

YAMAHA 2025 KODIAK 700

Tactical Green

TOP FEATURES

Big-Bore Engine Built to Tackle the Real World

The Kodiak® 700 offers up Yamaha's renowned riding excitement without sacrificing an ounce of comfort. Its potent 686cc engine is geared for low rpm cruising and smooth, quiet operation, while the enhanced midrange gives you impressive big-bore power exactly where you need it.

High Performance Ultramatic® Transmission

Yamaha's class-leading Ultramatic transmission is proven to be the most durable CVT transmission on the market, combining immediate response with advanced features like natural, all-wheel engine braking for extra control and confidence.

Trail-Ready Chassis

With plenty of ground clearance, the Kodiak 700 tackles rough terrain with ease. Wide-arc A-arms and full-body skid plates ensure the Kodiak 700 is able to handle anything the farm or trail can throw at it.

Compact Ergonomics

To ease overall feel and handling and boost rider confidence, the Kodiak 700 combines big-bore engine performance with a more compact body design commonly found in mid-sized ATVs.

Ready to Work

Heavy-duty steel cargo racks can pack a total of 308 pounds combined.

Independent Double Wishbone Front & Rear Suspension

An independent double wishbone suspension, with 7.1 inches of front wheel travel and 9.1 inches at the rear, provides excellent rider comfort even on the toughest trails.

10-Year-Belt Warranty

The Kodiak 700 transmission uses its own cooling intake to maintain proper temperatures, an oversized belt to handle the torque of the large motor and Yamaha's unique sprag clutch to maintain constant belt tension. The end result is a drivetrain built for years of trouble-free service that leaves the competition in the dust, and is backed by the industry's only 10-Year V-Belt Limited Warranty.
