5. *Please provide a brief history of your company, including the year it was established:*

We are a General Contractor that specializes in government projects with a focus on maintenance and repair projects. We were formed in January 2022, but our staff has managed and executed over 200 JOC Contracts in the past 10 years. We currently are not in a JOC Contract, but we have over 30 projects currently with other State Agencies.

6. *What was your annual construction volume over last three (3) years?*

We were awarded over \$7 Million in contracts in 2022

7. *What are your overall public sector sales, excluding Federal Government, for last three (3) years?*

We had over \$6 Million of sales in the public sector in 2022

8. *What is your strategy to increase market share in the public sector?*

We have a strong relationship with state and local government agencies and will continue to introduce the JOC Procurement model to them. We currently have a few new clients interested in teaming up and we would love to introduce them to the JOC model. We have found that many agencies and public entities prefer to award JOC Contracts over Public Bid once they give us a chance to demonstrate the efficiency of the program.

9. *What differentiates your company from competitors in the public sector?*

While we are a new company, our staff has been involved with procuring projects through the JOC system for over 10 years and has completed over 500 projects through a JOC Contract. During that time, we have developed a sound strategy to help streamline the proposal process and construction execution that utilizes the full advantages of utilizing the JOC Procurement System.

One of the main benefits of procuring a project through the JOC system is that it allows a teaming relationship to be created between the Public Entity, Gordian, and the selected contractor. This relationship helps to eliminate the confrontations that arise in public bidding due to inaccurate drawings or scope of work. The Owner knows which Contractor will be performing the work before any scope or pricing is presented. This allows all parties to work together to determine the best scope and budget for each specific project vs being tied to the lowest bid contractor.

An example that illustrates our understanding of the JOC Procurement system is reflected in a Project we were involved with that we procured and managed (with a previous employer) through JOC for ODOT to replace their existing roof trusses while maintaining their daily operations. This project was nominated for and won the Harry H. Mellon Award of Excellence in Job Order Contracting. This is a national award sponsored by the Gordian Group and is awarded to only One (1) JOC Contractor out of the 10's of thousand contractors each year who demonstrate innovative uses of the JOC Program principles and practices while identifying unique and innovate ways the process can function in construction, repair, and renovation work.

This award was given to this project team because we utilized the JOC Concept to the fullest potential by creating a Team Relationship which collaboratively identified the project needs and executed the project together in the most efficient and safest plan possible. This all was achieved by openly communicating with each other to coordinate all Project Team Members along with ODOT's staff and worked together very closely to create a successful project. In the end, there were no change orders, and the work were completed on time with no safety incidents.

Below we will address the different components of the JOC Procurement System and identify how we understand the process and can help the CMHA utilize the JOC Contract together with CG Group to create more successful projects like the nationally acclaimed project mentioned above.

The Joint Scope Meeting

This Team approach is utilized very early on in the JOC Procurement system beginning with the Joint Scope Meeting. This meeting allows the Public Entity, Gordian, & CG Group to openly discuss the scope and potential budget information. With all parties working together from the start, this allows the specific needs of each project to be discussed and determine what should be incorporated into the Scope of Work while considering the budgetary restraints.

It also allows the Team to discuss potential alternates that still accomplish the project needs and budget. When all options are discussed openly, the scope and budget can be customized to meet the Agency's needs.

As indicated above, we have been involved with JOC Contracts for over the past 10 years. This has allowed us to understand how to work with owners and other project team members to help maximize the Team approach and discussions at the Joint Scope Meeting. Not all projects have design drawings available to provide a proposal. When we are selected the JOC Contractor for a project, we are responsible to provide a complete scope to accomplish the Detailed Scope of Work. This is where CG Group can use our expertise and experience to help determine all the scope of work that is required to perform a successful project while meeting all the client's needs. Once we understand the Team's needs, we can evaluate and recommend solutions to meet those needs the most efficient way possible.

Another important aspect of the Joint Scope Meeting and example of open communication is to discuss with the Team the facility daily activities and how our work may impact the facility and/or staff. We would discuss any special provisions needed to protect the staff and/or patients during our work. CG would also keep areas around the construction area open to maintain daily access for the staff and residents' complete access around our worksite boundaries.

Job Order Price Proposal

Once the Detailed Scope has been finalized and agreed upon, we would then begin to create the Job Order Price Proposal utilizing the Construction Task Catalog on eGordian website. Being involved with pricing JOC projects for the past 12 years, we have an extensive knowledge of the Construction Task Catalog. We understand how to utilize the Catalog to provide the most precise Job Order Proposal we can by inserting the correct line items that meet the proper criteria for every line item.

Project Execution

We have a vast network of qualified suppliers and subcontractors that we partner with to successfully execute multiple JOC Contracts at one time. Since we control the scope from the Joint Scope and the Price Proposal, we can ensure that our subcontractors show up to site with the right information and successfully complete the work under our management. We ensure that everyone provides the highest professionalism and quality to our jobsites.

