

Televate: Empowering a Future of Access and Equity for All Students

A Teletherapy Platform Uniting Quality Care with Virtual Delivery

When you partner with AMN Healthcare for teletherapy, you and your students gain access to our best-in-class, therapy-built teletherapy platform, Televate, with cutting-edge technology and custom features designed for virtual delivery of services.

You no longer need to compromise between high-quality therapy delivery and virtual services. Our clinical expertise and Televate's therapy-driven technology allows you to do both, with:

1. Best-in-Class, Secure, Student-Focused Technology

Unlike basic video conferencing software, Televate's web-based technology is designed for maximum student engagement and the delivery of best-in-class clinical services. It's seamlessly integrated with your existing systems and easy for students to access.

2. Enhanced Caseload Management, Simplified

Clinicians can easily build and maintain their therapy schedule, track attendance, add and track IEP goals, manage student referrals, and upload important documents, all from one secure location—your therapy one-stop-shop.

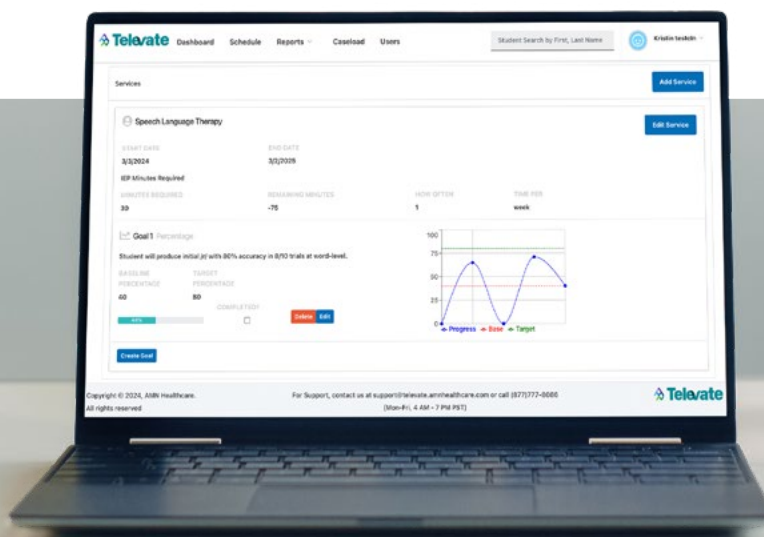

3. Essential Features for Delivering Best-in-Class Teletherapy Services

TeleVate allows trained and experienced clinicians to translate their therapy and evaluation expertise to students remotely, supporting SLPs, OTs, School Psychologists, and other related service providers. Clinicians can host individual and small group sessions with flexible video feeds, and collaborative whiteboard and greenscreen capabilities to ensure engagement and effectiveness in a variety of different therapy situations.

4. Industry-Leading Therapy and Assessment Resources

Access a therapy room that allows clinicians to integrate therapy materials and activities, with built-in, integrated assessments from leading publishers to meet standardized virtual evaluation requirements.

More Great Features of TeleVate®

- ✓ HIPAA and FERPA Secure
- ✓ Built-in digital assessments
- ✓ Second-camera integration for evaluations and specific therapy needs
- ✓ IEP goal integration and progress tracking
- ✓ Annual and triennial review reminders
- ✓ Easy integration into existing systems

Schedule a demo today to discover how TeleVate enhances student engagement, alleviates workloads for onsite clinicians, and supports equitable access to crucial therapy services for all students.
