

# Gaggle ReachOut Help Within Reach

ReachOut is Gaggle’s 24/7 on-demand counseling support line. It provides immediate, compassionate help for students dealing with stress, emotional challenges, or difficult situations. ReachOut connects students to trained professionals who listen, respond, and help them feel supported.

## What Makes ReachOut Different?

- ✓ **It’s More Than a Tip Line**  
Tip lines collect information. ReachOut creates a real-time conversation. Students get personal support, not just a place to submit information. In fact, the average conversation length is 24 minutes!
- ✓ **Supportive for Students**  
Unlike adult-focused services, ReachOut counselors meet students where they are. Conversations are age-appropriate and responsive to any concern.

## ReachOut Offers

- ✓ 24/7 access through text, web chat, or phone
- ✓ Live support from professionals trained to help students, even in a crisis
- ✓ A safe space to talk about stress, relationships, emotions, or personal struggles
- ✓ Local resources shared when needed
- ✓ Alerts to districts when further support

## Better Than a One-Way Tip Line

One-Way Tip Lines	Gaggle ReachOut
One direction only	Interactive and supportive
No in-the-moment help	Immediate response
Impersonal	Student feels heard and cared for
No follow-up	District leaders kept in the loop

Whether students are feeling overwhelmed, anxious, or just need someone to talk to, ReachOut is there.
