2. Scope of Work

A Job Order Contract is an indefinite quantity contract pursuant to which the Contractor may perform an ongoing series of individual Projects at different Sites throughout the Regions. A Job Order Contract includes a Construction Task Catalog® containing construction tasks with preset Unit Prices. All Unit Prices are based on local labor, material and equipment prices and are for the direct cost of construction.

As Projects are identified the Member (or the Member Designated Representative), with the assistance of Gordian, will identify Projects and develop a draft scope of the work. The Contractor and Gordian will then assist the Member in developing a final scope of work. The

Member will then issue a Detailed Scope of Work and a Request for Proposals to the Contractor. The Contractor will then utilize Gordian's JOC System to prepare a Price Proposal for the Purchase Order including a Schedule, list of identified subcontractors, and other requested documentation such as cut sheets for materials. Gordian will assist the Member with Price Proposal review, and if the Price Proposal is found to be reasonable, the Member will issue a Purchase Order to Contractor. The Purchase Order will reference the Detailed Scope of Work and set forth the Purchase Order Completion Time, and the Purchase Order Price. The Contractor will perform the Detailed Scope of Work within the Purchase Order Completion Time for the Purchase Order Price. Extra Work, credits, and deletions will be contained in Supplemental Purchase Orders calculated in the same manner.

If the Job Order Proposal Package is found to be complete and reasonable, a Job Order and Purchase Order may be issued.

A Job Order will reference the Detailed Scope of Work and set forth the Job Order Completion Time, and the Job Order Price. The Job Order Price shall be a lump sum, fixed price for the completion of the Detailed Scope of Work. One or more Job Orders will be issued for each Project. Extra work, credits, and deletions will be contained in a Supplemental Job Order.

The Contractor shall provide all pricing, management, incidental drawings, shop drawings, samples, documents, Work, materials, supplies, parts (to include system components), transportation, plant, supervision, labor, and equipment needed to complete each Job Order. The Contractor shall also be responsible for Site safety as well as Site preparation and cleanup during and after construction. All costs associated with the above scope of work and the preparation of proposals shall be the responsibility of the Contractor.

The Work shall be conducted by the Contractor in strict accordance with the Contract Documents. The Contractor shall maintain accurate and complete records, files and libraries of documents to demonstrate compliance with Federal, State, and local regulations, codes, applicable laws, and manufacturers' instructions and recommendations which are necessary and related to the Work to be performed.

The Contractor shall prepare and submit required reports, maintain current record drawings, and submit required information. The Contractor shall provide: materials lists to include trade names and brand names, and model materials lists to include trade names, brand names, model number, and ratings (if appropriate) for all materials necessary to complete the Job Order.

All Work shall comply with any applicable standards, including those specified in the Contract Documents. If the Job Order specifies a standard which is different or more stringent, the standard used in the Job Order shall control:

- Job Order Contract Technical Specifications
 - The Technical Specifications are numbered and organized in the Construction Specification Institute's (CSI) master format. All specifications are filed in divisions per CSI guidelines.
 - The intent of these specifications is to furnish concise industry and commercial standards for construction, maintenance or repair of Member facilities.

- Reference in the Technical Specifications or the Construction Task Catalog® to a specific manufacturer, trade name, or catalog is intended to be descriptive but not restrictive and only to indicate to the prospective Proposer items that will be satisfactory.

3. Procedure for ordering work

Initiation of a job order: As the need exists, CCOG (or their designated representative) will, on behalf of a Member, notify the Contractor of a Project and schedule a Joint Scope Meeting.

The Contractor will attend the Joint Scope Meeting to discuss, at a minimum:

- the general scope of the Work,
- alternatives for performing the Work and value engineering,
- access to the Site and protocol for admission,
- hours of operation,
- staging area,
- requirements for professional services, sketches, drawings, and specifications,
- requirements for catalog cuts, technical data, samples and shop drawings,
- project schedule,
- requirement for bonding
- the presence of hazardous materials, and
- date on which the Price Proposal Package is due

Upon completion of the joint scoping process, CCOG (or their designated representative), working with the Member and the Contractor, will prepare a Detailed Scope of Work referencing any sketches, drawings, photographs, and specifications required to document accurately the work to be accomplished. CCOG (or their designated representative) will issue a Request for Proposal that will require the Contractor to prepare a Proposal Package. The Detailed Scope of Work, unless modified by both the Contractor and CCOG (or their designated representative), will be the basis on which the Contractor will develop its Price Proposal and CCOG (or their designated representative) and the Member will evaluate the same. The Contractor does not have the right to refuse to perform any Task or any work in connection with a particular Project.

The Member may, at its option, include quantities in the Detailed Scope of Work if it helps to define the Detailed Scope of Work, if the actual quantities required are not known or cannot be determined at the time the Detailed Scope of Work is prepared, if the Contractor and the Member cannot agree on the quantities required, or for any other reason as determined by the Member. In all such cases, CCOG (or their designated representative) shall issue a Supplemental Job Order adjusting the quantities appearing in the Detailed Scope of Work to the actual quantities.

Preparation of the Job Order Proposal Package: The Contractor's Job Order Proposal Package shall include, at a minimum:

- Job Order Price Proposal;
- Required drawings or sketches;
- List of anticipated Subcontractors;
- Construction schedule;

- Other Member-requested documents.

The Job Order Price shall be the value of the approved Job Order Price Proposal.

The value of the Job Order Price Proposal shall be calculated by summing the total of the calculations for each Pre-priced Tasks (unit price x quantity x Adjustment Factor) plus the value of all Non Pre-priced Tasks.

Preparation of the Job Order Price Proposal: The Contractor will prepare Job Order Price Proposals in accordance with the following:

- **Pre-priced Tasks:** A Pre-priced Task is a Task described and for which a Unit Price is set forth in the Construction Task Catalog®. The Contractor will select the appropriate Pre-priced Tasks, and enter the accurate quantity, and the appropriate Adjustment Factor.
- **Non Pre-priced Tasks:** A Non Pre-priced Task is a Task which is not in the Construction Task Catalog®.
 - Information submitted in support of Non Pre-priced Tasks shall include, but not be limited to, the following:
 - Catalog cuts, specifications, technical data, drawings, or other information as required to evaluate the task.
 - If the Contractor will perform the work with its own forces, it shall submit three independent quotes for all material to be installed and shall, to the extent possible, use Pre-priced Tasks for labor and equipment from the Construction Task Catalog®. If the work is to be subcontracted, the Contractor must submit three independent quotes from subcontractors. The Contractor shall not submit a quote or bid from any supplier or subcontractor that the Contractor is not prepared to use. The Member may require additional quotes and bids if the suppliers or subcontractors are not acceptable or if the prices are not reasonable.
 - The final price submitted for Non Pre-priced Tasks shall be according to the following formula:

For Work Performed with the Contractor's Own Forces:

- A. The hourly rate for each trade classification not in the Construction Task Catalog® multiplied by the quantity;
- B. The rate for each piece of Equipment not in the Construction Task Catalog® multiplied by the quantity;
- C. Lowest of three independent quotes for all materials
- Total for a Non Pre-priced Task performed with Contractor's Own Forces = $(A+B+C) \times \text{Non Pre-Priced Task Adjustment Factor}$

For Work Performed by Sub-contractors:

- D = Lowest of three Subcontractor quotes
- Total for a Non Pre-priced Task performed by Subcontractors = $D \times \text{Non Pre-Priced Task Adjustment Factor}$

- After a Non Pre-priced Task has been approved by CCOG (or their designated representative), the Unit Price for such task will be established, and fixed as a permanent Non Pre-priced Task which will no longer require price justification.
- CCOG (or their designated representative) determination as to whether a task is a Pre-priced Task or a Non Pre-priced Task shall be final, binding and conclusive as to the Contractor.
- If the Contractor is required to pay an application fee for filing a project, a fee to obtain a building permit, or any other permit fee to the City, State or some other governmental or regulatory agency, then the amount of such fee paid by the Contractor for which a receipt is obtained shall be treated as a Reimbursable Task to be paid as required (**See Section Three: General Terms and Conditions for JOC, Article 19, Permits and filings**) the Contractor shall provide incidental engineering and architectural services required in connection with a particular Job Order including drawings and information required for filing.

