

SPACES THAT INSPIRE

Enhancing Educational Environments.

While every learning space is different, they all have a common goal: to prepare students for the future. From quiet settings for lecture and study to energetic areas for group activities and collaboration, McCoy Rockford is here to help you create innovative spaces in which students and educators look forward to interacting.

OUR PROCESS.

Through our proven process, we leverage a suite of service capabilities to ensure your project goes smoothly. From spec and design to installation and asset management, McCoy Rockford helps you build educational spaces where innovation can flourish.

EXPERIENCE

A SPACE FOR ALL.

From classrooms, libraries and makerspaces to faculty areas and everything in between, academic environments need to inspire and engage. McCoy Rockford acts as your project consultant from start to finish, helping schools and universities cultivate workspaces that offer student choice, provide solutions for independent and group work and incorporate innovative technology.

A WEALTH OF EXPERIENCE.

With more than 70 years of experience in educational, corporate and healthcare spaces, McCoy Rockford brings a deep knowledge of the commercial real estate community. Just as importantly, we understand the challenges involved with outfitting a range of construction types, from renovations and adaptive reuse to new builds.

CROSS-MARKET EXPERTISE.

Every space has unique needs, but the fundamentals of commercial furnishing stay the same. Our experience in a range of markets allows us to apply creative solutions to your project.
