the Contractor the new Construction Task Catalog. The Contractor shall use the Construction Task Catalog in effect on the date the Proposal is due. However, the Contractor cannot delay the issuance of a Proposal to take advantage of a scheduled update of the Construction Task Catalog. In that event the Contractor shall use the Construction Task Catalog that would have been in effect without delay.

CCOG's ezIQC Contract is powered by Gordian's Construction Task Catalogs which have been created exclusively for these contracts. The Construction Task Catalog is a collection of construction and construction related tasks with pre-established Unit Prices. As part of this contract new Construction Task Catalogs will be published annually by Gordians team of data analysts who monitor the escalation and de-escalation of construction material, equipment and labor costs through multiple industry standard indicators. The issuance of new Construction Tasks Catalogs will include updated unit prices as determined through research completed by Gordian's data team. The new Construction Task Catalog will ensure competitive pricing for Members and Contractors throughout the duration of the contract.

7. Regions

Contractor will primarily work in the Bid Region designated. However, if both parties agree, the Contractor may work in another Bid Region at the Adjustment Factors proposed or as adjusted according to Article 5 above. If a Contractor holds multiple contracts, when performing work outside the Bid regions it will always use the contract that results in the lowest price for the Member.

Contractor shall extend all Contract terms and conditions to any new Member in the Bid Region designated, as well as any other Bid Region, throughout the Contract term.

8. Assignment of Work

The assignment of the Work is at the sole discretion of the Member. The Contractor's Adjustment Factors, performance history, and ability to perform the Work will be considered in determining the distribution of the Work.

9. Changes

Changes to the Contract Agreement may be accomplished after execution of the Contract Agreement and without invalidating the Contract, by Change Order.

Changes to a Job Order: The Member reserves the right to make, in writing, at any time during the Work, changes in the Detailed Scope of Work as are necessary to satisfactorily complete the Project, and to delete in whole or in part, or to add to, the Detailed Scope of Work. The Member, without invalidating the Job Order, may order changes in the Work by issuing a Supplemental Job Order. Changes, deletions, or additions will not invalidate the Job Order nor release the surety, if any, and the Contractor agrees to perform the Work as altered.

Credits for Pre-priced and Non Pre-priced Tasks shall be calculated at the pre-set Unit Prices and multiplied by the appropriate Adjustment Factors and multiplied by the appropriate quantities. The result is that a credit for Tasks that have been deleted from the Detailed Scope of Work will be given at 100% of the value at which they were included in the original Job Order Price Proposal.

10. Payment and Performance Bonds and Material and Workmanship Bonds

If required by the Member for a particular Job Order, the Contractor shall deliver a Payment Bond and a Performance Bond equal to the Job Order Price of such Job Order. The bonds must be in a form, and executed by a surety, acceptable to the Member. The bonds must be received before the Notice to Proceed will be issued. The Contractor shall be compensated for the cost of the bonds up to 2% of the Job Order Price through the Reimbursable Fee work task in the Construction Task Catalog®. The Contractor shall apply a 1.1000 Adjustment Factor to the Reimbursable Fee task in the Construction Task Catalog® rather than applying one of the Contractor's proposed Adjustment Factors.

11. Prevailing Wage and Member Participation Requirements

If required on a Job Order, the Contractor shall pay prevailing wages to all workers in accordance with applicable laws. The wage rates used for the Construction Task Catalog® were the prevailing wage rates, if any; in effect at the time the IFB Documents were issued. In the performance of the work, however, contractor shall be fully responsible for paying the generally prevailing hourly rate of wages in effect, as determined by the State Department of Labor, at the time the Work is performed. If the State Department of Labor revises the prevailing rate of hourly wages to be paid for the Work prior to completion of the Project, the revised rate shall apply from the effective date of such revision, however such revision shall not entitle Contractor to any increased compensation.

If other wage rates are required by law, the Contractor shall pay such wages to all workers in accordance with the applicable laws. If the Job Order is performed in whole or in part using federal funding and Davis-Bacon Wages for that area/region apply, the Contractor shall pay Davis-Bacon Wages to all workers in accordance with applicable laws. If Davis-Bacon Wages are required on a Job Order, the requirement shall not entitle Contractor to any increased compensation.