The Contractor's Job Order Proposal Package shall be submitted by the date indicated on the Job Order Request for Proposal. All incomplete Job Order Proposal Packages shall be rejected. The time allowed for preparation of the Contractor's Job Order Proposal Package will depend on the complexity and urgency of the Job Order but should average between seven and fourteen days. On complex Job Orders, such as Job Orders requiring incidental engineering/architectural drawings and approvals and permits, allowance will be made to provide adequate time for preparation and submittal of the necessary documents.

In emergency situations and minor maintenance and repair Job Orders requiring immediate completion, the Job Order Proposal Package may be required quickly and the due date will be so indicated on the Job Order Request for Proposal or, as described below, the Contractor may be directed to begin work immediately with the paperwork to follow.

If the Contractor requires clarifications or additional information regarding the Detailed Scope of Work in order to prepare the Job Order Proposal Package, the request must be submitted so that the submittal of the Job Order Proposal Package is not delayed.

Review of the Job Order Proposal Package.

- CCOG (or their designated representative) will evaluate the entire Job Order Proposal Package and compare it with the Detailed Scope of Work to determine the reasonableness of approach, as well as the appropriateness of the tasks and quantities proposed.
 - The means and methods of construction shall be such as the Contractor may choose; subject however, to CCOG (or their designated representative) right to reject means and methods proposed by the Contractor that:
 - Will constitute or create a hazard to the Work, or to persons or property; or
 - Will not produce finished Work in accordance with the terms of the Contract; or
 - Unnecessarily increases the price of the Job Order when alternative means and methods are available.

- By submitting a Job Order Proposal Package, the Contractor agrees to accomplish the Detailed Scope of Work in accordance with the Job Order Request for Proposal at the lump sum price submitted. It is the Contractor's responsibility to include the necessary Pre-priced Tasks and Non Pre-priced Tasks and quantities in the Job Order Price Proposal prior to delivering it to CCOG.

Delivery of the Job Order to the Member.

- CCOG (or their designated representative) reaches an agreement with the Contractor on the Job Order Proposal Package and any requested revision thereto, if applicable, the CCOG (or their designated representative) will deliver the Job Order for the Member's consideration.
- Each Job Order shall reference the Detailed Scope of Work and set forth the Job Order Price and the Job Order Completion Time. All clauses of this Job Order Contract shall be applicable to each Job Order. The Purchase Order, issued by the Member and delivered to the Contractor constitutes the Member's acceptance of the Job Order.
- Once the Job Order has been submitted to the Member the Contractor is bound by its content.

Review of the Job Order by the Member and Issuance of Purchase Order.

- The Member will evaluate the entire Job Order and compare it with the Member's estimate of the Detailed Scope of Work to determine the reasonableness of approach, price, and other factors.
- The Member reserve the right to reject a Job Order or cancel a Project for any reason. The Member also reserves the right not to issue a Purchase Order if it is determined to be in the best interests of the Member. The Member may perform such work by other means. The Contractor shall not recover any costs arising out of or related to the development of the Job Order including but not limited to the costs to attend the Joint Scope Meeting, review the Detailed Scope of Work, prepare a Job Order Proposal Package (including incidental architectural and engineering services), Subcontractor costs, and the costs to review the Job Order Proposal Package with CCOG (or their designated representative) and the Member.
- The Member may request changes to or clarifications of any part of the Job Order. The Contractor and CCOG (or their designated representative) will work together to make any requested revisions in a timely manner and resubmit a revised Job Order.
- Upon approval by the Member, the Member may issue a Notice to Proceed, a Purchase Order, Notice of Award, or similar document accepting the Contractor's offer.
- If performance and payment bonding is required, or if a separate and /or special insurance certificate is required. The Contractor will deliver such requirements to the CCOG Member within ten (10) days of notification of the requirement.

In the event that immediate emergency response is necessary, the Contractor shall be required to follow alternative procedures as established by CCOG. The Contractor shall begin the Work for a Job Order as directed by the Member notwithstanding the absence of a fully developed Job Order Request for Proposal, Detailed Scope of Work, Job Order Proposal Package or Job Order. The Contractor shall be compensated for such Work as if the Work had been ordered under the standard procedures.

The Gordian JOC Solution™ includes Gordian's proprietary JOC software applications (JOC Applications) and construction cost data (Construction Task Catalog®), which shall be used by the Contractor solely for the purpose of fulfilling its obligations under this Contract, including the preparation and submission of Price Proposals, subcontractor lists, and other requirements specified by the Owner. Contractor's use, in whole or in part, of Gordian's JOC Applications, Construction Task Catalog® and other proprietary materials provided by Gordian for any purpose other than to execute work under this Contract for the Owner is strictly prohibited unless otherwise approved in writing by Gordian. The Contractor hereby agrees to abide by the terms of the following JOC System License.

JOC System License: Gordian hereby grants to the Contractor for the term of this Contract, a non-exclusive right, non-transferable, privilege, and license to Gordian's proprietary JOC System (comprised of the JOC software applications and support documentation, the CTC, construction cost data, Technical Specifications, training materials, marketing materials and any other proprietary materials provided to Contractor by Gordian (collectively referred to as "Proprietary Information"). The Proprietary Information will be used for the sole purpose of executing Contractor's responsibilities to CCOG and the Members under this Contract ("Limited Purpose"). In the event this Contract expires or terminates as provided herein, or the Gordian's contract with CCOG expires or terminates, this JOC System License will terminate and the Contractor will return all Proprietary Information in its possession to Gordian.

Contractor acknowledges that Gordian will retain exclusive ownership of all proprietary rights to the Proprietary Information, including all U.S. and international intellectual property and other rights such as patents, trademarks, copyrights and trade secrets. Contractor will have no right or interest in any portion of the Proprietary Information except the right to use the Proprietary Information for the Limited Purpose set forth herein. In the event that it becomes necessary for either party to this JOC System License to enforce the provisions of this Contract or to obtain redress for the breach or violation of any of its provisions, whether by

litigation, arbitration or other proceedings, the prevailing party will be entitled to recover from the other party all costs and expenses associated with such proceedings, including reasonable attorney's fees.

In the event of a conflict in terms and conditions between this JOC System License and any other terms and conditions of this Contract or any Order, Purchase Order or similar purchasing document (Purchase Order) issued by CCOG or a Member, this JOC System License will take precedence.

5. Term of Contract and Purchase Orders Issued

This Contract has an initial term of Two (2) year from the date on contract and a bilateral option provision for one (1) additional two-year term.

A Job Order may be issued by a Member at any time during the term of this Contract Agreement even though the Work and the payments made for such Work may occur after the term ends. All the provisions of this Contract Agreement are incorporated into each Job Order issued hereunder.

6. Option to Bilaterally Extend Contract

This Contract has an initial term of Two (2) year from the date on contract and a bilateral option provision for one (1) additional two-year term.

In the event the Contract Agreement expires before another bid is awarded, CCOG and the Contractor may extend the contract for an additional (1) one year term per mutual agreement.

The Construction Task Catalog issued with this solicitation will be in effect for the first year of this contract (i.e., until April 30, 2024). On the anniversary of this contract (i.e. May 1, 2024 and each May 1st thereafter during the term) a new Construction Task Catalog will be furnished to address the escalation or de-escalation of costs of materials and services. The new Construction Task Catalog will be effective for the 12-month period after the anniversary date. The Construction Task Catalog that accompanies each anniversary shall only apply to Purchase Orders issued after the effective date of that specific renewal term and shall have no impact on Purchase Orders issued prior to the effective date of that specific renewal term.

The Adjustment Factors submitted with the Contractor's Proposal shall be used for the full term of the Contract. On the annual anniversary of the Contract, CCOG shall issue the Contractor the new Construction Task Catalog. The Contractor shall use the Construction Task Catalog in effect on the date the Proposal is due. However, the Contractor cannot delay the issuance of a Proposal to take advantage of a scheduled update of the Construction Task Catalog. In that event the Contractor shall use the Construction Task Catalog that would have been in effect without delay.

