K-12 Schools • Universities • Federal, State, Local Government Buildings • Medical Spaces
High-Containment Laboratories • Offices • Data Centers • Central Utility Plants

Supporting You

Whether new construction or a 50-year-old facility, your building can be better. From whole-building operations to commissioning to security, FSE is privileged to support customers across the U.S. and beyond. Putting it simply:

Buildings are what we do best, freeing you to focus on what you do best.

Increase equipment lifespan, energy efficiency and occupant comfort.

Decrease unexpected and emergency repair and replacement costs, and energy spikes.

Results in a high-performing, comfortable and efficient building.

Real Clients. Real Results.

12m

SQUARE FEET

We operated and maintained our first facility 35 years ago. Today, we maintain 12-million square feet across the U.S, including that very first building.

\$1.4m

SAVED

One Ohio school district saved \$1.4 million dollars (and counting) in net energy savings through a customized energy plan.

259

FINDINGS

Our commissioning team uncovers an average of 259 potential issues per project, identifying them before they become a problem.