Contractors shall meet any participation goals or requirements established by the Member ordering the Work, and/or satisfy the intent of said goals or requirements, with regard to Small, Local, Minority, Women, Veteran or Disadvantaged Business Enterprises. Additional participation goals may be incorporated into the Job Order Request for Proposal or Detailed Scope of Work.

12. Personnel

The Contractor will employ competent personnel for the development of the Project's Detailed Scope of Work, the preparation of the Price Proposal and the execution of the Work. During the performance of the Work, the superintendent assigned to the Project will represent the Contractor, and communications given to the superintendent will be as binding as if given to the Contractor. Important communications must be confirmed in writing. Other communications will be similarly confirmed on written request in each case.

13. Supervision

The Contractor shall supervise and direct the performance of the Detailed Scope of Work, using the Contractor's best skill and attention. The Contractor shall be solely responsible for and have control over construction means, methods, techniques, sequences and procedures and for coordinating all portions of the Work. If the Detailed Scope of Work gives specific instructions concerning construction means, methods, techniques, sequences or procedures, the Contractor shall evaluate the Site safety thereof and, except as stated below, shall be fully and solely responsible for the jobsite safety of such means, methods, techniques, sequences or procedures. If the Contractor determines that such means, methods, techniques, sequences or procedures may not be safe, the Contractor shall give timely written notice to the Member and shall not proceed with that portion of the Work without further written instructions from the Member.

The Contractor shall be responsible to the Member for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons or entities performing portions of the work for or on behalf of the Contractor or any of its Subcontractors.

The Contractor shall be responsible for inspection of portions of Work already performed to determine that such portions are in proper condition to receive subsequent Work.

14. Member's Access to the Work

The Contractor shall provide the Member access to the Work at all times.

15. Member's Right to Stop Work

The Member may order the Contractor to stop the Work on any Job Order, or any portion thereof, at any time for any reason.

16. Member's Right to Complete Work

If the Contractor has been ordered to stop the Work, the Member may, without prejudice to other remedies, have the Work completed by any available means.

17. Review of Field Conditions

Before submitting a Job Order Proposal Package, the Contractor shall carefully study the Detailed Scope of Work, as well as the information furnished by the Member, shall take field measurements of any existing conditions related to the Work and shall observe any conditions at the Site affecting it. Any errors, inconsistencies or omissions discovered by the Contractor shall be reported promptly to the CCOG and the Member.

Any design errors or omissions noted by the Contractor during this review shall be reported promptly to CCOG and the Member, but it is recognized that the Contractor's review is made in the

Contractor's capacity as a Contractor and not as a licensed design professional. The Contractor is not required to ascertain that the Detailed Scope of Work is in accordance with applicable laws, statutes, ordinances, building codes, and rules and regulations. However, any nonconformity discovered by or made known to the Contractor shall be reported promptly to the CCOG and the Member.

18. Workmanship and Quality

The Contractor may make substitutions only with the consent of the Member.

The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Work. The Contractor shall not permit employment of unfit persons or persons not skilled in the portions of the Work assigned to them.

19. Permits and Filings

Contractor shall make the necessary arrangements for and obtain all filings and permits required for the Work, including the preparation of all drawings, sketches, calculations and other documents and information that may be required. If the Contractor is required to pay an application fee for filing a Project, a fee to obtain a building permit, or any other permit fee to the City, State or some other governmental or regulatory agency, then the amount of such fee paid by the Contractor for which a receipt is obtained shall be reimbursable. The Contractor shall be compensated for the cost of the filings and permits through the Reimbursable Fee work task in the Construction Task Catalog®. The Contractor shall apply a 1.1000 Adjustment Factor to the Reimbursable Fee task in the Construction Task Catalog® rather than applying one of the Contractor's proposed Adjustment Factors. Contractor shall submit written documentation of such fees. The 10% mark-up shall cover all costs over and above the filing and permit fees, including expeditor fees.

The Contractor shall comply with and give notices required by laws, ordinances, rules, regulations and lawful orders of public authorities applicable to performance of the Work.

It is not the Contractor's responsibility to ascertain that the Detailed Scope of Work is in accordance with applicable laws, statutes, ordinances, building codes, and rules and regulations. However, if the Contractor observes that any portion of the Detailed Scope of Work is at variance therewith, the Contractor shall promptly notify CCOG and the Member in writing.