CCOG's ezIQC Contract is powered by Gordian's Construction Task Catalogs which have been created exclusively for these contracts. The Construction Task Catalog is a collection of construction and construction related tasks with pre-established Unit Prices. As part of this contract new Construction Task Catalogs will be published annually by Gordians team of data analysts who monitor the escalation and de-escalation of construction material, equipment and labor costs through multiple industry standard indicators. The issuance of new Construction Tasks Catalogs will include updated unit prices as determined through research completed by Gordian's

data team. The new Construction Task Catalog will ensure competitive pricing for Members and Contractors throughout the duration of the contract.

7. Regions

Contractor will primarily work in the Bid Region designated. However, if both parties agree, the Contractor may work in another Bid Region at the Adjustment Factors proposed or as adjusted according to Article 5 above. If a Contractor holds multiple contracts, when performing work outside the Bid regions it will always use the contract that results in the lowest price for the Member.

Contractor shall extend all Contract terms and conditions to any new Member in the Bid Region designated, as well as any other Bid Region, throughout the Contract term.

8. Assignment of Work

The assignment of the Work is at the sole discretion of the Member. The Contractor's Adjustment Factors, performance history, and ability to perform the Work will be considered in determining the distribution of the Work.

9. Changes

Changes to the Contract Agreement may be accomplished after execution of the Contract Agreement and without invalidating the Contract, by Change Order.

Changes to a Job Order: The Member reserves the right to make, in writing, at any time during the Work, changes in the Detailed Scope of Work as are necessary to satisfactorily complete the Project, and to delete in whole or in part, or to add to, the Detailed Scope of Work. The Member, without invalidating the Job Order, may order changes in the Work by issuing a Supplemental Job Order. Changes, deletions, or additions will not invalidate the Job Order nor release the surety, if any, and the Contractor agrees to perform the Work as altered.

Credits for Pre-priced and Non Pre-priced Tasks shall be calculated at the pre-set Unit Prices and multiplied by the appropriate Adjustment Factors and multiplied by the appropriate quantities. The result is that a credit for Tasks that have been deleted from the Detailed Scope of Work will be given at 100% of the value at which they were included in the original Job Order Price Proposal.

10. Payment and Performance Bonds and Material and Workmanship Bonds

If required by the Member for a particular Job Order, the Contractor shall deliver a Payment Bond and a Performance Bond equal to the Job Order Price of such Job Order. The bonds must be in a form, and executed by a surety, acceptable to the Member. The bonds must be received before the Notice to Proceed will be issued. The Contractor shall be compensated for the cost of the bonds up to 2% of the Job Order Price through the Reimbursable Fee work task in the Construction Task Catalog®. The Contractor shall apply a 1.1000 Adjustment Factor to the Reimbursable Fee task in the Construction Task Catalog® rather than applying one of the Contractor's proposed Adjustment Factors.

11. Prevailing Wage and Member Participation Requirements

If required on a Job Order, the Contractor shall pay prevailing wages to all workers in accordance with applicable laws. The wage rates used for the Construction Task Catalog® were the prevailing

wage rates, if any; in effect at the time the ITB Documents were issued. In the performance of the work, however, contractor shall be fully responsible for paying the generally prevailing hourly rate of wages in effect, as determined by the State Department of Labor, at the time the Work is performed. If the State Department of Labor revises the prevailing rate of hourly wages to be paid for the Work prior to completion of the Project, the revised rate shall apply from the effective date of such revision, however such revision shall not entitle Contractor to any increased compensation.

If other wage rates are required by law, the Contractor shall pay such wages to all workers in accordance with the applicable laws. If the Job Order is performed in whole or in part using federal funding and Davis-Bacon Wages for that area/region apply, the Contractor shall pay Davis-Bacon Wages to all workers in accordance with applicable laws. If Davis-Bacon Wages are required on a Job Order, the requirement shall not entitle Contractor to any increased compensation.

Contractors shall meet any participation goals or requirements established by the Member ordering the Work, and/or satisfy the intent of said goals or requirements, with regard to Small, Local, Minority, Women, Veteran or Disadvantaged Business Enterprises. Additional participation goals may be incorporated into the Job Order Request for Proposal or Detailed Scope of Work.

12. Personnel

The Contractor will employ competent personnel for the development of the Project's Detailed Scope of Work, the preparation of the Price Proposal and the execution of the Work. During the performance of the Work, the superintendent assigned to the Project will represent the Contractor, and communications given to the superintendent will be as binding as if given to the Contractor. Important communications must be confirmed in writing. Other communications will be similarly confirmed on written request in each case.

13. Supervision

The Contractor shall supervise and direct the performance of the Detailed Scope of Work, using the Contractor's best skill and attention. The Contractor shall be solely responsible for and have control over construction means, methods, techniques, sequences and procedures and for coordinating all portions of the Work. If the Detailed Scope of Work gives specific instructions concerning construction means, methods, techniques, sequences or procedures, the Contractor shall evaluate the Site safety thereof and, except as stated below, shall be fully and solely responsible for the jobsite safety of such means, methods, techniques, sequences or procedures. If the Contractor determines that such means, methods, techniques, sequences or procedures may not be safe, the Contractor shall give timely written notice to the Member and shall not proceed with that portion of the Work without further written instructions from the Member.

The Contractor shall be responsible to the Member for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons or entities performing portions of the work for or on behalf of the Contractor or any of its Subcontractors.

The Contractor shall be responsible for inspection of portions of Work already performed to determine that such portions are in proper condition to receive subsequent Work.

14. Member's Access to the Work

The Contractor shall provide the Member access to the Work at all times.

15. Member's Right to Stop Work

The Member may order the Contractor to stop the Work on any Job Order, or any portion thereof, at any time for any reason.

16. Member's Right to Complete Work

If the Contractor has been ordered to stop the Work, the Member may, without prejudice to other remedies, have the Work completed by any available means.

17. Review of Field Conditions

Before submitting a Job Order Proposal Package, the Contractor shall carefully study the Detailed Scope of Work, as well as the information furnished by the Member, shall take field measurements of any existing conditions related to the Work and shall observe any conditions at the Site affecting it. Any errors, inconsistencies or omissions discovered by the Contractor shall be reported promptly to the CCOG and the Member.

Any design errors or omissions noted by the Contractor during this review shall be reported promptly to CCOG and the Member, but it is recognized that the Contractor's review is made in the Contractor's capacity as a Contractor and not as a licensed design professional. The Contractor is not required to ascertain that the Detailed Scope of Work is in accordance with applicable laws, statutes, ordinances, building codes, and rules and regulations. However, any nonconformity discovered by or made known to the Contractor shall be reported promptly to the CCOG and the Member.

18. Workmanship and Quality

The Contractor may make substitutions only with the consent of the Member.

The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Work. The Contractor shall not permit employment of unfit persons or persons not skilled in the portions of the Work assigned to them.

19. Permits and Filings

Contractor shall make the necessary arrangements for and obtain all filings and permits required for the Work, including the preparation of all drawings, sketches, calculations and other documents and information that may be required. If the Contractor is required to pay an application fee for filing a Project, a fee to obtain a building permit, or any other permit fee to the City, State or some other governmental or regulatory agency, then the amount of such fee paid by the Contractor for which a receipt is obtained shall be reimbursable. The Contractor shall be compensated for the cost of the filings and permits through the Reimbursable Fee work task in the Construction Task Catalog®. The Contractor shall apply a 1.1000 Adjustment Factor to the Reimbursable Fee task in the Construction Task Catalog® rather than applying one of the Contractor's proposed Adjustment Factors. Contractor shall submit written documentation of such fees. The 10% mark-up shall cover all costs over and above the filing and permit fees, including expeditor fees.

The Contractor shall comply with and give notices required by laws, ordinances, rules, regulations and lawful orders of public authorities applicable to performance of the Work.

It is not the Contractor's responsibility to ascertain that the Detailed Scope of Work is in accordance with applicable laws, statutes, ordinances, building codes, and rules and regulations. However, if the Contractor observes that any portion of the Detailed Scope of Work is at variance therewith, the Contractor shall promptly notify CCOG and the Member in writing.

20. Architectural and Engineering Services

Under this Contract it is expected that the level of Architecture and Engineering (A/E) services and design, if any, will be incidental to the Contract and therefore any cost associated with this is to be included in the Contractor's Adjustment Factors. If the level of A/E services for a Purchase Order requires that the Contractor provide stamped drawings and plans, the Contractor will be reimbursed according to the appropriate Task in the CTC. The Contractor will be required, as on any construction project, to provide shop drawings, as-built drawings, project layout drawings and sketches as required.

