## ABOUT US

At BELDON, our commitment to people is the foundation of everything we do — because behind every roof, every project, and every promise is a team of individuals who make it all possible.

For over 79 years, BELDON Roofing Company has grown not just through innovation and craftsmanship, but through the dedication of the people who call this company home. Many of our team members have been with us for 30 years or more — a rare legacy in today's world, and one we don't take lightly.

This kind of longevity doesn't happen by accident. It's the result of a culture that values trust, respect, and a shared

purpose. Our people are our secret sauce — the reason we continue to deliver exceptional service, the reason clients come back, and the reason BELDON feels more like a family than a workplace.

At BELDON, investing in our people isn't a policy — it's a promise. From the office to the job site, we know that when we take care of our team, everything else falls into place.