20. Architectural and Engineering Services

Under this Contract it is expected that the level of Architecture and Engineering (A/E) services and design, if any, will be incidental to the Contract and therefore any cost associated with this is to be included in the Contractor's Adjustment Factors. If the level of A/E services for a Purchase Order requires that the Contractor provide stamped drawings and plans, the Contractor will be reimbursed according to the appropriate Task in the CTC. The Contractor will be required, as on any construction project, to provide shop drawings, as-built drawings, project layout drawings and sketches as required.

The preparation of incidental drawings/plans, specifications, shop drawings, product data and samples, as-builts and all other documentation required herein by the Contractor as required by individual Purchase Orders is part of the Scope of Work of this Contract and the cost there of will be included in the Contractor's Adjustment Factors.

21. Shop Drawings, Product Data and Samples

Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents. The purpose of their submittal is to demonstrate for those portions of the Detailed Scope of Work for which submittals are required by the Contract Documents the way by which the Contractor proposes to conform to the information given and the design concept expressed in the Detailed Scope of Work. Submittals which are not required by the Contract Documents may be returned by the Member without action.

The Contractor shall review for compliance with the Contract Documents, approve and submit to the Member Shop Drawings, Product Data, Samples and similar submittals required with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of the Member or of separate contractors. Submittals which are not marked as reviewed for compliance with the Contract Documents and approved by the Contractor may be returned by the Member without action.

By approving and submitting Shop Drawings, Product Data, Samples and similar submittals, the Contractor represents that the Contractor has determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and has checked and coordinated the information contained within such submittals with the requirements of the Detailed Scope of Work and of the Contract Documents.

The Contractor shall perform no portion of the Work for which the Contract Documents require submittal and review of Shop Drawings, Product Data, Samples or similar submittals until the respective submittal has been approved by the Member.

The Work shall be performed in accordance with approved submittals except that the Contractor shall not be relieved of responsibility for deviations from requirements of the Contract Documents by the Member's approval of Shop Drawings, Product Data, Samples or similar submittals unless the Contractor has specifically informed the Member in writing of such deviation at the time of submittal and (1) the Member has given written approval to the specific deviation as a minor change in the Work, or (2) a Supplemental Job Order or written notice has been issued authorizing the deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples or similar submittals by the Member's approval thereof.

The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples or similar submittals, to revisions other than those requested by the Member on previous submittals. In the absence of such written notice the Member's approval of a resubmission shall not apply to such revisions.

The Contractor shall not be required to provide professional services which constitute the practice of architecture or engineering unless such services are specifically required by the Detailed Scope of Work or unless the Contractor needs to provide such services in order to carry out the Contractor's responsibilities for construction means, methods, techniques, sequences and procedures. The Contractor shall not be required to provide professional services in violation of applicable law. If professional design services or certifications by a design professional related to systems, materials or equipment are specifically required of the Contractor by the Detailed Scope of Work, the Member will specify all performance and design criteria that such services must satisfy. The Contractor shall

cause such services or certifications to be provided by a properly licensed design professional, whose signature and seal shall appear on all drawings, calculations, specifications, certifications, Shop Drawings and other submittals prepared by such professional. Shop Drawings and other submittals related to the Work designed or certified by such professional, if prepared by others, shall bear such professional's written approval when submitted to the Project Member Manager. The Member shall be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications or approvals performed by such design professionals, provided the Member has specified to the Contractor all performance and design criteria that such services must satisfy. The Member will review, approve or take other appropriate action on submittals only for the limited purpose of checking for conformance with information given and the design concept expressed in the Detailed Scope of Work. The Contractor shall not be responsible for the adequacy of the performance or design criteria required by the Detailed Scope of Work.

22. Cutting and Patching

The Contractor shall be responsible for cutting, fitting or patching required to complete the Detailed Scope of Work or to make its parts fit together properly.

The Contractor shall not damage or endanger a portion of the Work or fully or partially completed construction of the Member or separate contractors by cutting, patching or otherwise altering such construction, or by excavation. The Contractor shall not cut or otherwise alter such construction by the Member or a separate contractor except with written consent of the Member and of such separate contractor; such consent shall not be unreasonably withheld. The Contractor shall not unreasonably withhold from the Member or a separate contractor the Contractor's consent to cutting or otherwise altering the Work.

23. Installation

Equipment and/or product installation shall be performed in a reasonable amount of time and be scheduled directly with the public agency. Installation shall be in accordance with the manufacturer's instructions and shall be accomplished by a skilled, certified and properly licensed individual.