The preparation of incidental drawings/plans, specifications, shop drawings, product data and samples, as-builts and all other documentation required herein by the Contractor as required by individual Purchase Orders is part of the Scope of Work of this Contract and the cost thereof will be included in the Contractor's Adjustment Factors.

21. Shop Drawings, Product Data and Samples

Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents. The purpose of their submittal is to demonstrate for those portions of the Detailed Scope of Work for which submittals are required by the Contract Documents the way by which the Contractor proposes to conform to the information given and the design concept expressed in the Detailed Scope of Work. Submittals which are not required by the Contract Documents may be returned by the Member without action.

The Contractor shall review for compliance with the Contract Documents, approve and submit to the Member Shop Drawings, Product Data, Samples and similar submittals required with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of the Member or of separate contractors. Submittals which are not marked as reviewed for compliance with the Contract Documents and approved by the Contractor may be returned by the Member without action.

By approving and submitting Shop Drawings, Product Data, Samples and similar submittals, the Contractor represents that the Contractor has determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and has checked and coordinated the information contained within such submittals with the requirements of the Detailed Scope of Work and of the Contract Documents.

The Contractor shall perform no portion of the Work for which the Contract Documents require submittal and review of Shop Drawings, Product Data, Samples or similar submittals until the respective submittal has been approved by the Member.

The Work shall be performed in accordance with approved submittals except that the Contractor shall not be relieved of responsibility for deviations from requirements of the Contract Documents by the Member's approval of Shop Drawings, Product Data, Samples or similar submittals unless the Contractor has specifically informed the Member in writing of such deviation at the time of submittal and (1) the Member has given written approval to the specific deviation as a minor change in the Work, or (2) a Supplemental Job Order or written notice has been issued authorizing the deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples or similar submittals by the Member's approval thereof.

The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples or similar submittals, to revisions other than those requested by the Member on previous submittals. In the absence of such written notice the Member's approval of a resubmission shall not apply to such revisions.

The Contractor shall not be required to provide professional services which constitute the practice of architecture or engineering unless such services are specifically required by the Detailed Scope of Work or unless the Contractor needs to provide such services in order to carry out the Contractor's responsibilities for construction means, methods, techniques, sequences and procedures. The Contractor shall not be required to provide professional services in violation of applicable law. If professional design services or certifications by a design professional related to systems, materials or equipment are specifically required of the Contractor by the Detailed Scope of Work, the Member will specify all performance and design criteria that such services must satisfy. The Contractor shall cause such services or certifications to be provided by a properly licensed design professional, whose signature and seal shall appear on all drawings, calculations, specifications, certifications, Shop Drawings and other submittals prepared by such professional. Shop Drawings and other submittals related to the Work designed or certified by such professional, if prepared by others, shall bear such professional's written approval when submitted to the Project Member Manager. The Member shall be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications or approvals performed by such design professionals, provided the Member has specified to the Contractor all performance and design criteria that such services must satisfy. The Member will review, approve or take other appropriate action on submittals only for the limited purpose of checking for conformance with information given and the design concept expressed in the Detailed Scope of Work. The Contractor shall not be responsible for the adequacy of the performance or design criteria required by the Detailed Scope of Work.

22. Cutting and Patching

The Contractor shall be responsible for cutting, fitting or patching required to complete the Detailed Scope of Work or to make its parts fit together properly.

The Contractor shall not damage or endanger a portion of the Work or fully or partially completed construction of the Member or separate contractors by cutting, patching or otherwise altering such construction, or by excavation. The Contractor shall not cut or otherwise alter such construction by the Member or a separate contractor except with written consent of the Member and of such separate contractor; such consent shall not be unreasonably withheld. The Contractor shall not

unreasonably withhold from the Member or a separate contractor the Contractor's consent to cutting or otherwise altering the Work.

23. Installation

Equipment and/or product installation shall be performed in a reasonable amount of time and be scheduled directly with the public agency. Installation shall be in accordance with the manufacturer's instructions and shall be accomplished by a skilled, certified and properly licensed individual.

24. Punch List Completion

The Contractor understands and agrees that time is of the essence in closing out the Work of this Contract. Upon Substantial Completion of the Work, the Punch List will be transmitted to the Contractor from the Member. The Contractor agrees to begin performance of Punch List Work immediately after receipt of the Punch List.

Failure of the Contractor or its Subcontractors to begin the Punch List Work within three (3) business days after receipt of the Punch List will be construed as failure to prosecute the Work of the Contract.

Punch List Work will be continuously prosecuted once begun and completed within thirty (30) Days from the receipt of the Punch List. Should the Contractor fail to complete the Punch List within this period of time, the liquidated damages (**See Section Three: General Terms and Conditions for JOC, Article 45, Liquidated Damages**) Contract General Conditions will apply.

25. Cleaning Up

The Contractor shall keep the Site and surrounding areas free from accumulation of waste materials or rubbish caused by operations under the Job Order. At completion of the Work, the Contractor shall remove from and about the Site all waste materials, rubbish, the Contractor's tools, construction equipment, machinery and surplus materials.

If the Contractor fails to clean up, the Member may do so and the cost thereof shall be charged to the Contractor.

26. Royalties, Patents and Copyrights

The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of copyrights and patent rights and shall hold CCOG and the Member harmless from loss on account thereof, but shall not be responsible for such defense or loss when a particular design, process or product of a particular manufacturer or manufacturers is required by the Contract Documents or where the copyright violations are contained in Drawings, Specifications or other documents prepared by the Member. However, if the Contractor has reason to believe that the required design, process or product is an infringement of a copyright or a patent, the Contractor shall be responsible for such loss unless such information is promptly furnished to the Member.

27. Indemnification

To the fullest extent permitted by law and to the extent claims, damages, losses or expenses are not covered by insurance purchased by the Contractor, the Contractor shall indemnify and hold harmless the CCOG, the Member, consultants, and agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorney's fees, arising out of or resulting from performance of the Work, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), but only to extent caused by the negligent acts or omissions of the Contractor, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Paragraph.

In claims against any person or entity indemnified under this Paragraph by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor or a Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

28. Subcontractors

The Contractor, as soon as practicable after award of the Job Order, shall furnish in writing to the Member the names of persons or entities (including those who are to furnish materials or equipment fabricated to a special design) proposed for each portion of the Work. The Member will promptly reply to the Contractor in writing stating whether or not, after due investigation, Contractor has reasonable objection to any such proposed person or entity. Failure of the Member to reply promptly shall constitute notice of no reasonable objection.

The Contractor shall not contract with a proposed Subcontractor or entity to whom the Member has made reasonable and timely objection. The Contractor shall not be required to contract with anyone to whom the Contractor has made reasonable objection.

If the Member has reasonable objection to a person or entity proposed by the Contractor, the Contractor shall propose another to whom the Member has no reasonable objection.

29. Coordination with Other Contractors

The Member reserves the right to perform construction or operations related to the Job Order with the Member's own forces, and to award separate contracts in connection with other portions of the Project or other construction or operations on the Site.

The Member shall provide for coordination of the activities of the Member's own forces and of each separate contractor with the Work of the Contractor, who shall cooperate with them. The Contractor shall participate with other separate contractors and the Member in reviewing their construction schedules when directed to do so. The Contractor shall make any revisions to the construction schedule deemed necessary after a joint review and mutual agreement. The

construction schedules shall then constitute the schedules to be used by the Contractor, separate contractors and the Member until subsequently revised.

30. Request for Extension of Time

If the Contractor is delayed at any time in the commencement or progress of the Detailed Scope of Work by an act or neglect of the Member, or of an employee of either, or of a separate contractor employed by the Member, or by changes ordered in the Work, or by labor disputes, fire, unusual delay in deliveries, unavoidable casualties or other causes beyond the Contractor's control, or by other causes which the Member determines may justify delay, then the Job Order Completion Time shall be extended for such reasonable time as the Member may determine.

The Contractor agrees to make no claim for damages for the delay in the performance of any Job Order occasioned by any act or omission to act of the Member or any of their representatives, and agrees that any such claim shall be fully compensated for by an extension of time as provided herein.

