

SOLUTION BRIEF

IT asset disposition (ITAD)

The secure and sustainable solution for retiring end-of-life assets

Standardize your IT asset disposition with Iron Mountain's ITAD program. We provide IT departments with a streamlined and consistent end-of-life service that includes data destruction, remarketing, and recycling capabilities. Our industry-leading secure chain of custody ensures data security, asset visibility, and provides comprehensive reporting. To support your organization's sustainability goals we provide an environmental benefits report that documents the carbon emission and eWaste reduction your ITAD program has provided. With Iron Mountain, you can trust that the end of life for your IT assets is managed securely, efficiently, and in a sustainable manner.

Services

IT asset remarketing

- Data bearing elements are sanitized or destroyed
- Asset/components tested and refurbished
- Maximized value recovery

Data destruction - bulk or serialized

- Media, tapes and hard drives
- Onsite (mobile) or offsite physical destruction

E-waste recycling

- Shredded media, tapes or hard drives
- Assets and/or components of no reusable value

Customer online portal*

Schedule pickups online and track assets

The audit report lists make, model, serial number and more

*The secure online portal is available in select countries.

Use cases

IT asset refresh

M&A

Office closures

Hardware asset management overview

As a global leader in hardware asset management, Iron Mountain delivers end-to-end solutions to support your IT asset lifecycle needs.

With our comprehensive services and solutions, you'll get the most out of your workplace IT assets and create business efficiencies that allow you to focus more on your internal customers. Our services also support your sustainability goals by extending the life of your assets and demonstrating positive outcomes with our Environmental Benefits Report.