24. Punch List Completion

The Contractor understands and agrees that time is of the essence in closing out the Work of this Contract. Upon Substantial Completion of the Work, the Punch List will be transmitted to the Contractor from the Member. The Contractor agrees to begin performance of Punch List Work immediately after receipt of the Punch List.

Failure of the Contractor or its Subcontractors to begin the Punch List Work within three (3) business days after receipt of the Punch List will be construed as failure to prosecute the Work of the Contract.

Punch List Work will be continuously prosecuted once begun and completed within thirty (30) Days from the receipt of the Punch List. Should the Contractor fail to complete the Punch List within this period of time, the liquidated damages (**See Section Three: General Terms and Conditions for JOC, Article 45, Liquidated Damages**) Contract General Conditions will apply.

25. Cleaning Up

The Contractor shall keep the Site and surrounding areas free from accumulation of waste materials or rubbish caused by operations under the Job Order. At completion of the Work, the Contractor shall remove from and about the Site all waste materials, rubbish, the Contractor's tools, construction equipment, machinery and surplus materials.

If the Contractor fails to clean up, the Member may do so and the cost thereof shall be charged to the Contractor.

26. Royalties, Patents and Copyrights

The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of copyrights and patent rights and shall hold CCOG and the Member harmless from loss on account thereof, but shall not be responsible for such defense or loss when a particular design, process or product of a particular manufacturer or manufacturers is required by the Contract Documents or where the copyright violations are contained in Drawings, Specifications or other documents prepared by the Member. However, if the Contractor has reason to believe that the required design, process or product is an infringement of a copyright or a patent, the Contractor shall be responsible for such loss unless such information is promptly furnished to the Member.

27. Indemnification

To the fullest extent permitted by law and to the extent claims, damages, losses or expenses are not covered by insurance purchased by the Contractor, the Contractor shall indemnify and hold harmless the CCOG, the Member, consultants, and agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorney's fees, arising out of or resulting from performance of the Work, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), but only to extent caused by the negligent acts or omissions of the Contractor, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Paragraph.

In claims against any person or entity indemnified under this Paragraph by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor or a Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

28. Subcontractors

The Contractor, as soon as practicable after award of the Job Order, shall furnish in writing to the Member the names of persons or entities (including those who are to furnish materials or equipment fabricated to a special design) proposed for each portion of the Work. The Member will promptly reply to the Contractor in writing stating whether or not, after due investigation, Contractor has reasonable objection to any such proposed person or entity. Failure of the Member to reply promptly shall constitute notice of no reasonable objection.

The Contractor shall not contract with a proposed Subcontractor or entity to whom the Member has made reasonable and timely objection. The Contractor shall not be required to contract with anyone to whom the Contractor has made reasonable objection.

If the Member has reasonable objection to a person or entity proposed by the Contractor, the Contractor shall propose another to whom the Member has no reasonable objection.

29. Coordination with Other Contractors

The Member reserves the right to perform construction or operations related to the Job Order with the Member's own forces, and to award separate contracts in connection with other portions of the Project or other construction or operations on the Site.

The Member shall provide for coordination of the activities of the Member's own forces and of each separate contractor with the Work of the Contractor, who shall cooperate with them. The Contractor shall participate with other separate contractors and the Member in reviewing their construction schedules when directed to do so. The Contractor shall make any revisions to the construction schedule deemed necessary after a joint review and mutual agreement. The construction schedules shall then constitute the schedules to be used by the Contractor, separate contractors and the Member until subsequently revised.

30. Request for Extension of Time

If the Contractor is delayed at any time in the commencement or progress of the Detailed Scope of Work by an act or neglect of the Member, or of an employee of either, or of a separate contractor employed by the Member, or by changes ordered in the Work, or by labor disputes, fire, unusual delay in deliveries, unavoidable casualties or other causes beyond the Contractor's control, or by other causes which the Member determines may justify delay, then the Job Order Completion Time shall be extended for such reasonable time as the Member may determine.

The Contractor agrees to make no claim for damages for the delay in the performance of any Job Order occasioned by any act or omission to act of the Member or any of their representatives, and agrees that any such claim shall be fully compensated for by an extension of time as provided herein.