31. Buyer Delays

The contractor will negotiate with the Member for the recovery of damages related to expenses incurred by the contractor for a delay for which the public agency is responsible, which is unreasonable, and which was not within the contemplation of the parties to the contract between the two parties. Compensation for received goods, terms of progress payments, and a schedule of payments should be described in the contract.

32. Construction Contract Requirement

Terms for acceptance by the public agency and title to work must be clearly agreed upon and described in the contract between the contractor and the Member. If any part of the construction requires the owner to assume control before the completion, this needs to be defined. Both parties must agree on the definition of what constitutes final acceptance before payment of any retained compensation. Upon completion of the project, the worksite shall be left in good condition and equal to the condition of the site prior to commencing the project.

If any work is to be performed by the Member, it must be clearly defined and agreed to by the Member and the prime contractor prior to the start of the project.

33. Construction Schedule

The Member retains the right to extend the schedule of work or to suspend the work and direct the prime contractor to resume work when appropriate. The agreement must describe an equitable adjustment for added costs caused by any delay or suspension. Any increases will be invoiced as allowed in this agreement.

The schedule for performance of work that can be met without planned overtime is the responsibility of the prime contractor.

The cost for each project shall include all costs of all necessary trained personnel to complete the project on or before the completion date set forth in the contract. The Member shall not incur

additional expense for upsized crews or overtime costs, which might be necessary for the contractor to complete the project on schedule.

34. Coordination

The contractor and the Member shall coordinate activities so as to avoid conflicts. The contractor will make every effort not to interrupt scheduled activities with work under this contract. The contractor will notify the public agency of any construction work that may negatively impact scheduled public agency activities.

The contractor shall employ such methods or means as will not cause any interruption of, or interference with work of any other contractor on the project site.

35. Condition and Delivery of Construction Material

The contractor will deliver materials to the worksite in new, dry, unopened, and well- marked containers showing product and prime contractor's name clearly marked. Delivery of damaged or unlabeled materials will not be accepted.

The contractor will deliver materials in sufficient quantity to allow for continuity of work. Delivery will be coordinated with the public agency's designated contact person.

The contractor shall take all necessary precautions to protect materials from damage, theft and misuse. The public agency shall have no responsibility for such precautions or lack of protection.

Damaged or rejected materials shall be immediately removed from the project area.

36. Partial Occupancy or Use

The Member may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer and authorized by public authorities having jurisdiction over the Work. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Member and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage, if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor shall prepare and submit a list to the Member. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Member and Contractor.

Immediately prior to such partial occupancy or use, the Member and Contractor shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute acceptance of Work not complying with the requirements of the Contract Documents.

37. Identification and Security Requirements

The Contractor shall comply with all identification and security requirements that the Member may establish.

38. Protection of Persons and Property

The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury or loss to:

- employees on the Work and other persons who may be affected thereby;
- the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody or control of the Contractor or the Contractor's Subcontractors or Sub-subcontractors; and
- other property at the Site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.

The Contractor shall give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.

The Contractor shall erect and maintain, as required by existing conditions and performance of the Detailed Scope of Work, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying Member and users of adjacent sites and utilities.

When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the Work, the Contractor shall exercise utmost care and carry on such activities under supervision of properly qualified personnel.

The Contractor shall promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property caused in whole or in part by the Contractor, a Subcontractor, a Sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible, except damage or loss attributable to acts or omissions of the Member or anyone directly or indirectly employed by it, or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's other obligations included herein.

The Contractor shall designate a responsible member of the Contractor's organization at the Site whose duty shall be the prevention of accidents. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Member.

The Contractor shall not permit any part of the construction or Site to be loaded so as to endanger safety.

39. Tests and Inspections

Tests, inspections, and approvals of portions of the Work required by the Contract Documents or by laws, ordinances, rules, regulations, or orders of public authorities having jurisdiction shall be made at an appropriate time. Unless otherwise provided, the Contractor shall make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to the Member, or with the appropriate public authority. The Contractor shall give the Member timely notice of when and where tests and inspections are to be made so that the Member may be present for such procedures.

If the Member or public authorities having jurisdiction determine that portions of the Work require, through no fault of the Contractor, additional testing, inspection or approval, the Member will instruct the Contractor to make arrangements for such additional testing, inspection or approval by an entity acceptable to the Member, and the Contractor shall give timely notice to the Member of when and where tests and inspections are to be made so that the Member may be present for such procedures. Such costs shall be at the Member's expense.

If such procedures for testing, inspection or approval reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, all costs made necessary by such failure including those of repeated procedures shall be at the Contractor's expense.

Required certificates of testing, inspection or approval shall, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to the Member.

If the Member is to observe tests, inspections or approvals required by the Contract Documents, the Member will do so promptly and, where practicable, at the normal place of testing.

Tests or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

40. Hazardous Materials

If reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to lead based paint, asbestos or polychlorinated biphenyl (PCB), encountered on the Site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop the Work in the affected area and report the condition to the Member in writing.

The Member shall obtain the services of a licensed laboratory to verify the presence or absence of the material or substance reported by the Contractor and, in the event such material or substance is found to be present, to verify that it has been rendered harmless. Unless otherwise required by the Contract Documents, the Member shall furnish in writing to the Contractor the names and qualifications of persons or entities who are to perform tests verifying the presence or absence of such material or substance or who are to perform the Task of removal or safe containment of such material or substance. The Contractor will promptly reply to the Member in writing stating whether

or not it has reasonable objection to the persons or entities proposed by the Member. If the Contractor has an objection to a person or entity proposed by the Member, the Member shall propose another to whom the Contractor has no reasonable objection. When the material or substance has been rendered harmless, the Work in the affected area shall resume upon written agreement of the Member and Contractor. The Job Order Completion Time shall be extended appropriately.

To the fullest extent permitted by law, the Member shall indemnify and hold harmless the Contractor, and its agents and employees from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work in the affected area if in fact the material or substance presents the risk of bodily injury or death as described herein and has not been rendered harmless, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself) and provided that such damage, loss or expense is not due to the sole negligence of a party seeking indemnity.

The Member shall not be responsible for materials and substances brought to the Site by the Contractor unless such materials or substances were required by the Detailed Scope of Work.

If, without negligence on the part of the Contractor, the Contractor is held liable for the cost of remediation of a hazardous material or substance solely by reason of performing the Work as required by the Contract Documents, the Member shall indemnify the Contractor for all cost and expense thereby incurred.

41. Insurance

The contractor at their expense and included as part of overhead will provide adequate insurance coverage meeting at a minimum the requirements of the State of Ohio or another applicable jurisdiction. The contractor, if awarded a contract, will provide within 14 days but prior to the commencement of any construction, a certificate of insurance showing that CCOG, Equalis Group and its agents have been named as additional insured. If the public agency has higher insurance than those requirements may be added as an addendum to the purchase order.

42. Certificates of Insurance

Certificates of Insurance, name and address of the contractor, the limits of liability, the effective dates of each policy and policy number shall be delivered to the Member prior to commencement of work. The insurance company shall be licensed in the state in which the work is being performed under this contract. The Contractor shall give the Member a minimum of ten (10) days' notice prior to any modifications or cancellation of policies. The Contractor will add the Member as an additional insured if requested at the cost of the vendor.

To ensure quality of workmanship, all work performed under this contract shall be performed by experienced, trained, certified and/or licensed craftsmen and laborers, and shall be under the supervision of the foremen or supervisor.

The contractor shall furnish the services of an experienced foreman or supervisor who will continually oversee work on the project. The foreman or supervisor shall provide continuous supervision, coordination and inspection of the work being performed under this contract.

47. Liquidated Damages

If provided for in the Invitation to Bid, CCOG or the Member may assess liquidated damages for each day after the Purchase Order Completion Time that the Detailed Scope of Work is not complete. It is understood and agreed by and between Contractor, CCOG, and the Member, that time is of the essence in all matters relating to Liquidated Damages. The liquidated damages will be determined on a Purchase Order by Purchase Order basis.

48. Project Completion

Upon completion of the work, the contractor shall present the Member with all documents necessary to close out the project. Maintenance manuals, drawings, warranties on installed equipment, etc. shall be given to the Member.

If the Member discovers an unfinished job that should have been completed, even if final payments are made, the contractor will complete the work in a timely fashion at no additional cost.

