

Navigate Tariffs With Confidence

CHOOSE CLOVER IMAGING!

In an era of unpredictable tariffs and supply chain disruptions, Clover Imaging offers the stability and reliability your business needs. While many manufacturers grapple with the turbulence of tariffs, our strategic nearshore manufacturing facility ensures a smooth, consistent supply of high-quality remanufactured cartridges.

Thanks to our North American supply chain, partnering with Clover Imaging means you benefit from seamless trade and a significantly reduced risk of tariff-related issues. We pride ourselves on delivering exceptional quality that meets or exceeds OEM standards.

HERE'S WHY CLOVER IMAGING IS YOUR SMART CHOICE:

The Stable Choice

OEMs are facing frequent tariff changes, causing dealers to have to adjust on the fly to fluctuating pricing that, if not maintained, can erode the bottom line.

Savings of Up To 40%

Clover's cartridges offer significant savings when compared to OEM cartridges, which means more profit for you.

Nearshore Remanufacturing

Our Mexicali facility ensures a secure and efficient supply chain.

All Products Come With A Performance Guarantee

We stand behind every cartridge we remanufacture with a warranty on all ink and toner cartridges.

The Eco-Friendly Choice

Our remanufactured printer cartridges are certified by GreenCircle to contain at least 86% recycled content.

**Choose Clover Imaging as your trusted partner and bring
stability and predictability to your print supplies today**