31. Buyer Delays

The contractor will negotiate with the Member for the recovery of damages related to expenses incurred by the contractor for a delay for which the public agency is responsible, which is unreasonable, and which was not within the contemplation of the parties to the contract between the two parties. Compensation for received goods, terms of progress payments, and a schedule of payments should be described in the contract.

32. Construction Contract Requirement

Terms for acceptance by the public agency and title to work must be clearly agreed upon and described in the contract between the contractor and the Member. If any part of the construction requires the owner to assume control before the completion, this needs to be defined. Both parties must agree on the definition of what constitutes final acceptance before payment of any retained compensation. Upon completion of the project, the worksite shall be left in good condition and equal to the condition of the site prior to commencing the project.

If any work is to be performed by the Member, it must be clearly defined and agreed to by the Member and the prime contractor prior to the start of the project.

33. Construction Schedule

The Member retains the right to extend the schedule of work or to suspend the work and direct the prime contractor to resume work when appropriate. The agreement must describe an equitable adjustment for added costs caused by any delay or suspension. Any increases will be invoiced as allowed in this agreement.

The schedule for performance of work that can be met without planned overtime is the responsibility of the prime contractor.

The cost for each project shall include all costs of all necessary trained personnel to complete the project on or before the completion date set forth in the contract. The Member shall not incur additional expense for upsized crews or overtime costs, which might be necessary for the contractor to complete the project on schedule.

34. Coordination

The contractor and the Member shall coordinate activities so as to avoid conflicts. The contractor will make every effort not to interrupt scheduled activities with work under this contract. The contractor will notify the public agency of any construction work that may negatively impact scheduled public agency activities.

The contractor shall employ such methods or means as will not cause any interruption of, or interference with work of any other contractor on the project site.

35. Condition and Delivery of Construction Material

The contractor will deliver materials to the worksite in new, dry, unopened, and well- marked containers showing product and prime contractor's name clearly marked. Delivery of damaged or unlabeled materials will not be accepted.

The contractor will deliver materials in sufficient quantity to allow for continuity of work. Delivery will be coordinated with the public agency's designated contact person.

The contractor shall take all necessary precautions to protect materials from damage, theft and misuse. The public agency shall have no responsibility for such precautions or lack of protection.

Damaged or rejected materials shall be immediately removed from the project area.

36. Partial Occupancy or Use

The Member may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer and authorized by public authorities having jurisdiction over the Work. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Member and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage, if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period

for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor shall prepare and submit a list to the Member. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Member and Contractor.

Immediately prior to such partial occupancy or use, the Member and Contractor shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute acceptance of Work not complying with the requirements of the Contract Documents.

37. Identification and Security Requirements

The Contractor shall comply with all identification and security requirements that the Member may establish.

38. Protection of Persons and Property

The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury or loss to:

- employees on the Work and other persons who may be affected thereby;
- the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody or control of the Contractor or the Contractor's Subcontractors or Sub-subcontractors; and
- other property at the Site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.

The Contractor shall give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.

The Contractor shall erect and maintain, as required by existing conditions and performance of the Detailed Scope of Work, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying Member and users of adjacent sites and utilities.

When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the Work, the Contractor shall exercise utmost care and carry on such activities under supervision of properly qualified personnel.

The Contractor shall promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property caused in whole or in part by the Contractor, a Subcontractor, a Sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible, except damage or loss attributable to acts or omissions of the Member or anyone

directly or indirectly employed by it, or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's other obligations included herein.

The Contractor shall designate a responsible member of the Contractor's organization at the Site whose duty shall be the prevention of accidents. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Member.

The Contractor shall not permit any part of the construction or Site to be loaded so as to endanger safety.

39. Tests and Inspections

Tests, inspections, and approvals of portions of the Work required by the Contract Documents or by laws, ordinances, rules, regulations, or orders of public authorities having jurisdiction shall be made at an appropriate time. Unless otherwise provided, the Contractor shall make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to the Member, or with the appropriate public authority. The Contractor shall give the Member timely notice of when and where tests and inspections are to be made so that the Member may be present for such procedures.

If the Member or public authorities having jurisdiction determine that portions of the Work require, through no fault of the Contractor, additional testing, inspection or approval, the Member will instruct the Contractor to make arrangements for such additional testing, inspection or approval by an entity acceptable to the Member, and the Contractor shall give timely notice to the Member of when and where tests and inspections are to be made so that the Member may be present for such procedures. Such costs shall be at the Member's expense.

