Who is Tradesmen International?

Tradesmen International is a total labor support company providing flexible trades personnel on an as needed or on-going basis. We help institutions get their work done by using our team of quality and productive craftworkers (electricians, plumbers, carpenters, HVAC technicians, drywallers, painters and more) to supplement their staff. Our trades workers enable institutions to increase their capabilities & how much they can accomplish though more effective spending while reducing risks with a variable skilled workforce.

Tradesmen provides craftworkers on an as-needed basis, balancing number, and type of people to the workload ensuring that you have the craftsmen you need while only paying for them when needed and they can be productive for you. We can help you reduce your dependency on subcontracting and those higher costs plus our trades people work for you allowing you better control of the work quality & timing.

We are the largest trades labor management company in the US and Canada with over 120 regional offices and thousands of craft professionals working across the country every day. We partner with our clients to provide value by increasing productivity and what you can accomplish with your budget.
