

One Platform. Every Ride. Total Peace of Mind.

Simplify student ridership, empower drivers, and streamline operations with a smarter school transportation platform.

Treker by Advantage One simplifies school transportation with a fully connected platform designed around students, parents, and the school's needs.

Explore a modular, customizable suite of tools to manage today's routes and goals—and expand as you grow.

Student Ridership & Parent Communication

Live updates, check-in tech (RFID or NFC), and instant alerts for families.

Driver Awareness & Incident Detection

AI-powered safety alerts, 360 degree view cameras, and cloud-stored video.

Enterprise Vehicle Telematics

Real-time GPS, engine health data, maintenance alerts, DVIR and automated reports.

One Connected Experience

Admin Portal

- Live GPS map with bus numbers and color-coded on-time status
- Updates every 3 seconds (location) and 15 seconds (ETA)
- View completed trips, active routes, and student-level activity
- Search bar to locate any student, driver, or bus
- Unlimited users with customizable permission levels
- Robust automated reporting with export options (Excel, API)
- Seamless routing integration or custom routing solution

Driver App

- Tap card, scan, or facial recognition for student check-ins
- Instant alerts if a rider boards or exits unexpectedly
- Driver sees full stop-by-stop student list with names and photos
- Manual check-in option if a student forgets their card
- Emergency alert system and pre-/post-trip inspection checklists
- Driver time tracking and attendance logging
- Turn-by-turn navigation and route details

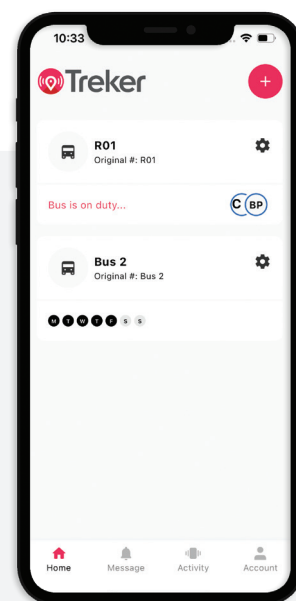

Parent App

- Custom alerts for bus arrivals and boarding/exits
- Live bus location, ETA, and route view
- Add authorized pickup contacts (e.g., family, friends, caretakers)
- Notify the school or driver if a child won't ride
- Push notifications for important announcements
- Available on phones, tablets, or desktops
- Supports multiple languages for better accessibility

Why Advantage One

- Built-in custom reporting that reflects your school's goals
- Dedicated solution integrator assigned to every district
- K-12 transportation expertise across our support team
- Future-proof solutions designed to scale as you grow
- EV Bus experts to help with the district's sustainability goals

Let's Build A Safer, Smarter Ride

Schedule a meeting with our team today, and let's streamline how your students, drivers, and operations move.