If such procedures for testing, inspection or approval reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, all costs made necessary by such failure including those of repeated procedures shall be at the Contractor's expense.

Required certificates of testing, inspection or approval shall, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to the Member.

If the Member is to observe tests, inspections or approvals required by the Contract Documents, the Member will do so promptly and, where practicable, at the normal place of testing.

Tests or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

40. Hazardous Materials

If reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to lead based paint, asbestos or polychlorinated biphenyl (PCB), encountered on the Site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop the Work in the affected area and report the condition to the Member in writing.

The Member shall obtain the services of a licensed laboratory to verify the presence or absence of the material or substance reported by the Contractor and, in the event such material or substance is found to be present, to verify that it has been rendered harmless. Unless otherwise required by the Contract Documents, the Member shall furnish in writing to the Contractor the names and qualifications of persons or entities who are to perform tests verifying the presence or absence of such material or substance or who are to perform the Task of removal or safe containment of such material or substance. The Contractor will promptly reply to the Member in writing stating whether or not it has reasonable objection to the persons or entities proposed by the Member. If the Contractor has an objection to a person or entity proposed by the Member, the Member shall propose another to whom the Contractor has no reasonable objection. When the material or substance has been rendered harmless, the Work in the affected area shall resume upon written agreement of the Member and Contractor. The Job Order Completion Time shall be extended appropriately.

To the fullest extent permitted by law, the Member shall indemnify and hold harmless the Contractor, and its agents and employees from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work in the affected area if in fact the material or substance presents the risk of bodily injury or death as described herein and has not been rendered harmless, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself) and provided that such damage, loss or expense is not due to the sole negligence of a party seeking indemnity.

The Member shall not be responsible for materials and substances brought to the Site by the Contractor unless such materials or substances were required by the Detailed Scope of Work.

If, without negligence on the part of the Contractor, the Contractor is held liable for the cost of remediation of a hazardous material or substance solely by reason of performing the Work as required by the Contract Documents, the Member shall indemnify the Contractor for all cost and expense thereby incurred.

41. Insurance

The contractor at their expense and included as part of overhead will provide adequate insurance coverage meeting at a minimum the requirements of the State of Ohio or another applicable jurisdiction. The contractor, if awarded a contract, will provide within 14 days but prior to the commencement of any construction, a certificate of insurance showing that CCOG, Equalis Group and its agents have been named as additional insured. In the event a major spike occurs in a specific material cost, CONTRACTOR may submit a request for a price modification to a Unit Price or individual Job Order. In order to initiate such a request, CONTRACTOR shall,

1. Identify the specific material that has experienced a major spike,
2. Identify Pre-priced Task(s) or Job Orders that require the material experiencing a major spike, and

3. Demonstrate that the spike exists by submitting a minimum of three quotes on material supplier letterhead to show that the current price meets the “major spike” definition above.

CCOG or it’s Member, after review of a request, may elect to adjust the Unit Price or Job Order by considering it a Non-Pre-Priced item. The adjustment will be for the difference between the material cost at the time the Construction Task Catalog® was issued times the quantity stated in the Job Order. The adjustment will not include any other markup, and the Non-Pre-Priced adjustment factor will not apply.

CCOG or it’s Member, at its option, may also determine that a drastic decrease in a material cost warrants the same Non-Pre-Priced adjustment downward in the Unit Price or a Job Order.

No such extension will relieve the extending Party of its rights and obligations under this Master Agreement.

2.6. **Confidentiality.**

- a. **Obligation.** The nature and details of the business relationship established by this Master Agreement, and the business information regarding the other Party(ies) (the "**Disclosing Party**") to which a Party(ies) (the "**Receiving Party**") may become privy during the Term of this Master Agreement (collectively, the "**Information**") constitute confidential and proprietary information, the disclosure, copying, or distribution of which could result in competitive harm to the Disclosing Party. The Parties further agree that they will require that all of their employees, agents, subcontractors, and suppliers abide by the terms of these confidentiality obligations. The confidentiality obligations set forth in this section will continue in effect for the Term of this Master Agreement and for a period of two (2) years after the date this Master Agreement is terminated or expires.

The attorneys prosecuting such defense on behalf of a Party must be acceptable to the Indemnified Party, which acceptance shall not be unreasonably withheld.