49. Public Works

The contractor shall be responsible for the preservation of all public and private property included on or adjacent to the worksite. The requirement shall apply to the surface and hidden features of the property.

Construction work on public buildings shall be in compliance with all currently applicable state and local building, plumbing, electrical, fire, fire prevention and mechanical codes.

50. Restoration

The contractor shall agree to repair, rebuild or otherwise restore any property on or adjacent to the worksite that was damaged during the course of work on the project. Such restoration shall be at the contractor's expense and is not subject to reimbursement by the Member.

51. Retention

If a substitute security is agreed to, the contractor must provide the Member with a signed and acknowledged waiver of any right or power of the obligor to set off any claim against the public agency.

52. Compliance with Laws

In connection with the performance of this Agreement, the Contractor shall comply with all applicable laws, rules and regulations. The parties hereto agree that every provision of law required to be inserted herein be deemed a part hereof. It is further agreed that if any such provision is not inserted or is incorrectly inserted, through mistake or otherwise, this Agreement shall be deemed amended so as to comply strictly with the law.

The contractor must advise the Member whenever work is expected to be hazardous to Member employees or their charges (i.e. school children, citizens, etc.).

55. Worksite

The condition of the site before start-up will be agreed upon between the buyer and the contractor and will be written into the contract.

Upon prior written agreement between the contractor and the Member, payment may be made for materials not incorporated in the work but delivered and suitably stored at the worksite or some other location, for installation at a later date. An inventory of the stored materials must be provided to the Member prior to payment. Such materials must be stored and protected in a secure location and be insured for their full value by the contractor against loss and damage. The contractor agrees to provide proof of coverage and/or addition of the Member as an additional insured upon the Member's request. Additionally, if stored offsite, the materials must also be clearly identified as property of the Member and be separated from other materials. The Member must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary.

Until final acceptance by the Member, it shall be the contractor's responsibility to protect all materials and equipment. The contractor warrants and guarantees that title for all work, materials

56. Computer Software

The Contractor must maintain at its office for its use a computer with an internet connection. The Contractor will be furnished with a copy of the internet based eGordian® software which will allow the Contractor to generate Price Proposals. This software program contains an electronic copy of the Construction Task Catalog and allows the Contractor to select items and quantities for use in a particular Price Proposal. The software generates a Price Proposal in a preset format acceptable to the Member. There is no separate charge to the Contractor for the software and the related software training.

57. Equal Employment Opportunity

65. Material Price Spike Adjustment

Material price spike adjustment: For the purpose of this clause, a "major spike" is defined as a spike in a specific material cost of more than 25% above what the cost of that material was on the date the Construction Task Catalog® was issued.

In the event a major spike occurs in a specific material cost, CONTRACTOR may submit a request for a price modification to a Unit Price or individual Job Order. In order to initiate such a request, CONTRACTOR shall,

1. Identify the specific material that has experienced a major spike,
2. Identify Pre-priced Task(s) or Job Orders that require the material experiencing a major spike,

and

3. Demonstrate that the spike exists by submitting a minimum of three quotes on material supplier letterhead to show that the current price meets the “major spike” definition above.

CCOG or it’s Member, after review of a request, may elect to adjust the Unit Price or Job Order by considering it a Non-Pre-Priced item. The adjustment will be for the difference between the material cost at the time the Construction Task Catalog® was issued times the quantity stated in the Job Order. The adjustment will not include any other markup, and the Non-Pre-Priced adjustment factor will not apply.

CCOG or it’s Member, at its option, may also determine that a drastic decrease in a material cost warrants the same Non-Pre-Priced adjustment downward in the Unit Price or a Job Order.

F. Members, Association Partners, and Association Partners’ members are referred to throughout this Master Agreement as Equalis Group participants (“**Equalis Group Participants**”).

G. CCOG issued this Invitation for Bid (“IFB”) on behalf of Equalis Group Participants and awarded a contract to Winning Supplier as a lowest responsive and responsible bidder. The products and services made available in this contract are defined by the contents of the Winning Supplier’s Cost Proposal submission (“**Products & Services**”). CCOG and Equalis agree to make the Products & Services from Winning Supplier available to Equalis Group Participants and Winning Supplier agrees to provide the same to Equalis Group Participants who purchase Products & Services (“**Program Participants**”) subject to the terms of this Master Agreement.

NOW, THEREFORE, in consideration of the mutual promises contained herein, the Parties agree to the following terms and conditions:

2 TERMS AND CONDITIONS

2.1 **Personnel & Equipment.** The Parties agree that the number and types of any subcontractors, dealers, distributors, personnel, or specialized equipment which may be required to furnish Products & Services to Program Participants will be determined by Winning Supplier. Winning Supplier agrees to engage the number and types of subcontractors, personnel, and/or specialized equipment necessary to furnish the types of Products & Services as specified in **Appendix B** to all Program Participants throughout the Term, as defined in **Appendix A**, of this Master Agreement and any Customer Agreement.

2.2 **Supplemental Agreements.** Winning Supplier may enter into separate supplemental agreements with an Equalis Group Participant to further define the terms and conditions of purchasing Products & Services as defined in **Appendix B** (“**Customer Agreement**”). Any Customer Agreement entered into as a result of this contract is exclusively between the Program Participant and Winning Supplier. Neither CCOG, Equalis Group, its agents, Member and employees shall be made party to any claim for breach of such agreement. Notwithstanding the foregoing, by ordering products or services under this Master Agreement, all terms and conditions of this Master Agreement will be incorporated into a resulting Customer Agreement unless the Customer Agreement as mutually agreed between Winning Supplier and the Program Participant states otherwise. Any Customer Agreement entered into as a result of this contract is exclusively between the Program

Participant and Winning Supplier. Neither CCOG, Equalis Group, its agents, Member and employees shall be made party to any claim for breach of such agreement.

2.3 Rates & Charges. The rates, fees, and charges to be charged to and paid by Program Participants for Products & Services are set forth in **Appendix B**. Winning Supplier agrees that there are no other applicable rates, fees, charges, or other monetary incentives for Products & Services except those set forth in Winning Supplier's cost proposal.

2.4 The Term. This Master Agreement and the Appendices attached hereto will become effective as of effective date identified in the **Master Agreement Signature Form** (the "**Effective Date**"). This Master Agreement will remain in effect for two (2) years and will expire on the date identified in the **Master Agreement Signature Form** (the "**Termination Date**") unless extended, terminated, or cancelled as set forth in the Master Agreement (the "**Initial Term**"). This Master Agreement may be renewed for one (1) additional two (2) year period by mutual consent (a "**Renewal Term**") unless this Master Agreement is terminated as set forth herein. The Initial Term together with all Renewal Terms exercised are hereinafter collectively referred to as the "**Term**."

In the event the Master Agreement expires before another bid is awarded, CCOG, Equalis Group, and the Winning Supplier may extend the contract for an additional (1) one year term per mutual agreement.

2.5 Formation of Contract

- a. **Bidder Contract Documents.** CCOG and Equalis Group will review proposed Bidder contract documents. Bidder's contract document shall not become part of CCOG and Equalis Groups' contract with Bidder unless and until an authorized representative of CCOG and Equalis Group reviews and approves it.
- b. **Entire Agreement.** This Master Agreement, including its Recitals, together with all components of the IFB, attachments, appendices, and exhibits hereto, constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes all prior oral or written representations and agreements with regard to the same subject matter. The Parties acknowledge that this Master Agreement has been negotiated and incorporates their collective agreement as to the provisions to be contained herein. Therefore, no presumption will arise giving benefit of interpretation by virtue of authorship of any provision of this Master Agreement, and any ambiguity may not be construed for or against any Party. Winning Supplier's complete and final IFB response is hereby incorporated into and made part of this Master Agreement.
- c. **Modification.** No release, discharge, abandonment, waiver, alteration, or modification of any of the provisions of this Master Agreement, or any of the Appendices incorporated herein, shall be binding upon any Party unless set forth in a writing signed by authorized representatives of the Parties.

