#### Who is Diversified Woodcrafts?

Diversified is the classic story, it all started in 1975 with making test tube drying racks in a basement. Customers loved the quality and asked Diversified to make other science accessories. That was the beginning of Diversified Woodcrafts, and when they started producing furniture for the science market. In 1999, they entered the casework market and are still continuing to expand their presence in that market. Today Diversified tables, mobile labs, workstations, and casework can be found in schools, museums, and laboratories throughout the United States.

## Who is Equalis Group?

Equalis Group is a Member-Driven, Supplier-Centric organization that embodies the power of partnership. Equalis Group operates with the guiding principle that when the objectives of buyers and sellers are aligned, sustainable value is created, transcending that of the typical short-term transactional relationship. With this differentiated approach, Equalis Group is not just a cooperative purchasing organization; we are a family.

We leverage Equalis Group members' combined buying power to command better pricing and favorable contract

terms from suppliers. We develop and administer a diverse portfolio of cooperative purchasing programs that cover a wide range of products and services and provide our members with a legal and compliant exemption to the bid/request for proposals (**RFP**) process.

Each program in our rapidly growing portfolio provides our members with contracting compliance and the ability to configure the solution that best meets their individual needs while achieving the lowest Total Cost of Ownership.