Close Out

Once we complete a project, we would request a Punchlist walk through to identify any items of work that may need corrected or completed. We would distribute a Punchlist of agreed upon items and distribute to the project team and indicate when we will have the work completed for each item. Upon completion of each item, we would inspect the work again with the Project Team and have a final sign off for all parties that everyone agrees that all work is completed. No matter how well our Construction Team performs, we believe a strong finish is just as crucial to the definition of a successful project.

BID FORM 9: FEDERAL FUNDS CERIFICATION FORM

When a participating agency seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200 (sometimes referred to as the "Uniform Guidance" or "EDGAR" requirements).

All bidders submitting proposals must complete this Federal Funds Certification Form regarding bidder's willingness and ability to comply with certain requirements which may be applicable to specific participating agency purchases using federal grant funds. This completed form will be made available to Members for their use while considering their purchasing options when using federal grant funds. Members may also require Supplier Partners to enter into ancillary agreements, in addition to the contract's general terms and conditions, to address the member's specific contractual needs, including contract requirements for a procurement using federal grants or contracts.

For each of the items below, respondent should certify their agreement and ability to comply, where applicable, by having respondents authorized representative complete and initial the applicable lines after each section and sign the acknowledgment at the end of this form. If a Bidder fails to complete any item in this form, CCOG will consider the respondent's response to be that they are unable or unwilling to comply. A negative response to any of the items may, if applicable, impact the ability of a participating agency to purchase from the Supplier Partner using federal funds.

1. Supplier Partner Violation or Breach of Contract Terms

Contracts for more than the simplified acquisition threshold currently set at one hundred fifty thousand dollars (\$150,000), which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 USC 1908, must address administrative, contractual, or legal remedies in instances where Supplier Partners violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Any contract award will be subject to Terms and Conditions of the Master Agreement, as well as any additional terms and conditions in any purchase order, participating agency ancillary contract, or Member construction contract agreed upon by Supplier Partner and the participating agency which must be consistent with and protect the participating agency at least to the same extent as the CCOG Terms and Conditions.

The remedies under the contract are in addition to any other remedies that may be available under law or in equity. By submitting a proposal, you agree to these Supplier Partner violation and breach of contract terms.

BID FORM 15: UNRESOLVED FINDINGS FOR RECOVERY

O.R.C. Chapter 9.24 prohibits CCOG from awarding a contract to any entity against whom the Auditor of State has issued a finding for recovery, if such finding for recovery is “unresolved” at the time of award. By submitting a proposal, a Bidder warrants that it is not now, and will not become, subject to an “unresolved” finding for recovery under **O.R.C. Chapter 9.24** prior to the award of any contract arising out of this RFP, without notifying CCOG of such finding. The Proposal Review Team will not evaluate a proposal from any Bidder whose name, or the name of any of the subcontractors proposed by the Bidder, appears on the website of the Auditor of the State of Ohio as having an “unresolved” finding for recovery.

Is your company the subject of any unresolved findings for recoveries?

- ☐ Yes
- ☐ No

BID FORM 16: MANDATORY DISCLOSURES

1. *Mandatory Contract Performance Disclosure.*

Disclose whether your company's performance and/or the performance of any of the proposed subcontractor(s) under contracts for the provision of products and services that are the same or similar to those to be provided for the Program which is the subject of this RFP has resulted in any formal claims for breach of those contracts. For purposes of this disclosure, "**formal claims**" means any claims for breach that have been filed as a lawsuit in any court, submitted for arbitration (whether voluntary or involuntary, binding or not), or assigned to mediation. For any such claims disclosed, fully explain the details of those claims, including the allegations regarding all alleged breaches, any written or legal action resulting from those allegations, and the results of any litigation, arbitration, or mediation regarding those claims, including terms of any settlement. While disclosure of any formal claims will not automatically disqualify a Bidder from consideration, at the sole discretion of Equalis Group, such claims and a review of the background details may result in a rejection of a Bidder's proposal. Equalis Group will make this decision based on the Proposal Review Team's determination of the seriousness of the claims, the potential impact that the behavior that led to the claims could have on the Bidder's performance of the work, and the best interests of Members.

[Our Company and proposed subcontractors do not have any Formal Claims](#)

2. *Mandatory Disclosure of Governmental Investigations.*

Indicate whether your company and/or any of the proposed subcontractor(s) has been the subject of any adverse regulatory or adverse administrative governmental action (federal, state, or local) with respect to your company's performance of services similar to those described in this RFP. If any such instances are disclosed, Bidders must fully explain, in detail, the nature of the governmental action, the allegations that led to the governmental action, and the results of the governmental action including any legal action that was taken against the Bidder by the governmental agency. While disclosure of any governmental action will not automatically disqualify a Bidder from consideration, such governmental action and a review of the background details may result in a rejection of the Bidder's proposal at Group's sole discretion. Equalis Group will make this decision based on the Proposal Review Team's determination of the seriousness of the claims, the potential impact that the behavior that led to the claims could have on the Bidder's performance of the work, and the best interests of Members.

[Our Company and proposed subcontractors have no adverse regulatory or adverse administrative governmental actions.](#)