- d. **Assignment.** This Master Agreement and the rights and obligations hereunder may not be assignable by any Party hereto without the prior written consent of the other Parties, which consent shall not be unreasonably withheld, conditioned, or delayed, provided, however, that Winning Supplier and Equalis may assign their respective rights and obligations under this Master Agreement without the consent of the other Parties in the event either Winning Supplier or Equalis shall hereafter effect a corporate reorganization, consolidation, merger, merge into, sale to, or a transfer of all or substantially all of its properties or assets to another entity. Subject to the preceding sentence, this Master Agreement will be binding upon, inure to the benefit of, and be enforceable by the Parties and their respective successors and assigns. Any instrument purporting to make an assignment in violation of this section shall be null and void. This Master Agreement may be extended to additional entities affiliated with the Parties upon the mutual agreement of the Parties. No such extension will relieve the extending Party of its rights and obligations under this Master Agreement.

2.6 **Confidentiality.**

- e. **Obligation.** The nature and details of the business relationship established by this Master Agreement, and the business information regarding the other Party(ies) (the “**Disclosing Party**”) to which a Party(ies) (the “**Receiving Party**”) may become privy during the Term of this Master Agreement (collectively, the “**Information**”) constitute confidential and proprietary information, the disclosure, copying, or distribution of which could result in competitive harm to the Disclosing Party. Each Party agrees to maintain the other Parties’ Information in the strictest confidence and agrees not to disclose, copy, or distribute the other Parties’ Information, whether orally or in writing, directly or indirectly, in whole or in part, except to those of the Receiving Party’s employees, agents, subcontractors, and suppliers with a need to know the Information. The foregoing will not limit a Receiving Party, for purposes of marketing, from informing actual or potential Equalis Group Participants of the existence of a contractual relationship between the Parties. The Parties further agree that they will require that all of their employees, agents, subcontractors, and suppliers abide by the terms of these confidentiality obligations. The confidentiality obligations set forth in this section will continue in effect for the Term of this Master Agreement and for a period of two (2) years after the date this Master Agreement is terminated or expires.
- f. **Exceptions.** Nothing herein will apply to any information (a) which is or becomes generally available to the public other than as a result of a disclosure by a Receiving Party or its representatives, (b) which was available on a non-confidential basis prior to its disclosure by the Disclosing Party or its representatives, (c) which becomes available to a Receiving Party on a non-confidential basis from a source other than the Disclosing Party or its representatives, provided that such source is not known to be subject to any prohibition against transmitting the information, (d) which is disclosed pursuant to an order of court; provided that in the event that proprietary information is disclosed or threatened to be disclosed pursuant to this clause (d), the Receiving Party will give the

original Disclosing Party prompt, written Notice, as hereinafter defined, of such threatened disclosure and the right to defend against such disclosure, at Disclosing Party's expense, and provided further that the original Receiving Party will cooperate reasonably in such defense, or (e) which is subject to a Freedom of Information Act Request or other public records request to which a Party is, or may be, required to respond by applicable law.

2.7 Indemnification. Winning Supplier shall protect, indemnify, and hold harmless both CCOG and Equalis Group and its Members, administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of Winning Supplier, Winning Supplier employees or subcontractors in the preparation of the solicitation and the later execution of the contract, including any supplemental agreements with Members ("Losses").

2.8 Notice & Opportunity to Defend; Limitations & Thresholds.

g. Notice; Opportunity. If any Losses are asserted against an Indemnified Party, such Indemnified Party shall notify the Indemnifying Party as promptly as practicable and give it an opportunity to defend the same. The Indemnified Party shall reasonably cooperate with the Indemnifying Party in connection with such defense. In the event that the Indemnifying Party in connection with such claim fails to defend against the claim within thirty (30) days after Notice of such claim, the Indemnified Party shall be entitled to assume the defense thereof, and the Indemnifying Party shall be liable to repay the Indemnified Party entitled to indemnification for all its expenses reasonably incurred in connection with said defense (including reasonable attorneys' fees and settlement payments) until the Indemnifying Party assumes such defense. The attorneys prosecuting such defense on behalf of a Party must be acceptable to the Indemnified Party, which acceptance shall not be unreasonably withheld.

h. Liability. Notwithstanding any other provision of this Master Agreement, indemnity obligations entered into hereunder shall be due only to the extent of the Losses actually suffered by an Indemnified Party (i.e., reduced by any offsetting or related asset or service received and any recovery from any third party). The Indemnifying Party's insurance shall obtain all rights of the Indemnified Party against any third party with respect to any claim for which indemnity was paid.

2.9 Winning Supplier Insurance. During the Term of this Master Agreement, and for two (2) years following expiration or termination of this Master Agreement, Winning Supplier, at its own expense, shall maintain and shall require that its agents, subcontractors, and suppliers engaged in Winning Supplier's performance of its duties under this Master Agreement maintain general liability insurance, property insurance, and automobile insurance (at a minimum, in the amount of \$1,000,000 per occurrence/\$5,000,000 annual aggregate) applicable to any claims, liabilities, damages, costs, or expenses arising out of its performance under this Master Agreement, or any Appendix, and with respect to, or arising out of, Winning Supplier's provision of Products & Services to Program Participants. CCOG, Equalis, and their respective officers, directors, employees, and agents will be named as certificate holders on Winning Supplier's related

insurance policies. All such insurance policies shall incorporate a provision requiring the giving of written Notice to CCOG and Equalis at least thirty (30) days prior to the cancellation, nonrenewal, and/or material modification of any such policies. Winning Supplier shall submit to Equalis within ten (10) calendar days after the Effective Date of this Master Agreement, and prior to furnishing Products & Services to any Program Participants, valid certificates evidencing the effectiveness of the foregoing insurance policies. Winning Supplier shall provide such valid certificates on an annual basis until the terms of this section are no longer applicable.

2.10 Termination Rights. The Parties shall have the termination rights set forth below.

- i. **Insolvency.** If a petition in bankruptcy is filed by any Party, or if any Party is adjudicated as bankrupt, or if any Party makes a general assignment for the benefit of creditors, or if a receiver is appointed on account of the insolvency of any Party, then the other Parties, without prejudice to any other right or remedy, may terminate this Master Agreement upon giving at least five (5) business days prior written Notice of such termination.
- j. **Mutual Consent.** This Master Agreement, or any Appendix, may be terminated at any time by the mutual written consent of the Parties.
- k. **Breach.** In the event that any Party commits a material breach of its obligations under this Master Agreement, except for a payment obligation, the non-breaching Party(ies) may provide written Notice describing the material breach to the breaching Party. The breaching Party will have thirty (30) calendar days to cure such breach or provide acceptable reassurance to the non-breaching Party(ies), or, if the Parties agree that a cure or reassurance is not feasible within thirty calendar (30) days, such period of time for cure or satisfactory reassurance as the Parties may agree in writing. If the breach is not cured within such period or if satisfactory reassurance is not accepted by the non-breaching Party(ies) in such period, then the Party(ies) not in breach may terminate this Master Agreement upon ten (10) business days written Notice at the Addresses for Notices set forth in Appendix A.

2.11 Effects of Termination. Upon termination of this Agreement for any reason, all Customer Agreements entered into with Program Participants shall immediately terminate. Winning Supplier shall immediately cease any sales of Products & Services to any Program Participant under and through the terms of this Master Agreement. Following the date of termination, Winning Supplier shall not be precluded from selling its products and services to individuals, businesses, and entities that were Program Participants when this Master Agreement was in effect either directly or through some other contract vehicle. Following the date of termination, CCOG and Equalis shall not be precluded from transitioning individuals, businesses, and entities that were Program Participants when this Master Agreement was in effect to another agreement or Equalis Group supplier partner.

2.12 Audit of Winning Supplier. CCOG and Equalis, whether directly or through an independent auditor or accounting firm, shall have the right to perform audits, including inspection of books, records, and computer data relevant to Winning Supplier's provision of Products & Services to

Program Participants pursuant to this Master Agreement, to ensure that pricing, inventory, quality, process, and business controls are maintained; provided, however, that such inspections and audits will be conducted upon reasonable notice to Winning Supplier and so as not to unreasonably interfere with Winning Supplier's business or operations.

