

It's Time to Rethink Your Web Filter

- ? With 250,000 new websites created daily, can your filter keep up?
- ? What if your filter could immediately evaluate and categorize a new site?
- ? How many new proxy sites appeared today that your current filter missed?
Ours caught them all.

Gaggle's Web Filter Offers:

-  **AI Analysis:** Content categorized in real-time, 24/7
-  **Adaptive Intelligence:** Automatically identifies and blocks inappropriate sites
-  **Reduced IT Workload:** CIPA compliant, self-updating system requires minimal maintenance.
-  **Complete Safety Solution:** Works seamlessly with Safety Management for a complete digital safety solution
-  **Budget-Friendly Pricing:** Advanced protection designed specifically to help K-12 districts do more with less

Customizable

Our filter offers grade-specific filtering, custom allow/block lists, and time-based policies.

Actionable Insights

Make informed decisions with comprehensive reporting on domain traffic, blocked site attempts, and individual browsing patterns.

See the difference.