2.13 Force Majeure. This Master Agreement will be temporarily suspended during any period to the extent that any Party during that period is unable to carry out its obligations under this Master Agreement or the Appendices by reason of an Act of God or the public enemy, act of terrorism, epidemic or pandemic, fire, flood, labor disorder not caused by Winning Supplier, civil commotion, closing of the public highways not caused by Winning Supplier, government interference, government regulations, or any other event or occurrence beyond the reasonable control of the affected Party ("**Event of Force Majeure**"). No Party will have any liability to the other Party(ies) for a delay in performance nor failure to perform to the extent this Master Agreement or any Appendix is so temporarily suspended; provided that nothing contained herein shall apply to payment obligations with respect to obligations which have already been performed under this Master Agreement. If the provision of Products & Services are impeded due to an Event of Force Majeure, then Winning Supplier may apportion the provision of Products & Services among its present and future customers on a fair and reasonable basis after consulting with Equalis and the Program Participants potentially affected and in a manner that would not reasonably be expected to disproportionately affect Program Participants.

2.14 Notices. All notices, claims, certificates, requests, demands, and other communications required or permitted hereunder ("**Notice**") must be in writing and will be deemed given to the Addresses for Notices (a) when delivered personally to the recipient, (b) upon delivery by reputable overnight courier service (charges prepaid), or (c) upon delivery or refusal of delivery by certified or registered mail, return receipt requested, and addressed to the intended recipient. The Parties agree that the day-to-day business communications, including notification of a change of address, pricing updates, or revisions to any Appendix, may be made via electronic communication.

2.16 Governing Law; Invalidity. This Master Agreement shall be construed and enforced in accordance with, and governed by, the laws of the State of Ohio without regard to rules of conflict of laws. 5. *Please provide a brief history of your company, including the year it was established:*

We are a General Contractor that specializes in government projects with a focus on maintenance and repair projects. We were formed in January 2022, but our staff has managed and executed over 200 JOC Contracts in the past 10 years. We currently are not in a JOC Contract, but we have over 30 projects currently with other State Agencies.

6. *What was your annual construction volume over last three (3) years?*

We were awarded over \$7 Million in contracts in 2022

7. *What are your overall public sector sales, excluding Federal Government, for last three (3) years?*

We had over \$6 Million of sales in the public sector in 2022

8. *What is your strategy to increase market share in the public sector?*

We have a strong relationship with state and local government agencies and will continue to introduce the JOC Procurement model to them. We currently have a few new clients interested in teaming up and we would love to introduce them to the JOC model. We have found that many agencies and public entities prefer to award JOC Contracts over Public Bid once they give us a chance to demonstrate the efficiency of the program.

9. *What differentiates your company from competitors in the public sector?*

While we are a new company, our staff has been involved with procuring projects through the JOC system for over 10 years and has completed over 500 projects through a JOC Contract. During that time, we have developed a sound strategy to help streamline the proposal process and construction execution that utilizes the full advantages of utilizing the JOC Procurement System.

One of the main benefits of procuring a project through the JOC system is that it allows a teaming relationship to be created between the Public Entity, Gordian, and the selected contractor. This relationship helps to eliminate the confrontations that arise in public bidding due to inaccurate drawings or scope of work. The Owner knows which Contractor will be performing the work before any scope or pricing is presented. This allows all parties to work together to determine the best scope and budget for each specific project vs being tied to the lowest bid contractor.

An example that illustrates our understanding of the JOC Procurement system is reflected in a Project we were involved with that we procured and managed (with a previous employer) through JOC for ODOT to replace their existing roof trusses while maintaining their daily operations. This project was nominated for and won the Harry H. Mellon Award of Excellence in Job Order Contracting. This is a national award sponsored by the Gordian Group and is awarded to only One (1) JOC Contractor out of the 10's of thousand contractors each year who demonstrate innovative uses of the JOC Program principles and practices while identifying unique and innovate ways the process can function in construction, repair, and renovation work.

This award was given to this project team because we utilized the JOC Concept to the fullest potential by creating a Team Relationship which collaboratively identified the project needs and executed the project together in the most efficient and safest plan possible. This all was achieved by openly communicating with each other to coordinate all Project Team Members along with ODOT's staff and worked together very closely to create a successful project. In the end, there were no change orders, and the work were completed on time with no safety incidents.

Below we will address the different components of the JOC Procurement System and identify how we understand the process and can help the CMHA utilize the JOC Contract together with CG Group to create more successful projects like the nationally acclaimed project mentioned above.

The Joint Scope Meeting

This Team approach is utilized very early on in the JOC Procurement system beginning with the Joint Scope Meeting. This meeting allows the Public Entity, Gordian, & CG Group to openly discuss the scope and potential budget information. With all parties working together from the start, this allows the specific needs of each project to be discussed and determine what should be incorporated into the Scope of Work while considering the budgetary restraints.

It also allows the Team to discuss potential alternates that still accomplish the project needs and budget. When all options are discussed openly, the scope and budget can be customized to meet the Agency's needs.

As indicated above, we have been involved with JOC Contracts for over the past 10 years. This has allowed us to understand how to work with owners and other project team members to help maximize the Team approach and discussions at the Joint Scope Meeting. Not all projects have design drawings available to provide a proposal. When we are selected the JOC Contractor for a project, we are responsible to provide a complete scope to accomplish the Detailed Scope of Work. This is where CG Group can use our expertise and experience to help determine all the scope of work that is required to perform a successful project while meeting all the client's needs. Once we understand the Team's needs, we can evaluate and recommend solutions to meet those needs the most efficient way possible.

Another important aspect of the Joint Scope Meeting and example of open communication is to discuss with the Team the facility daily activities and how our work may impact the facility and/or staff. We would discuss any special provisions needed to protect the staff and/or patients during our work. CG would also keep areas around the construction area open to maintain daily access for the staff and residents' complete access around our worksite boundaries.

Job Order Price Proposal

Once the Detailed Scope has been finalized and agreed upon, we would then begin to create the Job Order Price Proposal utilizing the Construction Task Catalog on eGordian website. Being involved with pricing JOC projects for the past 12 years, we have an extensive knowledge of the Construction Task Catalog. We understand how to utilize the Catalog to provide the most precise Job Order Proposal we can by inserting the correct line items that meet the proper criteria for every line item.

Project Execution

We have a vast network of qualified suppliers and subcontractors that we partner with to successfully execute multiple JOC Contracts at one time. Since we control the scope from the Joint Scope and the Price Proposal, we can ensure that our subcontractors show up to site with the right information and successfully complete the work under our management. We ensure that everyone provides the highest professionalism and quality to our jobsites.

Close Out

Once we complete a project, we would request a Punchlist walk through to identify any items of work that may need corrected or completed. We would distribute a Punchlist of agreed upon items and distribute to the project team and indicate when we will have the work completed for each item. Upon completion of each item, we would inspect the work again with the Project Team and have a final sign off for all parties that everyone agrees that all work is completed. No matter how well our Construction Team performs, we believe a strong finish is just as crucial to the definition of a successful project.

This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200 (sometimes referred to as the "Uniform Guidance" or "EDGAR" requirements).

All bidders submitting proposals must complete this Federal Funds Certification Form regarding bidder's willingness and ability to comply with certain requirements which may be applicable to specific participating agency purchases using federal grant funds. This completed form will be made available to Members for their use while considering their purchasing options when using federal grant funds. Members may also require Supplier Partners to enter into ancillary agreements, in addition to the contract's general terms and conditions, to address the member's specific contractual needs, including contract requirements for a procurement using federal grants or contracts.

For each of the items below, respondent should certify their agreement and ability to comply, where applicable, by having respondents authorized representative complete and initial the applicable lines after each section and sign the acknowledgment at the end of this form. If a Bidder fails to complete any item in this form, CCOG will consider the respondent's response to be that they are unable or unwilling to comply. A negative response to any of the items may, if applicable, impact the ability of a participating agency to purchase from the Supplier Partner using federal funds.

Contracts for more than the simplified acquisition threshold currently set at one hundred fifty thousand dollars (\$150,000), which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 USC 1908, must address administrative, contractual, or legal remedies in instances where Supplier Partners violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Any contract award will be subject to Terms and Conditions of the Master Agreement, as well as any additional terms and conditions in any purchase order, participating agency ancillary contract, or Member construction contract agreed upon by Supplier Partner and the participating agency which must be consistent with and protect the participating agency at least to the same extent as the CCOG Terms and Conditions.

The remedies under the contract are in addition to any other remedies that may be available under law or in equity. By submitting a proposal, you agree to these Supplier Partner violation and breach of contract terms.
